

## OUR HISTORY

The history of agriculture is the story of humankind's development and cultivation of processes for producing food, feed, fiber, fuel, and other goods by the systematic raising of plants and animals. Prior to the development of plant cultivation, humans beings were hunters and gatherers. The knowledge and skill of learning to care for the soil and growth of plants advanced the development of human society, allowing clans and tribes to stay in one location generation after generation.

*Manufacturers' News* ,1929 *Chilean New Song* J Patrice McSherry,2015-05 Chilean *New Song* la Nueva Canci n chilena entranced and uplifted a country that struggled for social change during the turbulent 1960s and early 1970s until the 1973 coup that overthrew democratic socialist president Salvador Allende This powerful musical style with its poetic lyrics and haunting blend of traditional

indigenous wind and stringed instruments was born of and expressed the aspirations of rising classes. It promised a socially just future as it forged social bonding. In *Chilean New Song* J. Patrice McSherry deftly combines a political historical view of Chile with a narrative of its cultural development. She examines the democratizing power of this music and through interviews with key protagonists the social roles of politically committed artists who participated in a movement for change. McSherry explores the impact of Chilean New Song and the way this artistic cultural phenomenon related to contemporary politics to capture the passion, pain and hope of millions of Chileans. **New York Magazine**, 1976-11-15.
