Freshman Legislator Problems And Opportunities:

The Freshman Legislator: Problems & Opportunities Lawrence C. Pierce, 1973 **Handbook of Legislative Research** Gerhard Loewenberg, 1985 The Handbook of Legislative Research a comprehensive summary of the results of research on nineteenth and twentieth century legislatures is itself a landmark in the evolution of legislative studies Gathered here are surveys by leading scholars in the field each providing inventory of an important subfield an extensive bibliography and a systematic assessment of what has been accomplished and what directions future research must take **The Impact of Reapportionment** Timothy G. O'Rourke, *The Freshman Legislator, Problems and Opportunities* Lawrence C. Pierce, 1972 **Congressional Caucuses in National Policymaking** Susan Webb Hammond, 2001-10-10 The names are familiar from the nightly news the Senate Centrist Coalition the Coalition Blue Dogs the Black Caucus But what exactly are these groups and what role do they play in congressional decision making In Congressional Caucuses in National Policy Making Susan Webb Hammond describes and explains the role activities and influence of the groups known on Capitol Hill as caucuses Defined as voluntary groups of members of Congress that share interests but which stand outside the formal legislative and policy making structure caucuses are prime players in influencing policy and setting the legislative agenda Over the past five Congresses Hammond counts the formation of more than 250 caucuses varying widely in size and membership They can be organized into six categories party affiliation personal interest national constituency regional issues state interests and district industrial interests Within the caucuses members share information coordinate legislative plans seek ways to influence colleagues and even strategize on agenda setting While the caucuses can contribute to greater coordination efficiency and even effective policy planning Hammond finds that they also tend to fragment the congressional system because they serve as alternative sources of information communication and voting coalitions outside the formal structure of Congress In fact caucuses have survived recent attempts at elimination by doing away with legislative service organizations **A Comparative Analysis of the Impact of Reapportionment on Six State Legislatures** Timothy G. O'Rourke, 1977 **Legislative Learning** Timothy J. Barnett, 2012-11-12 Barnett shows how political environments can produce legislators who place a premium on their policy making goals through a nuanced exploration of factors undergirding member perceptions policy ambitions class cohesion and legislative learning **Administrative Reorganization and Legislative Management** United States. Congress. House. Commission on Administrative Review, 1977 Legislative Life Alan Rosenthal, 1981 **Congress, the Press, and Political Accountability** R. Douglas Arnold, 2013-10-31 Congress the Press and Political Accountability is the first large scale examination of how local media outlets cover members of the United States Congress Douglas Arnold asks do local newspapers provide the information citizens need in order to hold representatives accountable for their actions in office In contrast with previous studies which largely focused on the campaign period he tests various hypotheses about the causes and consequences of media coverage by exploring coverage

during an entire congressional session Using three samples of local newspapers from across the country Arnold analyzes all coverage over a two year period every news story editorial opinion column letter and list First he investigates how twenty five newspapers covered twenty five local representatives and next how competing newspapers in six cities covered their corresponding legislators Examination of an even larger sample sixty seven newspapers and 187 representatives shows why some newspapers cover legislators more thoroughly than do other papers Arnold then links the coverage data with a large public opinion survey to show that the volume of coverage affects citizens awareness of representatives and challengers The results show enormous variation in coverage Some newspapers cover legislators frequently thoroughly and accessibly Others some of them famous for their national coverage largely ignore local representatives The analysis also confirms that only those incumbents or challengers in the most competitive races and those who command huge sums of money receive extensive coverage
