*The Modern Middle East* Camron Michael Amin, Benjamin C. Fortna, Elizabeth B. Frierson, 2006-04-06 Collects English translations of various sources from 1700 to 2005 that offer information on the history development and policies of the

Middle East      Foundations of Modernity Isa Blumi, 2017-06-16 Investigating how a number of modern empires transform over the long 19th century 1789 1914 as a consequence of their struggle for ascendancy in the Eastern Mediterranean and Middle East Foundations of Modernity Human Agency and the Imperial State moves the study of the modern empire towards a comparative trans regional analysis of events along the Ottoman frontiers Western Balkans the Persian Gulf and Yemen This inter disciplinary approach of studying events at different ends of the Ottoman Empire challenges previous emphasis on Europe as the only source of change and highlights the progression of modern imperial states The book introduces an entirely new analytical approach to the study of modern state power and the social consequences to the interaction between long ignored historical agents like pirates smugglers refugees and the rural poor In this respect the roots of the most fundamental institutions and bureaucratic practices associated with the modern state prove to be the by products of certain kinds of productive exchange long categorized in negative terms in post colonial and mainstream scholarship Such a challenge to conventional methods of historical and social scientific analysis is reinforced by the novel use of the work of Louis Althusser Talal Asad William Connolly and Frederick Cooper whose challenges to scholarly conventions will prove helpful in changing how we understand the origins of our modern world and thus talk about Modernity This book offers a methodological and historiographic intervention meant to challenge conventional studies of the modern era      **Empire Unbound** Gavin Murray-Miller, 2022 *Empire Unbound* argues that European empires were not the bounded stable entities that imperialists imagined Gavin Murray Miller demonstrates that the era of new imperialism which arose in the late 19th century fostered connections and synergies between regional powers that influenced the trajectories of imperial states in fundamental ways      **The Cyprus Tribute and Geopolitics in the Levant, 1875-1960** Diana Markides, 2019-04-03 This book examines the history of the Cyprus Tribute and takes a longer and broader view of the issue than previous studies It analyses the regional context of the decision to use revenue surpluses for the repayment of debt within the framework of the Eastern Question and Ottoman bankruptcy We see that the island was always strategically and financially overshadowed by Egypt Scrutinising political developments in Cyprus through the prism of the tribute issue facilitates a better understanding of its considerable effect on them The absence of any imperial role for Cyprus as a place d armes meant that there was no imperial interest in funding the infrastructural development of the island British policy was treasury driven Diana Markides analyses why it failed and how its failure resulted in the local colonial government having to impose a deeply unpopular fiscal policy for which there was no adequate explanation She examines the extent to which local resistance to this policy affected not only constitutional development on the island and Anglo Cypriot relations but the nature of the relations between the two major communities      **The Global Securities Market** R. C. Michie, 2006-11-09 This volume provides an authoritative account of the global securities market from its earliest developments to 2006      *On the Semicivilized* Julia Elyachar, 2025-04-18 *On the Semicivilized* by Julia Elyachar is a sweeping analysis of the coloniality that shaped and blocked

sovereign futures for those dubbed barbarian and semicivilized in the former Ottoman Empire Drawing on thirty years of ethnographic research in Cairo family archives from Palestine and Egypt and research on Ottoman debt and finance to rethink catastrophe and potentiality in Cairo and the world today Elyachar theorizes a global condition of the semicivilized marked by nonsovereign futures crippling debts and the constant specter of violence exercised by those who call themselves civilized Originally used to describe the Ottoman Empire whose perceived civilizational differences rendered it incompatible with a Western dominated global order semicivilized came to denote lands where unitary territorial sovereignty was stymied at the end of WWI Elyachar s theorizing offers a new analytic vocabulary for thinking beyond territoriality postcolonialism and the civilized primitive divide Looking at the world from the perspective of the semicivilized Elyachar argues allows us to shift attention to embodied infrastructures collective lives and practices of moving and acting in common that bypass lingering assumptions of territorialism and unitary sovereign rule

**States, Debt, and Power** Kenneth Dyson, 2014-06-19 States Debt and Power argues for the importance of situating our contextually influenced thinking about European states and debt within a commitment to historically informed and critical analysis It teases out certain broad historical patterns The book also examines the inescapably difficult and contentious judgements about bad and good debt about what constitutes sustainable debt and about distributive justice at times of sovereign debt crisis These judgements offer insight into the nature of power and the contingent nature of sovereign creditworthiness Three themes weave through the book the significance of creditor debtor state relations in defining asymmetry of power the context specific and constructed character of debt above all in relation to war and the limitations of formal economic reasoning in the face of radical uncertainty Part I examines case studies from Ancient Greece to the modern Euro Area and brings together a wealth of historical data that cast fresh light on how sovereign debt problems are debated and addressed Part II looks at the conditioning and constraining framework of law culture and ideology and their relationship to the use of policy instruments Part III shows how the problems of matching the assumption of liability with the exercise of control are rooted in external trade and financial imbalances and external debt in financial markets and vulnerability to banking crisis in the character of the private governance of public debt in who has power over indicators of sustainability in domestic institutional and political arrangements and in sub national fiscal governance Part IV looks at how the problems of mismatch between liability and control take on an acute form within the historical context of European monetary union above all in Euro Area debt crises

Zürcher,2017-12-21 This revised edition builds upon and updates its twin themes of Turkey s continuing incorporation into the capitalist world and the modernization of state and society It begins with the forging of closer links with Europe after the French Revolution and the changing face of the Ottoman Empire in the 19th century Zürcher argues that Turkey s history between 1908 and 1950 should be seen as a unity and offers a strongly revisionist interpretation of Turkey s founding father Kemal Atatürk In his account of the period since 1950 Zürcher focuses on the growth of mass politics the three military coups the thorny issue of Turkey s human right s record the alliance with the West and relations with the European Community Turkey s ambivalent relations with the Middle East the increasingly explosive Kurdish question and the continuing political instability and growth of Islam     *Natural Disasters in the Ottoman Empire* Yaron Ayalon,2015 Yaron Ayalon explores the Ottoman Empire s history of natural disasters and its responses on a state communal and individual level     **Encyclopedia of the Ottoman Empire** Gábor Ágoston,Bruce Alan Masters,2009 Presents a comprehensive A to Z reference to the empire that once encompassed large parts of the modern day Middle East North Africa and southeastern Europe     [The End of Ottoman Rule in Bosnia](#) Hannes Grandits,2021-12-30 This book focuses on the end of four centuries of Ottoman rule in Bosnia and Herzegovina in the 1870s After an introduction to the region and the political zeitgeist of the late 1860s and early 1870s it examines in detail the dramatic years beginning in the summer of 1875 when the outbreak of violent unrest in the eastern

Herzegovinian region bordering Montenegro led to a massive refugee catastrophe. The study traces the surprising further political and social dynamics to the summer and fall of 1878 when a Habsburg army finally invaded the Bosnian Vilayet and took control of the province but only after months of fighting against massive local resistance throughout the province. This book cannot be viewed in isolation from larger political dynamics which are also constantly present in this study as they unfolded. However, as this book attempts to show, it is hardly possible to understand the often contradictory effects of these larger political dynamics without delving deeper into the complex local rationalities and constraints on the action of the actors involved in them. **The End of Ottoman Rule in Bosnia** will appeal to students, teachers, and researchers in late Ottoman and Bosnian history.

**Historical Dictionary of the Ottoman Empire** Selcuk Aksin Somel, 2011-12-29. The Ottoman Empire, like its eventual rival the Habsburg Empire, was a dynastic kingdom whose rule encompassed most of the Middle East, most of North Africa, and parts of Europe at its peak in the mid 17th century. Osman I founded the Ottoman Empire in the early 14th century, and subsequent rulers or Sultans rapidly expanded the boundaries of the territory. In the 15th and 16th centuries, the Ottomans conquered Constantinople, putting an end to the powerful Byzantine Empire, and expanded north into Europe, becoming a major player in European politics. At the beginning of the 20th century, the power of the Ottoman Empire had been declining for several hundred years, and the Empire officially dissolved at the end of the First World War. In this revised and updated second edition of the *Historical Dictionary of the Ottoman Empire*, author Selcuk Aksin Somel introduces both the general reader and the researcher to the history of this dynasty. The comprehensive dictionary includes detailed alphabetical entries on key figures, ideas, places, and themes related to Ottoman history and culture. An expanded introduction provides a basic overview to the history of the Empire, and a guide to further sources and suggested readings can be found in the extensive bibliography that follows the entries. A basic chronology and various maps and illustrations are also included in the dictionary. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Ottoman Empire.

**The A to Z of the Ottoman Empire** Selcuk Aksin Somel, 2010. The Ottoman Empire was the last great Muslim political entity emerging in the later Middle Ages and continuing its existence until the early 20th century and the creation of the modern state of Turkey. *The A to Z of the Ottoman Empire* is an in-depth treatise covering the political, social, and economic history of the Ottoman Empire, the last member of the lineage of the Near Eastern and Mediterranean empires and the only one that reached the modern times both in terms of internal structure and world history.
