A Course Book in English Grammar Dennis Freeborn, 1995-07-05 The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step using authentic written and spoken data. Using real texts avoids the faking of evidence to be found in some traditional grammar books and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition which contains additional chapters and material. A new opening chapter discusses the concept of grammatically correct English and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.

Interculturality in Learning Mandarin Chinese in British Universities Tinghe Jin, 2020-11-29 As China and Chinese language learning moves centre stage economically and politically, questions of interculturality assume even greater significance. In this book, interculturality draws attention to the processes involved in people engaging and exchanging with each other across languages, nationalities and ethnicities. The study, which adopts an ecological perspective, critically examines a range of issues and uses a variety of sources to conduct a multifaceted investigation. Data gathered from interviews with students of Mandarin sit alongside a critical discussion of a wide range of sources. Interculturality in Learning Mandarin Chinese in British Universities will be of interest to students and academics studying and researching Chinese language education and academics working in the fields of language and intercultural communication, intercultural education and language education in general.
