An Anthology of Modern French Poetry (1850-1950) Peter Broome, Graham Chesters, 1976-07-15 This anthology is the companion volume to *The Appreciation of Modern French Poetry* the aim of which was to give detailed preliminary help with the problems of poetic appreciation The fourteen poets represented here provide a varied and exciting introduction to what is probably the richest century of French poetry from 1850 to 1950 Hugo the colossus of the nineteenth century whose work gives new resonance and vitality to imaginative vision opens the anthology and Michaux the most individual and modern of twentieth century poets in that he bridges the gap between poetry and contemporary science closes it Almost all the major poets of the period are included Nerval Baudelaire Mallarmé Verlaine Rimbaud and Laforgue from the second half of the nineteenth century Valéry Apollinaire Supervielle and Eluard in the twentieth The lesser known Cros and Desnos fresh and spontaneous poets with an immediate appeal invite a new look at the lyric traditions of French verse and offer an attractive new avenue for study The choice of poems dictated above all by their individual poetic value reflects also the trends of recent criticism and the tastes of present day readers The texts are all accompanied by full notes which not only explain local difficulties of vocabulary syntax and expression but lead the reader directly into the heart of the richness of theme style and interpretation These will prove of value not only to the student who is grappling with the basics of French verse or is anxious to give depth to his familiarity but to the general reader seeking to rekindle his enjoyment of French poetry In addition there are introductions to each poet summarizing the essence of his art useful suggestions for further reading and groups of discussion topics to stimulate comparative insights and a wider responsiveness *Ports of France* Herbert Adams Gibbons, 1926 *The Journeys of Besieged Languages* Poia Rewi, Rawinia Higgins, Delyn Day, 2017-01-06 This volume allows 13 besieged languages to tell their own stories by way of their consummate battles with languages that dominate their traditional spaces and ways of thinking It tells of the value of these languages through linkages with the past and present and where continuation of this might further share those values with wider audiences beyond the current language users As such the book captures a discourse on the existence of minority languages in countries and states where they are under threat by the governing language *Uncensored* Ann Komaromi, 2015-06-30 Literature that was self published and informally circulated in the former Soviet Union in order to evade censorship in addition to prosecution of its authors came to be known as samizdat Vasilii Aksenov Andrei Bitov and Venedikt Erofeev were among its most acclaimed practitioners In her innovative study Ann Komaromi uses their work to argue for a far more sophisticated understanding of the phenomenon of samizdat showing how the material circumstances of its creation and dissemination exercised a profound influence on the very idea of dissidence When a text comes to life as samizdat it necessarily reconfigures the relationship between author and reader

Using archival research to fully illustrate samizdat's social and historical context Komaromi arrives at a more nuanced theoretical position that breaks down the opposition between the autonomous work of art and direct political engagement. The similarities between samizdat and digital culture give her formulation of dissident subjectivity particular contemporary relevance. *Routledge Revivals: Medieval France (1995)* William W. Kibler, Grover A. Zinn, 2017-07-05 First published in 1995 *Medieval France* An Encyclopedia is the first single volume reference work on the history and culture of medieval France. It covers the political, intellectual, literary and musical history of the country from the early fifth to the late fifteenth century. The shorter entries offer succinct summaries of the lives of individuals, events, works, cities, monuments and other important subjects followed by essential bibliographies. Longer essay length articles provide interpretive comments about significant institutions and important periods or events. The Encyclopedia is thoroughly cross referenced and includes a generous selection of illustrations, maps, charts and genealogies. It is especially strong in its coverage of economic issues, women, music, religion and literature. This comprehensive work of over 2,400 entries will be of key interest to students and scholars as well as general readers. *French for Mastery* Jean Paul Valette, 1981 *El-Hi Textbooks & Serials in Print*, 2003, 2003 **Sauces reflexions of a chef** Yannick Alléno, Vincent Brenot, 2014-05-14 Mixing the humorous with the erudite, this book is stuffed with tasty anecdotes from the history of sauce making in France. It is also a cry from the heart, deploring the disappearance of the great French sauces from our plates. For they were banished during the second half of the last century when they were found guilty of dietary heresy. The pioneering chef Yannick Alléno lifts the veil on cutting edge techniques that enable a chef to create a sauce like a winemaker produces a great vintage. These new sauces lie at the heart of Alléno's cuisine moderne. Along the way, the reader is taken on a fascinating historical journey from antiquity to the future and through the very DNA of French cuisine. *Benjamin Fondane's Ulysses*, 2017-06-29 From 1923 when he emigrated from Bucharest to his deportation to Auschwitz-Birkenau in 1944, Benjamin Fondane made a unique and independent minded contribution to the literary and intellectual life of Paris. One of the most significant pieces in Fondane's body of work is the long poem *Ulysses*, first published in 1933. Fondane considerably revised his text during the dark years of occupied Paris and it is this second edition, without an end left unfinished at the time of his deportation, that is translated here. It is a moving testament to the poetic voice and philosophical engagement of this exceptional figure of the Paris avant-garde. *Malory's Library* Ralph C. Norris, 2008 Ralph Norris collects the results of over 100 years of scholarship, providing new discussions of the major sources of the eight tales recognised in the standard edition of Sir Thomas Malory's *Morte d'Arthur*. He reveals much about how the work was created and about Malory himself.
