from the Revolution to the Restoration

Social, military, and political history intersect in this meticulously researched study of French war veterans from the end of the Old Regime to the 1820s. Tracing the composition of this group, the changing public policy that determined its fate, and the institutions that served it (notably the *Hôtel des Invalides*), Woloch shows how the veterans' situation was a veritable barometer of the revolutionary experience. His principal aim is precisely to reconsider that experience from a fresh and full-scale perspective.

The book revolves around two lines of inquiry: the contours and treatment of the *armée morte* (as it came to be called) and the successive transformations of the *Hôtel des Invalides* and its pensioners. It analyzes the process of reform and rationalization after 1789 in this area straddling the civil and military sides of the public sector; the impact of mass mobilization and democratization; the rise and fall of a remarkably egalitarian veterans' policy and the "new men of the Revolution" that it produced; the retrenchment, reassertion of traditional hierarchies and of paternalism, and penchant for innovation under Napoleon; and, as an epilogue, the Restoration's essential continuity with the Empire in this area.
