Today's Kitchen Cookbook Meredith Books,2005 Presents a collection of recipes from a variety of chefs and celebrities along with the hosts of the Today Show **Inventing Authenticity** Carrie Helms Tippen,2018-08-12 In *Inventing Authenticity* Carrie Helms Tippen examines the rhetorical power of storytelling in cookbooks to fortify notions of southernness Tippen brings to the table her ongoing hunt for recipe cards and evaluates a wealth of cookbooks with titles

like *Y'all Come Over and Bless Your Heart* and famous cookbooks such as Sean Brock's *Heritage* and Edward Lee's *Smoke and Pickles*. She examines her own southern history grounding it all in a thorough understanding of the relevant literature. The result is a deft and entertaining dive into the territory of southern cuisine: black-eyed peas and cornbread fried chicken and fried okra, pound cake and peach cobbler, and a look at and beyond southern food tropes that reveals much about tradition, identity, and the yearning for authenticity. Tippen discusses the act of cooking as a way to perform and therefore reinforce the identity associated with a recipe and the complexities inherent in attempts to portray the foodways of a region marked by a sometimes distasteful history. *Inventing Authenticity* meets this challenge head-on, delving into problems of cultural appropriation and representations of race, thorny questions about authorship, and more. The commonplace but deceptively complex southern cookbook can sustain our sense of where we come from and who we are or who we think we are.

Fresh Every Day Sara Foster, Carolyn Carreño, 2005 ***Cooking Wild*** John Ash, James O. Fraioli, 2025-05-01 To eat wild foods you needn't crawl through the forest or hunt your own game. Many wild foods are as close by as your local supermarket. But this doesn't mean that wild foods aren't worth the hunt. This book takes a big view of wild, including recipes and information on both foraged, uncultivated foods as well as looking at the progeny of wild foods more conveniently found for sale alongside their conventional cousins. Increasingly, Americans are concerned about where their food comes from, how it's produced, packaged, and marketed. Heritage breeds, paleo diets, farmers' markets, and environmental and climate concerns all point to increased interest in foods that are as natural and unmanipulated, read: healthy, as they can be. Plants, seafood, meat, and birds are all covered in more than 150 recipes and will serve as a historical agricultural education for your kitchen.
