The Manor: Three Centuries at a Slave Plantation on Long Island Mac Griswold,2013-07-02 In 1984 the landscape historian Mac Griswold was rowing along a Long Island creek when she came upon a stately yellow house and a garden guarded by looming boxwoods She instantly knew that boxwoods that large twelve feet tall fifteen feet wide had to be hundreds of years old So as it happened was the house Sylvester Manor had been held in the same family for eleven generations Formerly encompassing all of Shelter Island a pearl of 8 000 acres caught between the North and South Forks of Long Island the manor had dwindled to 243 acres Still its hidden vault proved to be full of revelations and treasures including the 1666 charter for the land and correspondence from Thomas Jefferson Most notable was the short and steep flight of steps the family had called the slave staircase which would provide clues to the extensive but little known story of Northern slavery Alongside a team of archaeologists Griswold began a dig that would uncover a landscape bursting with stories Based on years of archival and field research as well as voyages to Africa the West Indies and Europe The Manor is at once an investigation into forgotten lives and a sweeping drama that captures our history in all its richness and suffering

Airports, Cities, and the Jet Age Janet R. Bednarek,2016-08-31 This book explores the relationship between cities and their commercial airports These vital transportation facilities are locally owned and managed and civic leaders and boosters have made them central to often expansive economic development dreams including the construction of architecturally significant buildings However other metropolitan residents have paid a high price for the expansion of air transportation as battles over jet aircraft noise resulted not only in quieter jet engine technologies but profound changes in the metropolitan landscape with the clearance of both urban and suburban neighborhoods And in the wake of 9 11 the US commercial airport has emerged as the place where Americans most fully experience the security regime introduced after those terrorist attacks

The Business of Killing Indians William Kiser, 2025-03-18 How colonial conquest was driven by state sponsored profit driven campaigns to murder and mutilate Indian peoples in North America From the mid 1600s through the late 1800s states sponsored scalp bounties and volunteer campaigns to murder and mutilate thousands of Indians throughout North America Since central governments in Amsterdam Paris London Mexico City and Washington DC failed to provide adequate military support and financial resources for colonial frontier defense administrators in regional capitals such as New York Qu bec City New Orleans Boston Ciudad Chihuahua Austin and Sacramento took matters into their own hands At different times and in almost every part of the continent they paid citizens for killing Indians taking Indians captive scalping or beheading Indians and undertaking other forms of performative violence As militant operatives and civilians alike struggled to prevail over Indigenous forces they considered barbaric and savage they engaged in not just plundering slaving and killing but also dismembering corpses for symbolic purposes and for profit Although these tactics mostly failed in their intent to exterminate populations state sponsorship of indiscriminate violence took a significant demographic toll by flooding frontier zones with murderous units whose campaigns diminished Indigenous power reduced tribal populations and forced weakened survivors away from traditional homelands High wages for volunteer campaigning along with cash bounties for Indian body parts and the ability to take captives and keep valuable plunder promoted a state sponsored profit opportunity for civilians
