Asian American Playwrights Miles Liu, 2002-05-30. In the late nineteenth century, Asian American drama made its debut with the spotlight firmly on the lives and struggles of Asians in North America rather than on the cultures and traditions of the Asian homeland. Today, Asian American playwrights continue to challenge the limitations of established theatrical conventions and direct popular attention toward issues and experiences that might otherwise be ignored or marginalized. While Asian American literature came into full bloom in the last 25 years, Asian American drama has yet to receive the kind of critical attention it warrants. This reference book serves as a versatile vehicle for exploring the field of Asian American drama from its recorded conception to its present stage. Included are alphabetically arranged entries for 52 Asian American dramatists of origins from India, Pakistan, Vietnam, the Philippines, Japan, Korea, and China. Each entry includes relevant biographical information that contextualizes the works of a playwright, an interpretive description of selected plays that spotlights recurring themes and plots, a summary of the playwright's critical reception, and a bibliography of primary and secondary works. The entries are written by expert contributors and reflect the ethnic diversity of the Asian American community. The volume closes with a selected general bibliography which includes anthologies, scholarly studies, and periodicals.

Collaborating for Real Literacy Sharon M. Pitcher, Bonnie Mackey, 2013-03-21. Advances in literacy require collaboration between all of a school's stakeholders. This book harnesses the latest research and takes into consideration CCSS to show how to make that collaboration a reality. Authentic literacy practice is crucial to preparing all students to be successful both in the workplace and college in the 21st century. Insisting that this literacy achievement will only happen when librarians, teachers, literacy coaches, and administrators work together in their schools, *Collaborating for Real Literacy* addresses the role of each instructional leader individually and examines the importance of the group collectively in bolstering the literacy of all students. Practical ways to support the teaching of the Common Core State Standards (CCSS) are infused throughout every chapter. In this second edition of the book, core chapters on scaffolding literacy centers, family literacy, English language learners, comprehension, assessment, writing, and discussion have been updated based on current research and CCSS. Each of these chapters now
