The French Parnassian Poets Robert Thomas Denomme, 1972 Robert T Denomme who has written extensively on French literature here offers a companion volume to his *Nineteenth Century French Romantic Poets* previously published in this series Once again working within an historical philosophical and aesthetic context he provides a wealth of critical insights for the general reader as well as the specialist His first chapter surveys the evolution of poetic expression in France and succeeding chapters study the major poets Théophile Gautier Théodore de Banville Leconte de Lisle and José Maria de Heredia Incisive and concise the book provides a good general introduction to and a long overdue reassessment of French Parnassianism

Knapp, 2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer's critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world **Literary Terms** Karl E. led French writers to critique notions of European superiority But at others they appropriated Iran as proto European through racialist narratives that reinforced Orientalist stereotypes Drawing on theories of Orientalism and cultural difference this book navigates both sides of this fascinating and complex literary history It is the first major study on the subject
