French History Volume 5 No4:

The History of Cartography, Volume 4 Matthew H. Edney, Mary Sponberg Pedley, 2020-05-15 Since its launch in 1987 the History of Cartography series has garnered critical acclaim and sparked a new generation of interdisciplinary scholarship. Cartography in the European Enlightenment: the highly anticipated fourth volume offers a comprehensive overview of the cartographic practices of Europeans, Russians and the Ottomans both at home and in overseas territories from 1650 to 1800. The social and intellectual changes that swept Enlightenment Europe also transformed many of its mapmaking practices. A new emphasis on geometric principles gave rise to improved tools for measuring and mapping the world even as large scale cartographic projects became possible under the aegis of powerful states. Yet older mapping practices persisted. Enlightenment cartography encompassed a wide variety of processes for making, circulating and using maps of different types. The volume's more than four hundred encyclopedic articles explore the era's mapping covering topics both detailed such as geodetic surveying, thematic mapping and map collecting and broad such as women and cartography, cartography and the economy and the art and design of maps. Copious bibliographical references and nearly one thousand full color illustrations complement the detailed entries. *The New Cambridge Modern History: Volume 5, The Ascendancy of France, 1648-88* F. L. Carsten, 1961 This volume examines the ascendancy of France during the period 1648-1688. **Creating Consent in Ba'athist Syria** Esther Meininghaus, 2016-03-31 The challenge of maintaining dictatorial regimes through control, co-optation and coercion while upholding a facade of legitimacy is something that has concerned leaders throughout the Middle East and beyond. Nowhere is this more evident than in the Syria ruled by the Asads, both Hafiz and his son Bashar. Drawing on the example of the General Union of Syrian Women founded in 1967, Esther Meininghaus offers new insights into how the Syrian Ba'athist regimes attempted to move beyond mere satisfaction with the compliance of the citizenry and to consolidate their rule amongst the local population. Meininghaus argues that this was partially achieved through providing welfare services delivered by the Union as one of the state-led mass organisations. In this way she suggests these regimes did not only aim to undermine opposition and to create the illusion of consent but they factually catered to local needs and depended on consent. Based on archival material, interviews and statistics, *Creating Consent in Ba'athist Syria* will shed new light on mass organisations as a crucial institution of Ba'athist state building and more broadly the construction of the Assad regimes. Family Matters Bronwyn Dalley, 1998 Traces the changes in government child welfare services from 1902 until 1992. Back cover. **The Evolution of British Strategic Policy, 1919-26** John Robert Ferris, 1989-06-18 A study of the connections between Britain's foreign financial and military policies during the 1920s, calling for a radical reassessment of the perceptions of this critical period. The author argues that Britain did not follow a single strategic policy but many different ones. **Allies at War** Tim Bouverie, 2025-06-10 A revelatory *The Guardian* political history of World War II that opens a window onto the difficulties of holding together the coalition that ultimately defeated Hitler by the critically

acclaimed author of *Appeasement* A fine reassessment of Allied politics and diplomacy during the Second World War impeccably researched elegantly written and compellingly argued The Times UK After the fall of France in June 1940 all that stood between Adolf Hitler and total victory was a narrow stretch of water and the defiance of the British people Desperate for allies Winston Churchill did everything he could to bring the United States into the conflict drive the Soviet Union and Nazi Germany apart and persuade neutral countries to resist German domination By early 1942 after the German invasion of Russia and the Japanese attack on Pearl Harbor the British Soviet American alliance was in place Yet it was an improbable and incongruous coalition divided by ideology and politics and riven with mistrust and deceit Churchill Franklin D Roosevelt and Joseph Stalin were partners in the fight to defeat Hitler but they were also rivals who disagreed on strategy imperialism and the future of liberated Europe Only by looking at their areas of conflict as well as cooperation are we able to understand the course of the war and world that developed in its aftermath *Allies at War* is a fast paced narrative history based on material drawn from more than a hundred archives Using vivid firsthand accounts and unpublished diaries Bouverie invites readers into the rooms where the critical decisions were made and goes beyond the confines of the Grand Alliance to examine among other topics the doomed Anglo French partnership and fractious relations with General Charles de Gaulle and the Free French and interactions with Poland Greece Francoist Spain and neutral Ireland Yugoslavia and Nationalist China Ambitious and compelling revealing the political drama behind the military events *Allies at War* offers a fresh perspective on the Second World War and the origins of the Cold War
