Going North Migration Of Blacks And Whites From The South 1900 195:

Going North Neil Fligstein, 2013-09-03 *Going North Migration of Blacks and Whites from the South 1900 1950* discusses the historical demographic sociological and economic reasons for black and white migrations The book explains the transition from a rural extractive economy to an urban industrial and service economy with emphasis on the effects on the Southern rural population After the Civil War emerging business concerns became politically and economically significant making the South a source for needed resources 1930 was a defining year Before 1930 migration reflected the growth and contraction of cotton agriculture in the South After 1930 the transition from a tenant labor intensive cotton agriculture economy to a capitalist machine driven economy caused the black and white migration to the north American development was not a simple process it shows how northern business interests defeated southern planters This transformation has created a permanent underclass in society that can be found in the cities of the South North and Midwest regions of America today Sociologists economists academicians doing sociological research and students of U S history can benefit from reading the book *Lynchings in Mississippi* Julius E. Thompson, 2015-06-08 Lynching occurred more in Mississippi than in any

other state During the 100 years after the Civil War almost one in every ten lynchings in the United States took place in Mississippi As in other Southern states these brutal murders were carried out primarily by white mobs against black victims The complicity of communities and courts ensured that few of the more than 500 lynchings in Mississippi resulted in criminal convictions This book studies lynching in Mississippi from the Civil War through the civil rights movement It examines how the crime unfolded in the state and assesses the large number of deaths the reasons the distribution by counties cities and rural locations and public responses to these crimes The final chapter covers lynching s legacy in the decades since 1965 an appendix offers a chronology

Gender and Jim Crow, Second Edition Glenda Elizabeth Gilmore, 2019-01-09 This classic work helps recover the central role of black women in the political history of the Jim Crow era Glenda Elizabeth Gilmore explores the pivotal and interconnected roles played by gender and race in North Carolina politics from the period immediately preceding the disfranchisement of black men in 1900 to the time black and white women gained the vote in 1920 Gilmore argues that while the ideology of white supremacy reordered Jim Crow society a generation of educated black women nevertheless crafted an enduring tradition of political activism In effect these women served as diplomats to the white community after the disfranchisement of their husbands brothers and fathers Gilmore also reveals how black women s feminism created opportunities to forge political ties with white women helping to create a foundation for the emergence of southern progressivism In addition *Gender and Jim Crow* illuminates the manipulation of concepts of gender by white supremacists and shows how this rhetoric changed once women black and white gained the vote

Gender and Jim Crow Glenda Elizabeth Gilmore, 2013-04-01 Glenda Gilmore recovers the rich nuances of southern political history by placing black women at its center She explores the pivotal and interconnected roles played by gender and race in North Carolina politics

from the period immediately preceding the disfranchisement of black men in 1900 to the time black and white women gained the vote in 1920 Gender and Jim Crow argues that the ideology of white supremacy embodied in the Jim Crow laws of the turn of the century profoundly reordered society and that within this environment black women crafted an enduring tradition of political activism According to Gilmore a generation of educated African American women emerged in the 1890s to become in effect diplomats to the white community after the disfranchisement of their husbands brothers and fathers Using the lives of African American women to tell the larger story Gilmore chronicles black women s political strategies their feminism and their efforts to forge political ties with white women Her analysis highlights the active role played by women of both races in the political process and in the emergence of southern progressivism In addition Gilmore illuminates the manipulation of concepts of gender by white supremacists and shows how this rhetoric changed once women black and white gained the vote

Visible Women Nancy A. Hewitt, Suzanne Leacock, 1993 In this collection fifteen leading historians of women and American history explore women s political action from 1830 to the present Together their contributions illustrate the tremendous scope and racial ethnic and class diversity of women s public activism while also clarifying various conceptual issues Essays include an analysis of ideologies and strategies suffrage militance in 1870s ideas for a feminist approach to public life labor feminism in the urban South women s activism in Tampa Florida black women and economic nationalism black women s clubs the YMCA s place in the community the role of Southern churchwomen in racial reform and transformation and other topics Establishes important links between citizenship race and gender following the Reconstruction amendments and the Dawes Act of 1887 Sharon Hartmann Strom American Historical Review The Immigration History Newsletter , 1984

The Dispossessed Jacqueline Jones, 1992-04-14 On poverty in the United States

Constructing the Segregated City Kevin Fox Gotham, 1997 The purpose of this dissertation is to identify key actors important decisions and social processes that have created contemporary patterns of poverty and racial residential segregation in the Kansas City metropolitan area In recent years the Kansas City metropolitan area has been identified by scholars as one of the nation s hypersegregated metropolitan areas due to the high degree of segregation in housing patterns on a range of indices Using a racial political economy perspective and the urban case study method I examine how the production distribution and consumption of housing has been instrumental in creating and reinforcing racial residential segregation and uneven development I situate the historical origins development and social and spatial consequences of racial residential segregation in large scale processes of urban change and development including the shift from a compact city pre 1880 to a fragmented city 1880 World War II and the transition to a multicentered metropolis World War II to the present Specifically I examine the long term segregative effects of federal home mortgage programs public housing programs urban redevelopment and renewal programs and large scale highway building in the Kansas City metropolitan area I draw upon archival data census data public documents and housing reports and interviews with local residents and civil

rights activists to explore the extent to which these state housing policies and subsidies and the actions of local political and economic actors have contributed the development of segregated housing patterns suburbanization of residences and the concentration of minority poverty *Whitaker's Cumulative Book List* ,1983 [British Books in Print](#) ,1985 **Black Americans and Organized Labor** Paul D. Moreno,2008-01-01 In *Black Americans and Organized Labor* Paul D Moreno offers a bold reinterpretation of the role of race and racial discrimination in the American labor movement Moreno applies insights of the law and economics movement to formulate a powerfully compelling labor race theorem of elegant simplicity White unionists found that race was a convenient basis on which to do what unions do control the labor supply Not racism pure and simple but the economics of discrimination explains historic black absence and under representation in unions Moreno s sweeping reexamination stretches from the antebellum period to the present integrating principal figures such as Frederick Douglass and Samuel Gompers Isaac Myers and Booker T Washington and W E B Du Bois and A Philip Randolph He traces changing attitudes and practices during the simultaneous black migration to the North and consolidation of organized labor s power through the confusing and conflicted post World War II period during the course of the civil rights movement and into the era of affirmative action Maneuvering across a wide span of time and a broad array of issues Moreno brings remarkable clarity to the question of the importance of race in unions He impressively weaves together labor policy and African American history into a cogent persuasive revisionist study that cannot be ignored **Black Migration and Poverty, Boston, 1865-1900** Elizabeth Hafkin Pleck,1979 This text studies the economic mobility and structures of family life between the end of the Civil War and 1900 for black Bostonians During this period Boston experienced urbanization industrialization modernization and heavy immigration this should have meant more jobs and equal status for all immigrant groups The author shows the limitations of traditional explanations last immigrant groups disadvantage of slavery as to why blacks did not succeed better in northern urban society Her thesis is that racial discrimination in preghetto social conditions was the critical factor in Afro American urban poverty Each chapter is a self contained and convincing essay thesis carefully stated relevant literature discussed data analyzed in a detective like fashion and major findings conveniently summarized

First Fruits of Freedom Janette Thomas Greenwood,2010-03-01 A moving narrative that offers a rare glimpse into the lives of African American men women and children on the cusp of freedom *First Fruits of Freedom* chronicles one of the first collective migrations of blacks from the South to the North during and after the Civil War Janette Thomas Greenwood relates the history of a network forged between Worcester County Massachusetts and eastern North Carolina as a result of Worcester regiments taking control of northeastern North Carolina during the war White soldiers from Worcester a hotbed of abolitionism protected refugee slaves set up schools for them and led them north at war s end White patrons and a supportive black community helped many migrants fulfill their aspirations for complete emancipation and facilitated the arrival of additional family members and friends Migrants established a small black community in Worcester with a

distinctive southern flavor But even in the North white sympathy did not continue after the Civil War Despite their many efforts black Worcesterites were generally disappointed in their hopes for full fledged citizenship reflecting the larger national trajectory of Reconstruction and its aftermath *World Yearbook of Education 1970* Joseph A. Lauwerys, David G. Scanlon, 2013-09-05 First Published in 2005 The 1970 edition of the educational yearbook focuses on education in cities The purpose in this volume was not to produce yet another book describing various aspects of the urban crisis but to concentrate on the effects of urbanization on education at all levels an aspect which has of course been mentioned explicitly in the literature concerned with problems of urban growth though usually in the context of social problems town planning and so on

The Creation of Jazz Burton William Peretti, 1994 As musicians listeners and scholars have sensed for many years the story of jazz is more than a history of the music Burton Peretti presents a fascinating account of how the racial and cultural dynamics of American cities created the music life and business that was jazz From its origins in the jook joints of sharecroppers and the streets and dance halls of 1890s New Orleans through its later metamorphoses in the cities of the North Peretti charts the life of jazz culture to the eve of bebop and World War II In the course of those fifty years jazz was the story of players who made the transition from childhood spasm bands to Carnegie Hall and worldwide touring and fame It became the music of the Twenties a decade of Prohibition of adolescent discontent of Harlem pride and of Americans hoping to preserve cultural traditions in an urban commercial age And jazz was where black and white musicians performed together as uneasy partners in the big bands of Artie Shaw and Benny Goodman Blacks fought back by using jazz states Peretti with its unique cultural and intellectual properties to prove assess and evade the dynamic of minstrelsy Drawing on newspaper reports of the times and on the firsthand testimony of more than seventy prominent musicians and singers among them Benny Carter Bud Freeman Kid Ory and Mary Lou Williams *The Creation of Jazz* is the first comprehensive analysis of the role of early jazz in American social history [The Condemnation of Blackness](#) Khalil Gibran Muhammad, 2019-07-22

Winner of the John Hope Franklin Prize A Moyers in the North there was an increased police presence This was not the case when it came to white European immigrant groups that were also being demonized for supposedly containing large criminal elements New Yorker **The "Underclass" Debate** Michael B. Katz, 2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today's underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they

created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together

People of Color in the United States Kofi Lomotey, Pamela Braboy Jackson, Muna Adem, Paulina X. Ruf, Valire Carr Copeland, Alvaro Huerta, Norma Iglesias-Prieto, Donathan L. Brown, 2016-10-17 This expansive four volume ready reference work offers critical coverage of contemporary issues that impact people of color in the United States ranging from education and employment to health and wellness and immigration People of Color in the United States Contemporary Issues in Education Work Communities Health and Immigration examines a wide range of issues that affect people of color in America today covering education employment health and immigration Edited by experts in the field this set supplies current information that meets a variety of course standards in four volumes Volume 1 covers education grades K 12 and higher education volume 2 addresses employment housing family and community volume 3 examines health and wellness and volume 4 covers immigration The content will enable students to better understand the experiences of racial and ethnic minorities as well as current social issues and policy The content is written to be accessible to a wide range of readers and to provide ready reference content for courses in history sociology psychology geography and economics as well as curricula that address immigration urbanization and industrialization and contemporary American society
