Your Congregation George W Bullard,2009-08-01 Full Kingdom potential says George Bullard is a journey not a destination To reach your full Kingdom potential its pursuit must be your enduring passion and desire Drawing on his more than four

decades of experience in congregational leadership Bullard offers not just another process for congregational redevelopment He learns from the past to take congregations on a spiritual journey that is open ended custom made and locally owned His

focus is on capacity building in each congregation calling for a narrative approach to futuring in the life of congregations that responds to new things God is seeking to do in and through members of the congregation From the TCP Leadership Series

What Can I Do? Jane Fonda,2020-09-08 A call to action from Jane Fonda one of the most inspiring activists of our time urging us to wake up to the looming disaster of climate change and equipping us with the tools we need to join her in protest

This is the last possible moment in history when changing course can mean saving lives and species on an unimaginable scale It s too late for moderation In the fall of 2019 frustrated with the obvious inaction of politicians and inspired by Greta

Thunberg Naomi Klein and student climate strikers Jane Fonda moved to Washington D C to lead weekly climate change demonstrations on Capitol Hill On October 11 she launched Fire Drill Fridays and has since led thousands of people in

nonviolent civil disobedience risking arrest to protest for action In *What Can I Do* Fonda weaves her deeply personal journey as an activist alongside conversations with and speeches by leading climate scientists and inspiring community organizers

and dives deep into the issues such as water migration and human rights to emphasize what is at stake Most significantly

Fonda equips us all with the tools we need to join her in protest so that everyone can work to combat the climate crisis No stranger to protest Fonda s life has been famously shaped by activism And now she is once again galvanizing the public to take to the streets Many are already aware of the looming disaster of climate change and realize that a moral responsibility rests on our shoulders In 2019 we saw atmospheric concentrations of greenhouse gases hit the highest level ever recorded in human history and our window of opportunity to act is quickly closing We are facing a climate crisis but we re also facing an empathy crisis and an inequality crisis the surge of protests over police violence against black Americans has once again highlighted the links between racism and environmental degradation in our country It isn t only earth s life support systems that are unraveling So too is our social fabric This is going to take an all out war on drilling and fracking and deregulation and racism and misogyny and colonialism and despair all at the same time As Annie Leonard executive director of Greenpeace USA and Fonda s partner in developing Fire Drill Fridays has declared Change is inevitable by design or by disaster Together we can commandeer change for the positive but it will require collective actions taken by social movements on an unprecedented scale The problems we face now require every one of us to join the fight The fight for not only our immediate future but for the future of generations to come 100% of the author s net proceeds from What Can I Do have gone to Greenpeace
