**Gold Rush Trail** Frank Tortorich,1998-01-01      **Gold Rush Trail** Frank Tortorich,2016      *Hard Road West* Keith Heyer Meldahl,2020-03-04 The dramatic journeys of the 19th century Gold Rush come to life in this geologist's tour of the American West and the events that shaped the land In 1848 news of the discovery of gold in California triggered an enormous wave of emigration toward the Pacific The dramatic terrain these settlers crossed is so familiar to us now that it is hard to imagine how frightening even godforsaken its sheer rock faces and barren deserts once seemed to them *Hard Road West* brings their perspective vividly to life weaving together the epic overland journey of the covered wagon trains and the compelling story of the landscape they encountered Taking readers along the 2 000 mile California Trail Keith Meldahl uses settler's diaries and letters as well as his own experiences on the trail to reveal how the geology and geography of the West shaped our nation's westward expansion He guides us through a landscape of sawtooth mountains following the meager streams that served as lifelines through an arid land all the way to California itself where colliding tectonic plates created breathtaking scenery and planted the gold that lured travelers west in the first place Alternates seamlessly between vivid accounts of the 19th century journey and lucid explanations of the geological events that shaped the landscape traveled Library Journal      **The Great Medicine Road, Part 1** Michael L. Tate,2014-10-22 Between 1841 and 1866 more than 500 000 people followed trails to Oregon California and the Salt Lake Valley in one of the greatest mass migrations in American history This collection of travelers accounts of their journeys in the 1840s the first volume in a new series of trail narratives comprises excerpts from pioneer and missionary letters diaries journals and memoirs many previously unpublished accompanied by biographical information and historical background Beginning with Father Pierre Jean de Smet's letters relating his encounters with Plains Indians and ending with an account of a Mormon gold miner's journey from California to Salt Lake City these narratives tell varied and vivid stories Some travelers fled hard times religious persecution the collapse of the agricultural economy illness or unpredictable weather Others looked ahead attracted by California gold the verdant Willamette Valley of Oregon or the prospect of converting Native people to Christianity Although many welcomed the adventure and adjusted to the rigors of trail life others complained in their accounts of difficulty adapting Remembrances of the Oregon California and Mormon Trails have yielded some of the most iconic images in American history This and forthcoming volumes in *The Great Medicine Road* series present the pioneer spirit of the original overlanders supported by the rich scholarship of the past century and a half      **The Great Medicine Road, Part 2** Michael L. Tate,2015-10-01 During the early weeks of 1848 as U S congressmen debated the territorial status of California a Swiss immigrant and an itinerant millwright forever altered the future state's fate Building a sawmill for Johann August Sutter James Wilson Marshall struck gold The rest may be history but much of the story of what happened in the following year is told not in history books but in the letters diaries journals and other written recollections of those whom the California gold rush drew west In this

second installment in the projected four part collection *The Great Medicine Road Narratives of the Oregon California and Mormon Trails* the hardy souls who made the arduous trip tell their stories in their own words Seven individuals tales bring to life a long ago year that enriched some impoverished others and forever changed the face of North America Responding to often misleading promotional literature adventurers made their way west via different routes Following the Carson River through the Sierra Nevada or taking the Lassen Route to the Sacramento Valley they passed through the Mormon Zion of Great Salt Lake City and traded with and often displaced Native Americans long familiar with the trails Their accounts detail these encounters as well as the gritty realities of everyday life on the overland trails They narrate events describe the vast and diverse landscapes they pass through and document a journey as strange and new to them as it is to many readers today Through these travelers diaries and memoirs readers can relive a critical moment in the remaking of the West and appreciate what a difference one year can make in the life of a nation

Michael L. Tate, 2017-09-21 In the years after the discovery of gold in California thousands of fortune seekers made their way west joining the greatest mass migration in American history The gold fields were only one destination as emigrants pushed across the Great Plains Great Basin and Oregon Territory in unprecedented numbers following the Oregon California and Mormon Trails to the verdant Willamette Valley or Mormon settlements in the Salt Lake Valley Seeing the Elephant they often called the journey referring to the wondrous sights and endless adventures met along the way The firsthand accounts of those who made the trip between 1850 and 1855 that are collected in this third volume in a four part series speak of wonders and adventures but also of disaster and deprivation Traversing the ever changing landscape these pioneers braved flooded rivers endured cholera and hunger and had encounters with Indians that were often friendly and sometimes troubled Rich in detail and diverse in the experiences they relate these letters diary excerpts recollections and reports capture the voices of women and men of all ages and circumstances hailing from states far and wide and heading west in hope and desperation Their words allow us to see the grit and glory of the American West as it once appeared to those who witnessed its transformation Michael L Tate begins the volume with an introduction to this middle phase of the trails history A headnote and annotations for each document sketch the author s background and reasons for undertaking the trip and correct and clarify information in the original manuscript The extensive bibliography identifies sources and suggests further reading

**The Great Medicine Road, Part 4** Michael L. Tate, 2020-05-07 Between 1841 and 1866 more than a half million people followed trails to Oregon California and Utah in one of the largest mass migrations in American history *The Great Medicine Road Part 4* collects the letters diaries and reminiscences of some of the emigrants who made this journey between 1856 and 1869 as a second generation of miners farmers town builders and religious believers turned their adventurous eyes westward

in search of new beginnings Here in their own words are the experiences of young men hoping to make their fortunes in mining operations that had sprung up as the gold rush wore down in California but also now in the silver mines of Nevada s Comstock Lode and the recently discovered gold mines of Colorado s Denver and Pike s Peak regions Here also are families and farmers looking for land in the fertile Willamette Valley of Oregon or joining the Mormon community in Utah And here are the stories of intrepid sojourners traveling with or without military escorts as the Civil War conflicts with Indians and the Mormon stand against the U S government altered the circumstances of westward traffic These documents with an introduction and editorial notes written by historian Michael L Tate to provide context and commentary comprise the fourth and final installment in a documentary history of the Oregon California and Mormon Trails They give a living voice to the history of the American experience at a time of westward expansion and profound unprecedented change
