Frida Barbara Mujica, 2012-01-31 Mexican painter Frida Kahlo life work and love are examined through the lens of her sister in this dramatic biographical novel Frida Kahlo painter and cultural icon lived a life of extremes The subject of an Academy Award nominated film starring Salma Hayek Kahlo was crippled by polio and left barren by an accident when she was a teenager And yet she went on to fall in love with and marry another star of the art world muralist Diego Rivera filled with passion jealousy and deceit their story captured the world's imagination Told in the voice of Frida's sister Cristina who bears witness to Frida and Diego's tumultuous marriage this is a brilliantly vivid work of historical fiction What unfolds is an intense tale of sibling rivalry as both sisters vie for Rivera's affection Mujica imbues the lives and loves of these remarkable characters with sparkling drama and builds her tale to a shattering conclusion Praise for Frida A vivid creation This story burns with dramatic urgency The New York Times The best kind of fictionalized biography rich vibrant and psychologically astute Kirkus Reviews **Frida in America** Celia Stahr, 2020-03-03 The riveting story of how three years spent in the United States transformed Frida Kahlo into the artist we know today An insightful debut

Featuring meticulous research and elegant turns of phrase Stahr's engrossing account provides scholarly though accessible analysis for both feminists and art lovers Publisher's Weekly Mexican artist Frida Kahlo adored adventure In November 1930 she was thrilled to realize her dream of traveling to the United States to live in San Francisco Detroit and New York Still leaving her family and her country for the first time was monumental Only twenty three and newly married to the already world famous forty three year old Diego Rivera she was at a crossroads in her life and this new place one filled with magnificent beauty horrific poverty racial tension anti-Semitism ethnic diversity bland Midwestern food and a thriving music scene pushed Frida in unexpected directions Shifts in her style of painting began to appear cracks in her marriage widened and tragedy struck twice while she was living in Detroit Frida in America is the first in depth biography of these formative years spent in Gringolandia a place Frida couldn't always understand But it's precisely her feelings of being a stranger in a strange land that fueled her creative passions and an even stronger sense of Mexican identity With vivid detail Frida in America recreates the pivotal journey that made Senora Rivera the world famous Frida Kahlo Everyday Silence and the Holocaust Irene Levin, 2024-07-31 Everyday Silence and the Holocaust examines Irene Levin's experiences of her family's unspoken history of the Holocaust and the silence that surrounded their war experiences as non topics A central example of what C Wright Mills considered the core of sociology the intersection of biography and history the book covers the process by which the author came to understand that notes found in her mother's apartment following her death were not unimportant scribbles but in fact contained elements of her mother's biographical narrative recording her parents escape from occupied Norway to unoccupied Sweden in late 1942 From the mid 1990s when society began to open up about the atrocities committed against the Jews so too did the author find that her mother and the wider Jewish population ceased to be silent about their war experiences and began to talk Charting the process by which the author traced the family's broader history this book explores the use of silence whether in the family or in society more widely as a powerful analytic tool and examines how these silences can intertwine This book provides insight into social processes often viewed through a macro historical lens by way of analysis of the life of an ordinary Jewish woman as a survivor An engaging grounded study of the biographical method in sociology and the role played by silence this book will appeal to readers with an interest in the Holocaust and World War II as well as in social scientific research methods It will be of use to both undergraduate and postgraduate scholars in the fields of history social science psychology philosophy and the history of ideas The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Frida Kahlo's Love Letters** Suzanne Barbezat, 2025-05-06 A stunning collection of love letters written by world renowned artist Frida Kahlo throughout her life La Casa Azul Sophie Faucher, Neil Bartlett, 2002-10-16 I took my tears and turned them into paintings In the electric calm of a blue painted room a dying woman reassembles the images of an extraordinary life The woman is Mexican painter Frida Kahlo The life is one of

struggle with love with the body with her country and most of all with her art La Casa Azul is a collaboration between Quebecois playwright Sophie Faucher who also played Frida Kahlo in this production and internationally acclaimed director Robert Lepage

Frida Kahlo Martha Zamora,1990 Director Shion Sono's loose adaptation of the Japanese manga of the same name follows two teenagers attempts to survive the aftermath of Japan's 2011 tsunami Abandoned by his mother 14 year old Sumida Shota Sometani lives in a boathouse beside a lake and dreams of living a normal life free from his father Ken Mitsuishi's casual beatings Sharing his dreams of normality is his classmate Chazawa Fumi Nikaid who has a crush on Sumida even though her feelings are not reciprocated As the pair try to come to terms with their seemingly bleak futures events come to a head when Sumida's father taunts him to excess resulting in a fatally violent altercation With his dreams now dashed but eager to make amends to society for his actions Sumida takes to the streets as a self styled vigilante dispensing justice with the aid of a kitchen knife

Intimate Frida Isolda P. Kahlo,2019-10-01 A tradition rooted in the mythology of romanticism and its conception of the artist as a cultural hero would want to believe that everything pertaining to the life of a genius has to bear the mark of the sublime Everything in their lives gestures decisions personality traits eccentricities even the most dissonant mistakes are thus transformed into esthetic substance We would want their lives to be masterworks a perfect coherence and continuity between the work and its creator Roland Barthes has criticized this conception as a basically bourgeois aberration the perennial realism of the bourgeois culture its need to identify the signified with the signifier And then we learn about the real human dimension of these heroes their pettiness narcissism avariciousness arbitrariness and childishness all of which are no more than their human specificity We are scandalized either the work or the figure lies A harmonious painting a novel or masterful symphony cannot possibly be the product of a person capable of such spiritual smallness Then we are left with two choices to dismiss the work as an essentially hypocritical utterance or to disqualify the creator as the accidental author of some work that happened to be marvelous but was simply by virtue of a great skill not supported by an equally admirable human quality

Professional Disobedience in Probation Asbjørn Storgaard,2025-06-13 This book comprises an in depth and highly inclusive ethnographic study of daily life in two local Danish probation offices With a special emphasis on manual based rehabilitative interventions the book explores the interactions between probation officers and citizens on probation serving conditional sentences or performing community service as well as the professionals rationales behind their rehabilitative efforts By presenting ethnographic findings that indicate a divergence between the envisioned trust based

interactions and the reality of manual based scripted practices within the Danish probation service the analyses reveal how rehabilitative interactions may seem choreographed with roles predetermined by an asymmetric social hierarchy This framework portrays the client as inherently obstinate unpredictable and cast as an irresponsible subject Despite these challenges the book underscores probation officers genuine belief in the transformative power of motivational programs More precisely it assesses the potential for manual based or scripted rehabilitative interventions to genuinely inspire participatory citizenship among disenfranchised clients Building on these empirically informed discussions the book ultimately endeavors to provide a positive and instructive conceptualization of the diverse activities in which probation officers acknowledging the limitations of their scripted interactions with clients appear to transgress their manual based mandate and perform professional disobedience Given the broad applicability of the concept of professional disobedience extending beyond probation to other social service practices navigating the intersection of help and control this book is intended for a wide array of researchers students practitioners and policymakers with an interest in punishment disenfranchisement and rehabilitation This book is essential reading for those engaged in probation criminal justice ethnography and Nordic criminology

The London Gazette Great Britain, 1880 God's Quantum Vortex Jim Walker, 2015-09-24 The story evolves from the personal experiences of the writer from his deep forty years research and discoveries of quantum cone vortex Once into awareness he reveals the techniques of connecting and triggering the act of God events He formulates the mysteries of self fate programming He explains how the government religion finance and science are interconnected for the first time in history His research deep dives into the Bible yoga meditation wave particle quantum physics and into occult the metaphysics He is not just theorizing about life events he is proactively changing the events in biblical proportions He becomes the miracle creator by thought and by action the trigger man who can only relate to the higher dimensions and to cosmic intelligence The formulas he writes may seem similar to previous theoretical physicists but they are his own concept given the examples of his work and e mail prior to the God's Particle Boson announcement by Peter Higgs on July 4 2012 The quantum cone vortex diagram and its connection to yin and yang with annihilation and creation related to cosmic spiral sequence of four sixes may seem absurd to earth's fourth dimensional thinkers but it is backed by facts by the author His prediction of the next flood is backed by errors in time measured by Mayans and Nostradamus Once a person is elevated to the vortex in quantum cone with zero weight gravity and

when time stops in quantum reality then he she will be able to be awarded with all possibilities to create or destroy The writer imitates the out of the box thinking of God but he is not comparing himself to cosmic intelligence He just uses the quantum energy in form of dark and light energy he calls them Satan and God respectively for convenience The examples are powerful and convincing The reader should not just observe the authors human encounters to get to quick conclusions It is a manual of how to think without fear Once the fear is eliminated the mind is open to deep into subconsciousness and to build the awareness where all possibilities are unrestricted and to rise to the sixth cosmic dimension God Department Reports of the State of New York New York (State),1925 **The State Department Reports of the State of New York** New York (State),1925 Decisions of the Public Service Commissions Board of Claims and Education Department opinions of the Attorney General rulings of the Secretary of State Comptroller State Engineer Commissioner of Agriculture Superintendent of Banks Superintendent of Insurance Civil Service Commission Conservation Commission Commissioner of Excise and State Tax Commissioners etc etc and messages of the Governor *On Music* Theodore Gracyk,2013-07-03 Opinionated and example filled this extremely concise and accessible book provides a survey of some fundamental and longstanding debates about the nature of music The central arguments and ideas of historical and contemporary philosophers are presented with the goal of making them as accessible as possible to general readers who have no background in philosophy The emphasis is on instrumental music but examples are drawn from many cultures as well as from Western classical jazz folk and popular music
