Economic Development Parviz Asheghian, 2003-01-01 *Development and Social Change* Philip McMichael, 2016-01-25 In this new Sixth Edition of *Development and Social Change A Global Perspective* author Philip

McMichael describes a world undergoing profound social political and economic transformations from the post World War II era through the present. He tells a story of development in four parts: colonialism, developmentalism, globalization, and sustainability, that shows how the global development project has taken different forms from one historical period to the next. Throughout the text, the underlying conceptual framework is that development is a political construct created by dominant actors: states, multilateral institutions, corporations, and economic coalitions, and based on unequal power arrangements. While rooted in ideas about progress and prosperity, development also produces crises that threaten the health and well-being of millions of people and sparks organized resistance to its goals and policies. Frequent case studies make the intricacies of globalization concrete, meaningful, and clear.

Development and Social Change: A Global Perspective challenges us to see ourselves as global citizens even as we are global consumers.

Gibson, 2011-01-01 As we move further into the 21st century increasing emphasis is being placed on the importance of technology transfer Through new research and practices scholars practitioners and policymakers have made great strides in broadening our understanding and ability to implement technology transfer and commercialization processes The fruit of that research is collected in this timely volume Technology transfer is a dynamic area of study that examines traditional topics such as intellectual property management the management of risk market identification the role of public and private labs and the role of universities This volume reflects on how government business and academia influence technology transfer in different countries and how the infrastructure of a country enhances technology and contributes to each country's overall economy Interpreting and adopting the processes of technology transfer and commercialization or building innovative ecosystems is critical to seeing success in this digital age Those leading the surge toward building innovative ecosystems for technology transfer are the fellows of the Institute for Innovation Creativity and Capital IC2 Institute at The University of Texas at Austin Global in its scope of solving market economy problems for this volume the Institute has focused its lens on accelerated knowledge based development Here scholars from 13 countries come together to critique technology transfer from each of their respective nations The results of their contributions lend innovative insight to exactly how different nations are working to maximize technology transfer and commercialization in uncertain times Those with an interest in commercialization and technology transfer from students to scholars practitioners to policymakers will find this important collection of great value

Human Rights and Social Justice in a Global Perspective Susan C. Mapp, 2020-07-17 Social workers are global actors. From protecting the rights of individuals to working through the lasting impact of regional or international conflict, it is important to acknowledge the impact international social issues have on the work of social workers. In the third edition of *Human Rights and Social Justice in a Global Perspective*, Susan C. Mapp utilizes the human rights approach to examine social issues in the Global South, including AIDS, human trafficking, war and conflict, and climate change. Using the Universal Declaration of Human Rights as well as other UN human rights documents as a framework to examine social injustice and human rights violations, these issues are explained holistically to allow readers to understand the cultural context in which they arise and why they persist in society today. Each chapter closes with a Culture Box which offers an in-depth look into the issue and its cultural impacts surrounding a specific country. Mapp provides suggestions for affecting change on every issue, both as a professional social worker and in one's personal life, making this an ideal text for those looking to engage with international social work.

Dry Ports - A Global Perspective Rickard Bergqvist, 2016-04-29 As centres for logistics activities, seaports have traditionally been the focus of maritime logistics chains. However, changes in production patterns supported by the development of rapid transport of goods over long distances have altered the logistics landscape. As a result, the relevance of port hinterland transport has become more important, with a consequent need for the high utilisation of transport resources and infrastructure through the consolidation of cargo flows and for seaports to extend their influence within their hinterlands to increase their competitiveness. The development worldwide of inland ports, terminals, and dryports in their various forms, together with associated new functions and strategies, address these challenges in diverse ways to realise the potential benefits that come from the successful implementation of inland ports that connect seamlessly into transportation systems. This book comprises case studies and state-of-the-art examples of dryports in different parts of the world that have varying economic, social, institutional, and environmental realities and which exhibit the complexity of and diverse approaches to this recent logistics phenomenon.

China's Reform in Global Perspective John Wong, Zhiyue Bo, 2010 This book provides a fascinating perspective of the experiences of China's reform in the past three decades by focusing on China's interaction with and learning from the external world in her unprecedented efforts to reform and open up. After three introductory chapters on the broad scope of reform in the political, economic, and social realms, this book deals with lessons from the Eastern Bloc, China's reform in the East Asian context, and China and the developed world. The book concludes with two chapters looking to the future of China's political and economic development. In the existing literature of China's reform experience, this book is unique in perspective, topic selection, and in-depth analyses. With contributions from a group of prominent scholars in the field of China studies, such as John Wong, Zheng Yongnian, Thomas P. Bernstein, Dorothy J. Solinger, and Bo Zhiyue, it will be of immense value to anyone who is interested in China.
