## Gold Crusades A Social History Of Gold Rushes 1849 1969:

The Gold Crusades Douglas Fetherling, 1997-12-15 Among the hordes of starry eyed argonauts who flocked to the California gold rush of 1849 was an Australian named Edward Hargraves He left America empty handed only to find gold in his own backyard The result was the great Australian rush of the 1850s which also attracted participants from around the world A South African named P J Marais was one of them Marais too returned home in defeat only to set in motion the diamond and gold rushes that transformed southern Africa And so it went Most previous historians of the gold rushes have tended to view them as acts of spontaneous nationalism Each country likes to see its own gold rush as the one that either shaped those that followed or epitomized all the rest In The Gold Crusades A Social History of Gold Rushes 1849 1929 Douglas Fetherling takes a different approach Fetherling argues that the gold rushes in the United States Canada Australia New Zealand and South Africa shared the same causes and results the same characters and characteristics He posits that they were in fact a single discontinuous event an expression of the British imperial experience and nineteenth century liberalism He does so with dash and style and with a sharp eye for the telling anecdote the out of the way document and the bold connection between seemingly unrelated disciplines Originally published by Macmillan of Canada 1988 Research on Entrepreneurship in Professional Services Markus Reihlen, Andreas Werr, 2012-01-01 Professional service firms are critical agents of contemporary economies and understanding them has become a central focus of recent scholarship This very timely and well organized Handbook brings together several leading scholars who explore how we might think and theorize about professional service firms and their entrepreneurial behaviours. The Handbook will become a key source for the growing community of researchers in this area Royston Greenwood University of Alberta Canada For too long both researchers and practitioners have presumed that professional service firms follow the status quo when they should better understand how these professionals set the rules for globalization This Handbook reminds us that professionals are as much the shock troops of capitalism as the multinational corporations that they serve As this Handbook shows the leading firms successfully compete with each other by fostering entrepreneurship and innovation in order to service an institutional system that undergirds the international economy Christopher McKenna University of Oxford UK Professional services are increasingly seen as an important foundation for future economic growth and prosperity Yet research on innovative and entrepreneurial processes in professional services has been surprisingly scarce This Handbook provides a collection of original contributions from leading scholars outlining the current stock of knowledge in the area as well as providing directions for further research The expert contributors discuss entrepreneurship and innovation from a number of different perspectives including the entrepreneurial professional team the entrepreneurial firm and the institutional environment The first part of the book looks at the challenges of entrepreneurship specific to the professional service firm while the second explores the creation and exploitation of entrepreneurial opportunities in the professional service team Part III turns to the

organization and Part IV to the management and growth of the entrepreneurial professional service firm The final part discusses the interplay between professions firms and the institutional environment Researchers scholars and PhD students in the areas of entrepreneurship and professional service firms along with advanced students of management will find this Continental Divide Seymour Martin Lipset, 2013-10-11 Seymour Martin Lipset's highly acclaimed volume of great value work explores the distinctive character of American and Canadian values and institutions Lipset draws material from a number of sources historical accounts critical interpretations of art aggregate statistics and survey data as well as studies of law religion and government Drawing a vivid portrait of the two countries Continental Divide represents some of the best comparative social and political research available **Diggers, Hatters & Whores** Stevan Eldred-Grigg, 2014-02-28 The social history of New Zealand's gold rushes as used by Eleanor Catton in her research for The Luminaries A thorough and carefully researched history of the gold rushes in New Zealand Based on sound scholarship and aimed at the general reader it's accessibly written in a clear clean and lively style The scope is the social history of the goldfields of colonial New Zealand from the 1850s to the 1870s The book opens with a survey of worldwide rushes in the late eighteenth and the first half of the nineteenth centuries when for the first time in history a great wheeling movement of gold diggers began to revolve from continent to continent The main body of the book looks at all the rushes large and small that took place in the colony Coromandel Golden Bay Otago Marlborough the West Coast and Thames The early chapters of the main body survey rushes chronologically the later chapters look at rushes thematically I owe a debt of gratitude to Stevan Eldred Grigg's history of the New Zealand gold rushes Diggers hatters whores Eleanor Catton The Luminaries The Oxford Encyclopedia of Economic History Joel Mokyr, 2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of ecnomies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history Gamblers and **Dreamers** Charlene Porsild, 2011-11-01 The popular image of the Klondike is of a rush of white male adventurers who overcame great physical and geographical obstacles in their quest for gold Young white single American men carried forward the ideals and structures of the western frontier It was a man's world made respectable only after the turn of the century with the arrival of white middle class women who miraculously swept out the corners of dirt and vice and civilized the society

These impressions endure despite recent attempts to correct them Gamblers and Dreamers tackles some of the myths about the history of the North in the era of the gold rush Though many inhabitants came and went Charlene Porsild focuses on the concept of community commitment to show that many put down roots This in depth study of Dawson City at the turn of the century reveals that the city had a cosmopolitan character a stratified society and a definite permanence It examines the lives of First Nations peoples miners and other labourers professionals merchants dance hall performers and sex trade workers providing fascinating detail about those who left homes and jobs to strike it rich in the last great gold rush of the nineteenth century In the process Gamblers and Dreamers puts a human face on this compelling period of history ^AOxford Encyclopedia of Economic History Joel Mokyr,2003-10-16 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of ecnomies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history Carving the Western Path R. G. Harvey, 2011-06-15 A century of dealmaking and government misdeeds forms the backdrop of this entertaining account of sternwheelers iron horses and mountain roads Battling factions of rail builders crossed many a line in the sand as they carved up both the land and the spoils of industry Did both federal and provincial politicians wittingly sabotage road construction programs to the benefit of the rail barons Were Cornelius Van Horne Major A B Rogers and Andrew McCulloch fully deserving of the accolades bestowed on them Was railway man J J Hill a genius or an opportunist R G Harvey has applied a keen mind and deft pen to uncover skulduggery in politics and critical routing errors by the early surveyors and engineers who carved their western paths In turn he has exposed new scars and wrinkles to add to historic portraits otherwise untainted **Making Sense of Mining History** Stefan Berger, Peter Alexander, 2019-09-30 This book draws together international contributors to analyse a wide range of aspects of mining history across the globe including mining archaeology technologies of mining migration and mining the everyday life of the miner the state and mining industrial relations in mining gender and mining environment and mining mining accidents the visual history of mining and mining heritage The result is a counter balance to more common national and regional case study perspectives Gold Milton Meltzer, 1993 Discusses the value of gold and how it has been sought after and used in countries around the world throughout history NPA Report ,1989 The Gold Crusades George
