Golden Dawn American Sourcebook B:

AB Bookman's Weekly, 1997 **The Routledge Drama Anthology and Sourcebook** Maggie B. Gale, John F.

Deeney, 2012-08-06 A groundbreaking compilation of the key movements in the history of modern theatre. Each of the book's parts comprises full reproductions of the plays that defined the period and key critical writings that inform and contextualise their reading. Here is an anthology of plays and criticism that all teachers of drama should take seriously. The fresh angles and approaches the volume offers on topics such as naturalism, the historical avant-garde and breakthrough works by innovative performance artists e.g. Laurie Anderson. SuAndi all argue in favor of this collection as required reading in courses on modern stagecraft. CHOICE Feb 2011 Modern American Drama: Playwriting in the 1950s Susan C. W.

Abbotson, 2019-11-14 The Decades of Modern American Drama series provides a comprehensive survey and study of the theatre produced in each decade from the 1930s to 2009 in eight volumes. Each volume equips readers with a detailed understanding of the context from which work emerged; an introduction considers life in the decade with a focus on domestic life and conditions, social changes, culture, media, technology, industry and political events, while a chapter on the theatre of the decade offers a wide-ranging and thorough survey of theatres, companies, dramatists, new movements and developments in response to the economic and political conditions of the day. The work of the four most prominent playwrights from the decade receives in-depth analysis and re-evaluation by a team of experts, together with commentary on their subsequent work and legacy. A final section brings together original documents such as interviews with the playwrights and with directors, drafts of play scenes and other previously unpublished material. The major writers and their works to receive in-depth coverage in this volume include William Inge *Picnic* 1953, *Bus Stop* 1955 and *The Dark at the Top of the Stairs* 1957, Stephen Sondheim, Arthur Laurents and Jerome Robbins *West Side Story* 1957 and *Gypsy* 1959, Alice Childress *Just a Little Simple* 1950, *Gold Through the Trees* 1952 and *Trouble in Mind* 1955, Jerome Lawrence and Robert Lee *Inherit the Wind* 1955, *Auntie Mame* 1956 and *The Gang's All Here* 1959. **Video Sourcebook Supplement** Furtaw, 1994-03 *Operetta* Robert

Ignatius Letellier, 2015-10-05 *Operetta* developed in the second half of the 19th century from the French *opéra comique* and the more lighthearted German *Singspiel*. As the century progressed, the serious concerns of mainstream opera were sustained and intensified, leaving a gap between *opéra comique* and vaudeville that necessitated a new type of stage work. Jacques Offenbach, son of a Cologne synagogue cantor, established himself in Paris with his series of *opéras bouffes*. The popular success of this individual new form of entertainment, light, humorous, satirical and also sentimental, led to the emergence of operetta as a separate genre, an art form with its own special flavour and concerns and no longer simply a little opera. Attempts to emulate Offenbach's success in France and abroad generated other national schools of operetta and helped to establish the genre internationally in Spain, in England and especially in Austria-Hungary. Here it inspired works by Franz von Supp and Johann Strauss II in the Golden Age and later Franz Lehár and Emmerich Kálmán in the Silver Age Viennese operetta.

flourished contemporaneously with the Habsburg Empire and the mystique of Vienna but after the First World War an artistically vibrant Berlin assumed this leading position with Paul Lincke, Leon Jessel and Edouard Knecke. As popular musical tastes diverged more and more during the interwar years with the advent of new influences like those of cabaret, the revue, jazz, modern dance music and the cinema as well as changing social mores, the operetta genre took on new guises. This was especially manifested in the musical comedy of London's West End and New York's Broadway with their imitators generating a success that opened a new golden age for the reinvented genre especially after the Second World War. This source book presents an overview of the operetta genre in all its forms. The first volume provides an introduction, a representative chronology of the genre from 1840 to 2013 and a survey of the national schools of France and Austria-Hungary. The principal composers are considered in chronological sequence with biographical material and a list of stage works, selected synopses and some commentary.

African American Authors, 1745-1945 Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing. Since the accidental rediscovery and republication of Harriet Wilson's *Our Nig* in 1983, the works of dozens of 19th and early 20th century black writers have been recovered and reprinted. There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published. Early African American literature builds on a strong oral tradition of songs, folktales and sermons. Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres. A central objective of this reference book is to provide a wide-ranging introduction to the first 200 years of African American literature. Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945. Among these writers are essayists, novelists, short story writers, poets, playwrights and autobiographers. Each entry is written by an expert contributor and provides a biography, a discussion of major works and themes, an overview of the author's critical reception and primary and secondary bibliographies. The volume concludes with a selected general bibliography.

Dawn of the Metal Age Jonathan M. Golden, 2016-04-08 The fifth millennium BCE was a period of rapid social change. One of the key factors was the developments in technology which led to the rise of the metals industry. Archaeological finds from sites dating to the Chalcolithic period indicate the production and use of copper. *Dawn of the Metal Age* examines a range of sites from copper mines in Jordan and Israel to the villages of the northern Negev where copper was produced in household workshops to a series of cave burials where a range of luxury metal goods were buried with the elite members of Chalcolithic society. Ancient technology is reconstructed from the

archaeological evidence which also illuminates the changing economic social religious and political environment of the time
