French Revolution As Told By Contemporar:

The Origins of Contemporary France: The French revolution Hippolyte Taine, 1883

Themes in Modern European History 1780-1830 Pamela Pilbeam, 2012-08-21 Themes in Modern European History 1780 1830 is an authoritative and lively exploration of a period dominated by events which have shaped modern Europe In a series of articles six leading academics present some controversial conclusions the east west contrast in Europe today has more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917 the conservative Europe of 1814 was the product of the Romantic imagination not a Restoration of the old regime Spanning political social economic and demographic facets of revolutions this is an indispensable textbook for all students of the nineteenth century and for all those interested in understanding the nature of Europe today

Neo-Calvinism and the French Revolution James Eglinton, George Harinck, 2014-08-28 The French Revolution was the scene of much intellectual and social upheaval Its impact touched a wide range of subjects the relationship of the church to the state social relationships science literature fashion philosophy and theology Although the French Revolution s momentum was felt across Europe and North America it met a particularly interesting response in the Netherlands at that time the scene of a burgeoning neo Calvinist movement In that context the likes of Groen van Prinsterer Abraham Kuyper and Herman Bavinck responded to the French Revolution s ideals and influence in a variety of intellectual and practical ways This book approaches that Dutch response from a range of historical and theological perspectives and in so doing explores the relationship between the French Revolution and the development of neo Calvinism Beginning with historical portraits of Bavinck and Kuyper in relation to the Revolution the perspectives offered also include amongst others the place of multilingualism in neo Calvinism and the Revolution neo Calvinist and Revolutionary approaches to fashion a dialogue between Kuyperian theology and Kieslowski s Three Colours trilogy and a contemporary neo Calvinist critique of French la cit This book forms part of a wider Project neo Calvinism supported by the Theologische Universiteit Kampen and the VU University Amsterdam

Classical and Contemporary Sociological Theory Scott Appelrouth, Laura Desfor Edles, 2008 A unique hybrid of text and readings this book combines the major writings of sociology s core classical and contemporary theorists with an historical as well as theoretical framework for understanding them Laura Desfor Edles and Scott A Appelrouth provide not just a biographical and theoretical summary of each theorist reading but an overarching scaffolding which students can use to examine compare and contrast each theorists major themes and concepts No other theory text combines such student friendly explanation and analysis with original

theoretical works Key features include Pedagogical devices and visual aids charts figures and photographs to help summarize key concepts illuminate complex ideas and provoke student interest Chapters on well known figures such as Marx Weber Durkheim Parsons and Foucault as well as an in depth discussion of lesser known voices such as Charlotte Perkins Gilman WEB Du Bois and Leslie Sklair Photos of not only the theorists but of the historical milieu from which the theories arose as well as a glossary at the back

The French Revolution and Its Legacy Camil Francisc Roman, 2025-06-30 This book offers an interpretation of the French Revolution and modern democracy arguing that the revolution gave rise to a democratic power that is liminal by nature and therefore unlimited unaccountable on principle and the basis for a state religion of continuous transformation It demonstrates these claims by focusing on the universally adulated but little understood sacred motto *libert egalit fraternit* and on the sacrifice and role of Louis XVI in the revolution Analysing the revolutionary process by which representative democratic government took the shape of political metamorphosis the book shows that modern democracy does not represent the people but refers to the representation of representation and the existential condition of permanent displacement The present study will appeal to scholars from across the social political and human sciences with an interest in the French Revolution modern democracy political modernity contemporary politics and the history of art

English Historians on the French Revolution Hedva Ben-Israel,2002-08-08 A study of the historiography of the Revolution demonstrating the successive stages of British opinion The Three Axial Ages John Torpey,2017-03-01 How should we think about the shape of human history since the birth of cities and where are we headed Sociologist and historian John Torpey proposes that the Axial Age of the first millennium BCE when some of the world s major religious and intellectual developments first emerged was only one of three such decisive periods that can be used to directly affect present social problems from economic inequality to ecological destruction Torpey s argument advances the idea that there are in fact three Axial Ages instead of one original Axial Age and several subsequent smaller developments Each of the three ages contributed decisively to how humanity lives and the difficulties it faces The earliest or original Axial Age was a moral one the second was material and revolved around the creation and use of physical objects and the third is chiefly mental and focused on the technological While there are profound risks and challenges Torpey shows how a worldview that combines the strengths of all three ages has the potential to usher in a period of exceptional human freedom and possibility **Edmund Burke and**

the Invention of Modern Conservatism, 1830-1914 Emily Jones,2017-03-24 Between 1830 and 1914 in Britain a dramatic modification of the reputation of Edmund Burke 1730 1797 occurred Burke an Irishman and Whig politician is now most commonly known as the founder of modern conservatism an intellectual tradition which is also deeply connected to the identity of the British Conservative Party The idea of Burkean conservatism a political philosophy which upholds the authority of tradition the organic historic conception of society and the necessity of order religion and property has been incredibly influential both in international academic analysis and in the wider political world This is a highly significant intellectual construct but its origins have not yet been understood Emily Jones demonstrates for the first time that the transformation of Burke into the founder of conservatism was in fact part of wider developments in British political intellectual and cultural history in the nineteenth and early twentieth centuries Drawing from a wide range of sources including political texts parliamentary speeches histories biographies and educational curricula Edmund Burke and the Invention of Modern Conservatism shows how and why Burke s reputation was transformed over a formative period of British history In doing so it bridges the significant gap between the history of political thought as conventionally understood and the history of the making of political traditions The result is to demonstrate that by 1914 Burke had been firmly established as a conservative political philosopher and was admired and utilized by political Conservatives in Britain who identified themselves as his intellectual heirs This was one essential component of a conscious re working of C conservatism which is still at work today *The Book Monthly* James Milne,1908 **The New Cambridge Modern History: Volume 8, The American and French Revolutions, 1763-93** Elliot H. Goodwin,1965-01-01 This volume of the The New Cambridge

Modern History looks specifically at the American and French Revolutions in the eighteenth century **The Abbe Gregoire and the French Revolution** Alyssa Goldstein Sepinwall, 2021-06-08 In this age of globalization the eighteenth century priest and abolitionist Henri Gr goire has often been called a man ahead of his time An icon of antiracism a hero to people from Ho Chi Minh to French Jews Gr goire has been particularly celebrated since 1989 when the French government placed him in the Pantheon as a model of ideals of universalism and human rights In this beautifully written biography based on newly discovered and previously overlooked material we gain access for the first time to the full complexity of Gr goire s intellectual and political universe as well as the compelling nature of his persona His life offers an extraordinary vantage from which to view large issues in European and world history in the late eighteenth and early nineteenth centuries and provides provocative insights into many of the prevailing tensions ideals and paradoxes of the twenty first century Focusing on Gr goire s idea of regeneration that people could literally be made anew Sepinwall argues that revolutionary universalism was more complicated than it appeared Tracing the Revolution s long term legacy she suggests that while it spread concepts of equality and liberation throughout the world its ideals also helped to justify colonialism and conquest **The French Revolution** Thomas Carlyle, 1902 **The French Revolution Debate and the British Novel, 1790-1814** Morgan Rooney, 2012-11-08 This study examines how debates about history during the French Revolution informed and changed the nature of the British novel between 1790 and 1814 During these years intersections between history political ideology and fiction as well as the various meanings of the term history itself were multiple and far reaching Morgan Rooney elucidates these subtleties clearly and convincingly While political writers of the 1790s Burke Price Mackintosh Paine Godwin Wollstonecraft and others debate the historical meaning of the Glorious Revolution as a prelude to broader ideological arguments about the significance of the past for the present and future novelists engage with this discourse by representing moments of the past or otherwise vying to enlist the authority of history to further a reformist or loyalist agenda Anti Jacobin novelists such as Charles Walker Robert Bisset and Jane West draw on Burkean historical discourse to characterize the reform movement as ignorant of the complex operations of historical accretion For their part reform minded novelists such as Charlotte Smith William Godwin and Maria Edgeworth travesty Burke s tropes and arguments so as to undermine and then redefine the category of history As the Revolution crisis recedes new novel forms such as Edgeworth s regional novel Lady Morgan s national tale and Jane Porter s early historical fiction emerge but historical representation largely the legacy of the 1790s novel remains an increasingly pronounced feature of the genre Whereas the representation of history in the novel Rooney argues is initially used strategically by novelists involved in the Revolution debate it is appropriated in the early nineteenth century by authors such as Edgeworth Morgan and Porter for other often related ideological purposes before ultimately developing into a stable nonpartisan aestheticized feature of the form as practiced by Walter Scott The French Revolution Debate and the British Novel 1790 1814 demonstrates that the transformation of the novel at this fascinating

juncture of British political and literary history contributes to the emergence of the historical novel as it was first realized in Scott's *Waverley* 1814
