Decline and Fall of the Freudian Empire Hans Eysenck, 2018-02-06 Hans Eysenck was one of the best known research psychologists of the twentieth century Respected as a prolific author he was unafraid to address controversial topics In *Decline and Fall of the Freudian Empire* he places himself at the center of the debate on psychoanalytic theory challenging the state of Freudian theory and modern day psychoanalytic practice and questioning the premises on which psychoanalysis is based In so doing Eysenck illustrates the shortcomings of both psychoanalysis as a method of curing neurotic and psychotic behaviors and of the theory of dreams and their interpretation He also analyzes Freud's influence on anthropology and his alleged contributions to science While books about Sigmund Freud and psychoanalysis abound most have been written by followers and acolytes and are therefore uncritical unaware of alternative theories or written as weapons in a war of propaganda Others are long and highly technical and therefore valuable only to students and professionals *Decline and Fall of the Freudian Empire* on the other hand was written with the non professional in mind and is for those who wish to know what modern scholarship has discovered about the truth or falsity of Freudian doctrines Graced with an incisive new preface by Sybil Eysenck exploring her husband's motivation for writing the book *Decline and Fall of the Freudian Empire* is an authoritative and convincing work that exposes the underlying contradictions in Freudian theory as well as the limitations and errors of psychoanalysis

and crush Christianity Voltaire's self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lamettrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lamettrie produced Man A Machine and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez l inf me Rousseau of course was a disciple of Voltaire and declared that Voltaire's work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross
