**A Dual Language Book Project 2Language Books** *The French in the United States* Jacqueline Lindenfeld,2000-09-30 Complex patterns of acculturation are revealed in the most comprehensive ethnographic study of contemporary French immigrants in the United States Written by a French born American anthropologist who has insider status among French Americans *The French in the United States* offers a fresh look at the histories and experiences of French immigrants In the foreign born generation a high degree of social integration into American society co exists with the maintenance of a French identity which manifests itself in the areas of language culture and perceptions The French heritage does not usually endure past the second generation however because its maintenance within the family is not adequately supported by collective efforts due to a lack of cohesiveness among French born individuals who have become permanent immigrants A number of factors account for the foregoing the small number of French natives in the United States their scattered geographical distribution the absence of spatially defined communities populated by direct immigrants from France and a very high rate of intermarriage Another important factor is the primarily individual nature of migration from France to this country since the last half of the 20th century and a highly developed sense of self direction in those who stay permanently Their French identity must be regarded as cultural rather than ethnic it is tied to a distant homeland rather than to a group with territorial institutional and organizational identity in the United States Lindenfeld delves into the makings of this French identity and distinguishes French immigrants from other Americans

**French Comic Drama from the Sixteenth to the Eighteenth Century** Geoffrey Brereton,2022-04-24 In tracing the course of French comedy from the Renaissance through the age of Louis XIV and the eighteenth century to the eve of the Revolution originally published in 1977 Geoffrey Brereton shows how it evolved from the crude farces and experimental plays of the sixteenth century to become a rich and highly sophisticated dramatic genre The main emphasis is on the work of the principal dramatists notably Moli re whose plays and career are given a detailed and enlightening treatment Corneille Scarron Marivaux and Beaumarchais with some space devoted to the more neglected writers such as the cynical generation of Dancourt Regnard Lesage and others and all the plays are seen in the context of the theatrical conventions that helped to shape them Different types of comedy are analysed including comedy of

character and of manners as well as the romantic burlesque and bourgeois forms and the development of the opéra comique. At the same time Dr Brereton examines the influences on French comedy as varied as those of the farce, the Italian commedia dell'arte, the Spanish comedia and the eighteenth century drama and the way in which these were absorbed and exploited by French comic dramatists. Since comedy more than any other kind of drama reflects the contemporary social scene, attention is drawn to social conditions and attitudes and some of the more striking parallels with modern social preoccupations are pointed out. Written in a very lively and readable style and containing much stimulating and original comment as well as providing the basic facts, it gives a considerable insight into the nature of French comedy during its most formative and fruitful period. A substantial bibliography and other reference material increase the usefulness of this book to the student of French drama.

**Learn French News Vol.1** Nik Marcel, LEARN FRENCH NEWS Vol 1. English French. THIS EDITION. The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing. The source text is the French language edition of Voice of America (VOA). The French text has been translated into English for this dual language project. The reader can choose between four formats: Section 1 English to French, Section 2 French to English, Section 3 English, Section 4 French. A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language, to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully. This way a reader might like to go back to reading dual language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going back to the same old news, you are going over words, word patterns and passages with which you already have a certain familiarity. The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way, even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current and

less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called French Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic French book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable French text a simple novel a French news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books
