[America's Final War](#) Andrei Martyanov, 2024-06-01

Washington's eight years of preparing Ukraine and its armed forces for war with Russia was a mistake of historic proportions due to its misperception of American military power based on its 1991 Gulf War victory against a minor military player. Washington believed its own propaganda about crippling sanctions on Russia about the viability of its Ukrainian proxy army and the economic and military weakness of Russia spelling doom for the American empire and its rules-based order. By 2023 the Kiev regime could no longer exist without the West's support both financial and in war materiel. By 2024 Russia will have not just exhausted Ukraine but also demilitarized NATO as a whole, exposing the industrial and military impotence of the US and its European vassals. The United States military as a whole and the USAF in particular have no resources or means to close the ever-widening gap in capability between American and Russian Air Defenses insofar as such systems as the S-500 are already being produced serially in Russia with their immense range of more than 500 kilometers against aerial targets, not to mention their full integration with Russia's Air Force and Air Defense. The air space of Russia is becoming increasingly prohibitive to penetration by any combination of USAF and NATO forces. The US has fallen behind and it won't be able to catch up.

*America in World War II* Michael Burgan, 2006-12-15 Explores the events that led to World War II and the attack on Pearl Harbor, follows the major events of American participation in the war at home and overseas and examines the American international role after the war.

**Constructing America's War Culture** Thomas J. Conroy, Jarice Hanson, 2008-01-01 Constructing America's War Culture provides a cultural analysis of how the images of the war in Iraq have been influenced and packaged by the media to construct a narrative of war: the Bush Presidency, the fear of terrorism, and the changing global attitudes toward America and American aggression.

**America's Four Gods** Paul Froese, Christopher Bader, 2010-10-07 Despite all the hype surrounding the New Atheism, the United States remains one of the most religious nations on Earth. In fact, 95% of Americans believe in God, a level of agreement rarely seen in American life. The greatest divisions in America are not between atheists and believers or even between people of different faiths. What divides us, this groundbreaking book shows, is how we conceive of God and the role He plays in our daily lives. *America's Four Gods* draws on the most wide-ranging comprehensive and illuminating survey of American's religious beliefs ever conducted to offer a systematic exploration of how Americans view God. Paul Froese and Christopher Bader argue that many of America's most intractable social and political divisions emerge from religious convictions that are deeply held but rarely openly discussed. Drawing upon original survey data from thousands of Americans and a wealth of in-depth interviews from all parts of the country, Froese and Bader trace America's cultural and political diversity to its ultimate source: differing opinions about God. They show that regardless of our religious

tradition or lack thereof Americans worship four distinct types of God The Authoritative God who is both engaged in the world and judgmental The Benevolent God who loves and helps us in spite of our failings The Critical God who catalogs our sins but does not punish them at least not in this life and The Distant God who stands apart from the world He created The authors show that these four conceptions of God form the basis of our worldviews and are among the most powerful predictors of how we feel about the most contentious issues in American life Accessible insightful and filled with the voices of ordinary Americans discussing their most personal religious beliefs America's Four Gods provides an invaluable portrait of how we view God and therefore how we view virtually everything else
