Freud And Original Sin :

Freud and Original Sin Sharon MacIsaac, 1974 *Freud and Original Sin* Sharon MacIsaac, 1974 **Sigmund Freud's Christian Unconscious** Paul C. Vitz, 1993 Vitz psychoanalyzes Freud's motivation to reject religion Psychology and Religion Andrew Reid Fuller, 2008 This book surveys the major theoretical positions in the psychology of religion William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Erich Fromm Alan Watts and Viktor Frankl are each accorded an entire chapter A chapter is devoted to such further developments The World of Perversion James Penney, 2012-02-01 In *The World of Perversion* James Penney argues that antihomophobic criticism has nothing to lose and indeed everything to gain by reclaiming the psychoanalytic concept of perversion as psychic structure Analyzing the antagonism between psychoanalytic approaches to perversion and those inspired by the work of Michel Foucault Penney explores how different assumptions about sexuality have determined the development of contemporary queer theory and how the universalizing approach to homosexuality in psychoanalysis actually leads to more useful political strategies for nonheterosexual subjects Having established this theoretical context Penney focuses on works by Georges Bataille Blaise Pascal Denis Diderot and Jacques Lacan tracing the implications of various sexual and moral understandings of the term perversion and illustrating how a psychoanalytic approach to the question of perversion enables politicized readings that are foreclosed by a Foucauldian methodology **Hermeneutics and the Psychoanalysis of Religion** Stephen J. Costello, 2010 This book is a philosophical study of the Freudian psychoanalysis of religion from a hermeneutical perspective Drawing on the work of Paul Ricoeur the twentieth century French phenomenologist the author offers a sustained and rigorous reflection on Freud's critique of Christian religion and raises the pertinent question of whether psychoanalysis should be conceived of as a form of hermeneutics To this end the author details the often acrimonious debates and discussions that took place between Ricoeur and Jacques Lacan as well as drawing on the work of Slavoj Žižek on this intriguing subject with Lacan and Žižek resisting any attempt to interpret psychoanalysis along the lines of hermeneutics Having brought Ricoeur's reflections to bear on both Freud and Lacan the author next engages with the Thomist metaphysical tradition He deals especially with Aquinas' famous five arguments for the existence of God the relevance of which becomes apparent in the last chapter when the author sheds a Lacanian light on Thomas' mystical experience The author argues that the real God the God of Thomas' experience pertains to the Lacanian order of the Real The book concludes with a précis on the beauty of belief Freud's Paranoid Quest John Farrell, 1996 John Farrell argues forcefully against Freud but does something more important in the process his reframing of the discussion of modernity has implications for every branch of contemporary humanistic inquiry and makes this a timely and most significant book **HARVARD REVIEW The Heart of Man's Destiny** Herman Westerink, 2012 *The Heart of Man's Destiny* is a new reading of Lacan's seventh seminar Working from a new perspective it explores the relationship between Freudian psychoanalysis and the Reformation **Freud's Monotheism** William Parsons, 2023-01-26 This Element consists

of three interrelated parts What Freud Said summarizes the salient details of Freud's psychology of religion his views on the origins and development of western religions on contemporary western monotheisms on the unpsychological proceedings of the religio cultural super ego his qualified endorsement of religious forms of psychotherapy and his cursory analysis of eastern religions What Freud got Wrong surveys the history of the multidisciplinary critiques anthropological sociological later psychoanalytic theological philosophical that have been levelled at his interpretative strategies Towards a Revised Psychoanalytic Theory of Religion suggests that the best way forward is to employ a psychoanalytic theory of religion which taking its cue from the history of its critique houses reflective inclusive and dialogical elements It presents illustrations taken from a variety of contemporary religio cultural phenomena marvel movies issues concerning religion sexuality and gender the Megachurch QAnon as portable lessons for such applications

Terror and Civilization S. Drury, 2004-01-16 Drury regards the political problems of the modern world to be thoroughly Biblical In the politics of the Twenty first century we find two equally arrogant and self righteous civilizations confronting one another Each is convinced that it is on the side of God truth and justice while its enemy is allied with Satan wickedness and barbarism The language of diplomacy and compromise has been replaced by the language of jihad or the struggle against the cosmic forces of evil Life is radicalized and all choices are polarized Politics properly understood is eclipsed Drury urges us to transcend the Biblical view of the world Instead she argues in favour of a genuinely liberal secular and pluralistic understanding of politics

Psychology and Religion Andrew R. Fuller, 2007-11-27 This book articulates a broad range of theoretical viewpoints both classical and contemporary in the field of the psychology of religion Chapters One through Eight are overviews of such classical theorists as William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Alan Watts Erich Fromm and Viktor Frankl Chapters Nine through Twelve consider subsequent developments in the field e.g. the views of object relations theorists on the God image empirical research on the scaling of religiousness and modern consciousness research Chapters Ten through Twelve are new to this edition and comprise an eclectic overview of the feminist psychology of religion recent developments in the intersection of neuroscience and religion and the evolutionary psychology of religion Both wide ranging and current therefore this book offers illuminating and in depth coverage of major theorists and approaches While its breadth makes it an excellent place to begin an exploration of the psychology of religion its depth and detail provide the opportunity for a serious and rewarding immersion in the field

The Political Theology of Paul Jacob Taubes, Aleida Assmann, 2004 This highly original interpretation of Paul by the Jewish philosopher of religion Jacob Taubes was presented in a number of lectures held in Heidelberg toward the end of his life and was regarded by him as his spiritual testament Taubes engages with classic Paul commentators including Karl Barth but also situates the Pauline text in the context of Freud Nietzsche Benjamin Adorno Scholem and Rosenzweig In his distinctive argument for the apocalyptic revolutionary potential of Romans Taubes also takes issue with the political theology advanced by the conservative Catholic jurist Carl Schmitt Taubes's reading has been crucial

for a number of interpretations of political theology and of Paul including those of Jan Assmann and Giorgio Agamben and it belongs to a wave of fresh considerations of Paul's legacy Boyarin Lyotard Badiou Žižek Finally Taubes's far ranging lectures provide important insights into the singular experiences and views of this unconventional Jewish intellectual living in post Holocaust Germany *Society and the Unconscious* Dieter Sandner, 2022-10-05 This book will interest anyone seeking a comprehensive understanding of the psychological relationship between individual psychological dynamics social structure and the unconscious collective paradigms It focuses on an analysis of patriarchal culture which is as it were the psychological enclosure in which all individual and collective processes take place Starting from the genesis and current structure of this culture the strong social changes of the last 50 years are examined the change in relations between men and women social relations in terms of solidarity and desolidarisation the situation of social security the social and political power relations and the economic dynamics At the same time collective fantasies are elaborated that emerge from the socio structural changes The basis of the study is psychoanalytical cultural theory in the form of a cultural critical deconstruction of its fundamental assumptions In 16 interesting chapters essential questions of psychological cultural theory are answered and practical applications of this theory to current sociostructural processes are shown **John Huston's Filmmaking** Lesley Brill, 1997-10-13 John Huston's Filmmaking offers an analysis of the life and work of one of the greatest American independent filmmakers Always visually exciting Huston's films sensitively portray humankind in all its incarnations chronicling the attempts by protagonists to conceive and articulate their identities Fundamental questions of selfhood happiness and love are intimately connected to the idea of home which for the filmmaker also signified a congenial place among other people in the world In this study Lesley Brill shows Huston's films to be far more than formulaic adventures of masculine failure arguing instead that they demonstrate the close connection between humanity the natural world and divinity Reinhold Niebuhr and Psychology Terry D. Cooper, 2009 Reinhold Niebuhr's analysis of the human condition inevitably led him into a dialogue with psychology This book brings Niebuhr into dialogue with Freud Horney Rogers Kohut Jung and other key psychological thinkers It argues that Niebuhr was both an astute critic of some forms of psychology and a great contributor to the human sciences **Moses and Civilization** Robert A. Paul, 1996-01-01 And he details the way Freud's myth corresponds to the unconscious fantasy structure of the obsessional personality a style of personality dynamics Paul sees as essential to maintaining the bureaucratic institutions that comprise Western civilization's most distinctive features *The Sign of the Cross* Daniel Rancour-Laferriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for

believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion Lacan's Ethics and Nietzsche's Critique of Platonism Tim Themi,2014-05-01 Brings Lacan and Nietzsche together as part of a common effort to rethink the tradition of Western ethics Bringing together Jacques Lacan and Friedrich Nietzsche Tim Themi focuses on their conceptions of ethics and on their accounts of the history of ethical thinking in the Western tradition Nietzsche blames Plato for setting in motion a degenerative process that turned ethics away from nature the body and its senses and thus eventually against our capacities for reason science and a creative flourishing life Dismissing Plato s Supreme Good as a mirage Lacan is very much in sympathy with Nietzsche s reading Following this premise Themi shows how Lacan s ethics might build on Nietzsche s work thus contributing to our understanding of Nietzsche and also how Nietzsche s critique can strengthen our understanding of Lacan *From the Words of my Mouth (Psychology Revivals)* Laurence Spurling,2014-06-17 As a psychotherapist in whose name do I speak How can I come to speak in my own name What does tradition mean in psychotherapy Originally published in 1993 the contributors to this book all practising psychotherapists and teachers explore these questions and investigate how theories and practices are passed on from one generation to the next Their responses range over questions of training and indoctrination the idea of tradition in the thought of Freud Jung and Winnicott and the implications of these questions for the practice of psychotherapy It will be of special interest to psychotherapists and counsellors as well as students and teachers of therapy With its emphasis on how psychotherapy might gain by seeing its connections to other traditions such as literature philosophy and the creative arts the book will also appeal to a wider readership *Freud's Last Session* Mark St. Germain,2010 THE STORY FREUD S LAST SESSION centers on legendary psychoanalyst Dr Sigmund Freud who invites the young rising Oxford Don C S Lewis to his home in London On the day England enters World War Two Freud and Lewis clash about love sex the exis
