highly interdisciplinary study that remains aware of the importance of theoretical paradigms as it brings concepts from international law social systems theory and even theology to bear on translation Self reference is a recurrent theme The book invites us to read translations for what they can tell us about translating and about translators own perceptions of their role The argument throughout is for more self reflexive translation studies

process their individuality of expression and experience The range of voices explored indicates something of the reach and vitality of the matter of translation and specifically non translation across a selection of poetry fiction and non fictional prose while focusing on mainly canonical voices Together these essays seek to provoke and extend debate on the aesthetic cultural political and conceptual dimensions of non translation as an important yet hitherto neglected facet of modernism thus helping to re define our understanding of that movement It demonstrates the rich possibilities of reading modernism through instances of non translation **Whitaker's Cumulative Book List** ,1970 *A Mess of Iguanas, A Whoop of Gorillas ...*
