**The Viking King's Golden Treasure** Sven Rosborn, 2021-06-13 A newly discovered material rewrites early Danish Viking history In 2014 a 11 year old girl Maja Sielski and her younger sister Julia made a sensational discovery among their deceased grandmother s belongings

They found a small golden plate with a Latin script telling a story of the legendary Viking king Harald Bluetooth. It soon turned out that the golden plate was once placed in the king's tomb and this tomb contained the world's largest known golden treasure of the Viking era. A transcript of a previously completely unknown chronicle *Gesta Wulnensis ecclesiae pontificum* from the 990s has also been found. The manuscript was written by the king's own priest Avico, probably in an attempt to canonize the king after his death in year 985. Avico has been in the service of the king since the 950s. His extensive account gives a remarkable and dramatic picture of the Viking age in Scandinavia during the 10th century. Here is a story of the struggle for power and the foundation of the future dynasties in Denmark, Sweden, and Norway, as well as Viking raids in Ireland and England. The account also tells of the founding of the legendary Viking fortress of Jomsborg and the fortress's powerful mercenaries. The book describes in detail these unique facts but it also gives an overall picture of the Viking Age era for those who are not familiar with the subject.

**The Curmsun Disc** The Curmsun Disc is a concave gold disc of a weight of 25.23 grams (0.890 oz) and a diameter of 4.5 centimetres (1.8 in). The Danish Viking king Harald Bluetooth and the name of the stronghold of Jomsborg is mentioned in the Latin inscription on the disc. The disc was reportedly found as part of a Viking Age hoard discovered in 1841 in the cellar crypt of the ruined chapel at Gro Weckow village in Pomerania. This location is just east of the bank of the river Dievenow and near the place where the semi-legendary Viking stronghold of Jomsborg stood between the 960s and 1043. According to the author, the entrance to the crypt was accidentally discovered by a 12-year-old Heinrich Boldt, actor Ben Affleck's said to be maternal great-great grandfather, who was playing with some younger children at a construction site near the ruined chapel.

*The Viking Age Vol.2 (of 2) (Illustrations)* Paul B. Du Chaillu, While studying the progress made in the colonisation of different parts of the world by European nations, I have often asked myself the following questions: How is it that over every region of the globe the spread of the English-speaking people and of their language far exceeds that of all the other European nations combined? Why is it that wherever the English-speaking people have settled or are at this day found, even in small numbers, they are far more energetic, daring, adventurous, and prosperous, and understand the art of self-government and of ruling alien peoples far better than other colonising nations? Whence do the English-speaking communities derive the remarkable energy they possess for the people of Britain when

invaded by the Romans did not show any such quality What are the causes which have made the English such a pre eminently seafaring people for without such a characteristic they could not have been the founders of so many states and colonies speaking the English tongue In studying the history of the world we find that all the nations which have risen to high power and widespread dominion have been founded by men endowed with great I may say terrible energy extreme bravery and the love of conquest being the most prominent traits of their character The mighty sword with all its evils has thus far always proved a great engine of civilisation To get a satisfactory answer to the above questions we must go far back and study the history of the race who settled in Britain during and after the Roman occupation We shall thus find why their descendants are to day so brave successful energetic and prosperous in the lands which they have colonised and why they are so pre eminently skilled in the art of self government We find that a long stretch of coast is not sufficient though necessary to make the population of a country a seafaring nation When the Romans invaded Britain the Brits had no fleet to oppose them We do not until a later period meet with that love of the sea which is so characteristically English not before the gradual absorption of the earlier inhabitants by a blue eyed and yellow haired seafaring people who succeeded in planting themselves and their language in the country To the numerous warlike and ocean loving tribes of the North the ancestors of the English speaking people we must look for the transformation that took place in Britain In their descendants we recognise to this day many of the very same traits of character which these old Northmen possessed as will be seen on the perusal of this work Britain after a continuous immigration which lasted several hundred years became the most powerful colony of the Northern tribes several of the chiefs of the latter claiming to own a great part of England in the seventh and eighth centuries At last the time came when the land of the emigrants waxed more powerful more populous than the mother country and asserted her independence and to day the people of England as they look over the broad Atlantic may discern a similar process which is taking place in the New World The impartial mind which rises above the prejudice of nationality must acknowledge that no country will leave a more glorious impress upon the history of the world than England Her work cannot be undone should she to day sink beneath the seas which bathe her shores her record will for ever stand brilliantly illuminated on the page of history The great states which she has founded which have inherited her tongue and which are destined to play a most important part in the future of civilisation will be witnesses of the mighty work she has accomplished They will look back with pride to the progenitors of their race who lived in the glorious and never to be forgotten countries of the North the birthplace of a new epoch in the history of mankind To be continue in this ebook      **The Viking Age** Angus A. *The Curse of Eve, the Wound of the Hero* Peggy McCracken, 2010-11-24 In *The Curse of Eve the Wound of the Hero* Peggy McCracken explores the role of blood symbolism in establishing and maintaining the sex gender systems of medieval culture Reading a variety of literary texts in relation to historical medical and religious discourses about blood and in the context of anthropological and religious studies McCracken offers a provocative examination of the ways gendered cultural values were mapped onto blood in the Middle Ages As McCracken demonstrates blood is gendered when that of men is prized in stories about battle and that of women is excluded from the public arena in which social and political hierarchies are contested and defined through chivalric contest In her examination of the conceptualization of familial relationships she uncovers the privileges that are grounded in gendered definitions of blood relationships She shows that in narratives about sacrifice a father's relationship to his son is described as a shared blood whereas texts about women accused of giving birth to monstrous children define the mother's contribution to conception in terms of corrupted often menstrual blood Turning to fictional representations of bloody martyrdom and of eucharistic ritual McCracken juxtaposes the blood of the wounded guardian of the grail with that of Christ and suggests that the blood from the grail king's wound is characterized in opposition to that of women and Jewish men Drawing on a range of French and other literary texts McCracken shows how the dominant ideas about blood in medieval culture point to ways of seeing modern values associated with blood in a new light and how modern representations in turn suggest new perspectives on medieval perceptions

Paul B. Du Chaillu, Example in this ebook CHAPTER I CIVILISATION AND ANTIQUITIES OF THE NORTH A study of the ancient literature and abundant arch ology of the North gives us a true picture of the character and life of the Norse ancestors of the English speaking peoples We can form a satisfactory idea of their religious social political and warlike life We can follow them from their birth to their grave We see the infant exposed to die or water sprinkled and a name bestowed upon it follow the child in his education in his sports the young man in his practice of arms the maiden in her domestic duties and embroidery the adult in his warlike expeditions hear the clash of swords and the songs of the Scald looking on and inciting the warriors to greater deeds of daring or it may be recounting afterwards the glorious death of the hero We listen to the old man giving his advice at the Thing We learn about their dress ornaments implements weapons their expressive names and complicated relationships their dwellings and convivial halls with their primitive or magnificent furniture their temples sacrifices gods and sacred ceremonies their personal appearance even to the hair eyes face and limbs Their festivals betrothal and marriage feasts are open to us We are present at their athletic games preparatory to the stern realities of the life of that period where honour and renown were won on the battle field at the revel and drunken bout behold the dead warrior on his burning ship or on the pyre and surrounded by his weapons horses slaves or fallen companions who are to enter with him into Valhalla look into the death chamber see the mounding and the Arvel or inheritance feast These Norsemen had carriages or chariots as well as horses and the numerous skeletons of this animal in graves or bogs prove it to have been in common use at a very early period Their dress and the splendour of their riding equipment for war the richness of the ornamentation of their weapons of offence and defence are often carefully described Everywhere we see that gold was in the greatest abundance The descriptions of such wealth might seem to be very much exaggerated but as will be seen in the course of this work the antiquities treasured in the museums of the North bear witness to the truthfulness of the records The spade has developed the history of Scandinavia as it has done that of Assyria and Etruria but in addition the Northmen had the Saga and Edda literature to perpetuate their deeds We are the more astonished as we peruse the Eddas and Sagas giving the history of the North and examine the antiquities found in the country for we hear hardly anything about the customs of the people from the Roman writers and our ideas regarding them have been thoroughly vitiated by the earlier Frankish and English chronicles and other monkish writings or by the historians who have taken these records as a trustworthy authority Some writers in order to give more weight to these chronicles and to show the great difference that existed between the invaders and invaded and how superior the latter were to the former paint in a graphic manner without a shadow of authority the contrast between the two peoples England is described as being at that time a most beautiful

country a panegyric which does not apply to fifteen or twenty centuries ago while the country of the aggressor is depicted as one of swamp and forest inhabited by wild and savage men It is forgotten that after a while the people of the country attacked were the same people as those of the North or their descendants who in intelligence civilisation and manly virtues were far superior to the original and effete inhabitants of the shores they invaded To be continue in this ebook
