French Worker Autobiographies From The Early Industrial Era:

The French Worker Mark Traugott, 2023-11-15 This anthology drawn from the autobiographies of seven men and women whose lives span the nineteenth century provides a rare glimpse of the everyday lives of workers in the age of early industrialization in France. Appearing for the first time in English, these stories vividly convey the ambitions, hardships, and reversals of ordinary people struggling to gain a measure of respectability. The workers' livelihoods are diverse: chair maker, embroiderer, joiner, mason, silk weaver, machinist, seamstress. Their stories of daily activities, work life, and popular politics are filled with lively, often poignant moments. We learn of dismal, unsanitary housing, disease, workplace accidents, and terrible hardship, especially for the children of the poor. We read of exploitation and injustice of courtship and marriage, and of the sociability of the wine merchant's shop and the boardinghouse. Traugott's analytic introduction discusses the many shifts in French society during the nineteenth century. Used in combination with other sources, these autobiographies illuminate the relationship between changes in working conditions and in the forms of political participation and protest occurring as the century came to a close. French Early Socialists 1790s-1870s Pamela Pilbeam, 2025-03-05 This new edition is an updated assessment of the ideas and strategies of early French socialists incorporating recent research which observes the practical and scientific nature of socialist proposals The second edition provides increased coverage of women's contributions including the important roles of activists like Flora Tristan and Jeanne Deroin socialist women's newspapers schools run by women and the demand for suffrage in 1848 There is also further emphasis on socialist experiments in France's new colony Algeria and on transnational connections particularly with Owen in Britain and Fourierist communities in North America Association still figures prominently as the solution to the social and economic problems created by modernisation and capitalist exploitation It took a variety of forms from Fourier's proposal that private finance create profit sharing communities to Leroux's practical cooperative venture at Boussac through Blanc and Considérant's demands for state initiative to set up worker alternatives to capitalism The democratic republic of 1848 gave socialists the opportunity to engage in politics and despite the setbacks of the Second Empire socialists were set on a parliamentary route in which they still have a presence
