Freud, Jung and Hall the Kingmaker Saul Rosenzweig, 1992-01-01 **The Historic Expedition to America (1909)**

Saul Rosenzweig, 1994-05-01 Examines the role of psychoanalysis in particular these are still the best introduction to Freud's theories *Freud, Jung, and Hall the King-maker* Saul Rosenzweig, 1992 Part One is written in a readable style for the general reader and is supplemented by a separate Commentary for the interested scholar Part Two comprises the complete correspondence of Freud and Hall made available here for the first time Part Three presents a new translation of Freud's five lectures at Clark on the origin and development of psychoanalysis These lectures are still the best introduction or summary to Freud's influential theories The translation has been faithfully executed to reflect Freud's brilliant literary style BOOK

JACKET **Freud, Jung, and Hall the King-Maker** Saul Rosenzweig, 1992-12-01 Examines the role of psychoanalysis in particular and the behavioral sciences in general in present day psychological democracy Sigmund Freud C G Jung G Stanley Hall and William James came together at one time in 1909 and engendered a climate that still endures Clark Univ was the scene in 1909 of the only visit of Freud to this country He came with Jung both invited by Clark's Pres G Stanley Hall who was planning the 20th anniversary celebration of his Univ Contains the complete correspondence of Freud and Hall made available here for the first time Presents a new translation of Freud's lectures these are still the best intro to Freud's theories

The Historic Expedition to America (1909) Saul Rosenzweig, 1994 This volume describes the one and only visit of Sigmund Freud to America and places it in historical perspective It describes the background of this crucial event and its consequences for psychoanalysis as a theory and a cultural movement It utilizes and publishes here for the first time the newly recovered correspondence between Sigmund Freud and G Stanley Hall who extended the invitation Introduction

Freud, Jung and the Kingmaker Saul Rosenzweig, 1992-06 *Bringing Freud to America* Michael Edmonds, 2023-07-04 In 1900 hardly anyone in America had heard of Sigmund Freud but by 1920 nearly everyone had This is the story of the translators editors journalists publishers promoters and booksellers who first brought Freud to American readers They included scientists and scoundrels reckless risk takers and buttoned down businessmen puritans and libertines anarchists and capitalists passionate freedom fighters and racist bigots American publishers Freud wrote to one colleague are a dangerous breed Elsewhere he called them rascals liars swindlers crooks and pirates Here are accounts of their drunken parties political crusades questionable business practices criminal prosecutions shameless marketing and blatant plagiarism There's even a suicide and a murder And lots of sex it's a book about Freud after all Ideas that Freud promoted are woven so tightly into our daily lives today that like gravity or air we hardly notice them This book based on hundreds of unpublished records explains how they first took root in American minds more than a century ago *Freud, Jung, and Jonah* Maya Balakirsky Katz, 2022-12-22 Religion more than sexuality cast psychoanalysis in controversy and onto the world stage even as it threatened to dismantle the psychoanalytic collective In the founding years of the first psychoanalytic periodicals relational

dynamics shaped the psychoanalytic corpus on religion The psychoanalytic pioneers developed their ideas in tandem even if in protest to one another Religion is a topic worthy of engagement not least because the symbolized terrain in the history of religion was so often deployed as a vehicle for motivating disciplining or editing out a member of the psychoanalytic community in publication This book offers an interdisciplinary approach to religion and psychology including a compelling denouement that reveals new narratives about longstanding rumours in the early history of the psychoanalytic movement Above all this volume demonstrates that the first generation of psychoanalysts succeeded in writing themselves into the history of religious thought and sacralizing the origins of psychoanalysis *The Theater of Trauma* Michael Cotsell, 2005

The Theater of Trauma is a groundbreaking rereading of the relations between psychology and drama in the age of Eugene O'Neill Susan Glaspell and their many brilliant contemporaries American modernist Theater of Trauma drew its vision from the psychological investigation of trauma and its consequences among them hysteria and dissociation made by French and American psychiatrists such as the great Pierre Janet Alfred Binet William James Morton Prince and W E B Du Bois the European and American dissociationist culture that developed around their work and the resulting trauma of World War I American dramatists deep resistance to Freud's suppression of trauma challenges the equation of Freud and modernism that has become commonplace in modernist criticism

Pet Projects Elizabeth Young, 2019-12-17 In *Pet Projects* Elizabeth Young joins an analysis of the representation of animals in nineteenth century fiction taxidermy and the visual arts with a first person reflection on her own scholarly journey Centering on Margaret Marshall Saunders a Canadian woman writer once famous for her animal novels and incorporating Young's own experience of a beloved animal's illness this study highlights the personal and intellectual stakes of a pet project of cultural criticism Young assembles a broad archive of materials beginning with Saunders's novels and widening outward to include fiction nonfiction photography and taxidermy She coins the term first dog voice to describe the narrative technique of novels such as Saunders's *Beautiful Joe* written in the first person from the perspective of an animal She connects this voice to contemporary political issues revealing how animal fiction such as Saunders's reanimates nineteenth century writing about both feminism and slavery Highlighting the prominence of taxidermy in the late nineteenth century she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women Young adapts Freud to analyze literary representations of mourning by and for animals and she examines how Canadian writers including Saunders use animals to explore race ethnicity and national identity Her wide ranging investigation incorporates twenty first as well as nineteenth century works of literature and culture including recent art using taxidermy and contemporary film Throughout she reflects on the tools she uses to craft her analyses examining the state of scholarly fields from feminist criticism to animal studies With a lively first person voice that highlights experiences usually concealed in academic studies by scholarly discourse such as detours zigzags roadblocks and personal experience this unique and innovative book will delight animal enthusiasts and academics in

the fields of animal studies gender studies American studies and Canadian studies **An Anatomy of Addiction** Howard Markel, 2012-07-03 Acclaimed medical historian Howard Markel traces the careers of two brilliant young doctors Sigmund Freud neurologist and William Halsted surgeon showing how their powerful addictions to cocaine shaped their enormous contributions to psychology and medicine When Freud and Halsted began their experiments with cocaine in the 1880s neither they nor their colleagues had any idea of the drug's potential to dominate and endanger their lives An Anatomy of Addiction tells the tragic and heroic story of each man accidentally struck down in his prime by an insidious malady tragic because of the time relationships and health cocaine forced each to squander heroic in the intense battle each man waged to overcome his affliction Markel writes of the physical and emotional damage caused by the then heralded wonder drug and how each man ultimately changed the world in spite of it or because of it One became the father of psychoanalysis the other of modern surgery Here is the full story long overlooked told in its rich historical context **The Urban Lifeworld** Peter Madsen, Richard Plunz, 2005-06-29 This volume of scholarly essays the results of detailed research contributes to our understanding of the cultural role of cities by offering a new approach to the analysis of urban experience **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1993 **The Wolf Man's Burden** Lawrence Johnson, 2001 The Wolf Man was Sigmund Freud's most famous patient a man whose enigmatic childhood dream of being gazed at by wolves outside his bedroom window bedeviled the founding practitioners of psychoanalysis More than simply a rich source of imagery and meaning though the Wolf Man case might be interpreted as the primal scene of psychoanalysis itself Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives those of the analyst and the analyst so Freud's own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis When Freud met the patient known as the Wolf Man Johnson maintains psychoanalysis was at an impasse because of Freud's inability to work through repressed material from his own childhood Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis his means for vanquishing him set the terms for Freud's legacy to psychoanalysis Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it He fruitfully extends the work of Nicholas Abraham Maria Torok and Jacques Derrida into the realm of Freud's own life The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives *The Religious Life* Donald Capps, 2016-09-29 William James called his classic work *The Varieties of Religious Experience* a study in human nature For James it is a fundamental feature of human nature that we have a conscious and a subconscious mind and that the subconscious mind is deeply implicated in the religious life especially in conversion and other experiences of spiritual enlightenment In *The Religious Life* Donald Capps addresses religious melancholy the divided self and discordant personality religious conversion the saintly character and the prayerful consciousness He contrasts the cases of two

clergymen one deeply troubled the other exemplary of the spiritual person Aimed at general readers Capps work makes William James a popular author in his own day accessible to a modern audience **The Birth of a Jungle** Michael Lundblad, 2013-01-10 According to the law of the jungle the behavior of wild animals can be equated with natural human instincts not only for competition and reproduction but also for violence and exploitation Drawing on numerous novels and cultural events at the turn of the twentieth century *The Birth of a Jungle* examines how the characteristics and imagery of wild animals were evoked to explore a wide range of human behaviors including homosexuality labor exploitation and the lynching of African Americans Throughout the study Michael Lundblad emphasizes what he terms the discourse of the jungle Darwinist Freudian constructions of the human and the animal that redefined various behaviors in relation to animal instincts With nuanced attentive readings Lundblad reveals how these formulations of the human animal despite reigning critical interpretations were often contested rather than reinforced in Progressive Era texts Henry James's *The Beast in the Jungle* and fiction by Jack London serve as opportunities to examine changing attitudes toward sexuality and queer desire Works like Andrew Carnegie's *The Gospel of Wealth* and Frank Norris's *The Octopus* offer insights into another type of jungle the capitalist marketplace The real life electrocution of a circus elephant at Coney Island and Upton Sinclair's muckraking classic *The Jungle* inform the subsequent discussion of animalized class warfare Understandings of race and evolution are explored through the work of William James Edgar Rice Burroughs's *Tarzan of the Apes* and the role of William Jennings Bryan at the Scopes Monkey Trial of 1925 Engagingly written and cogently argued *The Birth of a Jungle* reveals the significance of animality in relation to the history of sexuality literary naturalism and critical race studies while highlighting how the discourse of the jungle remains a disturbing yet powerful presence in today's culture *Soul and Psyche* Wayne G. Rollins, 1999 The first introduction to the history and method of biblical psychological interpretation **Franz Boas** Rosemary Lévy Zumwalt, 2019-11-01 Rosemary Lévy Zumwalt tells the remarkable story of Franz Boas one of the leading scholars and public intellectuals of the late nineteenth and early twentieth centuries The first book in a two part biography Franz Boas begins with the anthropologist's birth in Minden Germany in 1858 and ends with his resignation from the American Museum of Natural History in 1906 while also examining his role in training professional anthropologists from his berth at Columbia University in New York City Zumwalt follows the stepping stones that led Boas to his vision of anthropology as a four field discipline a journey demonstrating especially his tenacity to succeed the passions that animated his life and the toll that the professional struggle took on him Zumwalt guides the reader through Boas's childhood and university education describes his joy at finding the great love of his life Marie Krackowizer traces his 1883 trip to Baffin Land and recounts his efforts to find employment in the United States A central interest in the book is Boas's widely influential publications on cultural relativism and issues of race particularly his book *The Mind of Primitive Man* 1911 which reshaped anthropology the social sciences and public debates about the problem of racism in American society Franz Boas

presents the remarkable life story of an American intellectual giant as told in his own words through his unpublished letters diaries and field notes Zumwalt weaves together the strands of the personal and the professional to reveal Boas's love for his family and for the discipline of anthropology as he shaped it

On Creating a Usable Culture Maureen A. Molloy, 2008-02-20

Margaret Mead's career took off in 1928 with the publication of *Coming of Age in Samoa*. Within ten years she was the best known academic in the United States a role she enjoyed all of her life. In *On Creating a Usable Culture* Maureen Molloy explores how Mead was influenced by and influenced the meanings of American culture and secured for herself a unique and enduring place in the American popular imagination. She considers this in relation to Mead's four popular ethnographies written between the wars: *Coming of Age in Samoa*, *Growing Up in New Guinea*, *The Changing Culture of an Indian Tribe*, and *Sex and Temperament in Three Primitive Societies*, and the academic middle brow and popular responses to them. Molloy argues that Mead was heavily influenced by the debates concerning the forging of a distinctive American culture that began around 1911 with the publication of George Santayana's *The Genteel Tradition*. The creation of a national culture would solve the problems of alienation and provincialism and establish a place for both native born and immigrant communities. Mead drew on this vision of an integrated culture and used her primitive societies as exemplars of how cultures attained or failed to attain this ideal. Her ethnographies are really about America, the peoples she studied serving as the personifications of what were widely understood to be the dilemmas of American selfhood in a materialistic individualistic society. Two themes subtend Molloy's analysis. The first is Mead's articulation of the individual's relation to his or her culture via the trope of sex. Each of her early ethnographies focuses on a character and his or her problems as expressed through sexuality. This thematic ties her work closely to the popularization of psychoanalysis at the time with its understanding of sex as the key to the self. The second theme involves the change in Mead's attitude toward and definition of culture from the cultural determinism in *Coming of Age* to culture as the enemy of the individual in *Sex and Temperament*. This trend parallels the consolidation and objectification of popular and professional notions about culture in the 1920s and 1930s. *On Creating a Usable Culture* will be eagerly welcomed by those with an interest in American studies and history, cultural studies and the social sciences, and most especially by readers of American intellectual history, the history of anthropology, gender studies, and studies of modernism.

Odyssey of the Psyche Jean Kimball, 1997. The result of this confrontation, Kimball argues, as a central tenet in her unique reading of *Ulysses* is the gradual development of a relationship between the two protagonists that parallels C. G.
