**PREFACE**

THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the reader's notes. The Author need hardly say that any

suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is dependent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing

**The Golden Treasury of English Poetry.**  
**Edited by C. H. G. Charles Hains GUNN, 1862**     The Golden Treasury of the Best Songs and Lyrical Poems in the English Language. Selected and Arranged with Notes by ---. Francis Turner Palgrave, 1862     *The Golden Treasury, Selected from the Best Songs and Lyrical Poems in the English Language and Arranged with Notes*, 1922     Palgrave's Golden Treasury (1907) Francis Turner Palgrave, 2014-08-07. This is a new release of the original 1907 edition.     The Golden Treasury Francis T. Palgrave, 2016-07-15. Excerpt from *The Golden Treasury Selected From the Best Songs and Lyrical Poems in the English Language and Arranged With Notes*. In the arrangement the most poetically effective order has been attempted. The English mind has passed through phases of thought and cultivation so various and so opposed during these three centuries of Poetry that a rapid passage between old and new like rapid alteration of the eye's focus in looking at the landscape will always be wearisome and hurtful to the sense of Beauty. The poems have been therefore distributed into Books corresponding I to the ninety years closing about 1616 II thence to 1700 III to 1800 IV to the half century just ended. Or looking at the Poets who more or less give each portion its distinctive character they might be called the Books of Shakespeare Milton Gray and Wordsworth. The volume in this respect so far as the limitations of its range allow accurately reflects the natural growth and evolution of our Poetry. A rigidly chronological sequence however rather fits a collection aiming at instruction than at pleasure and the wisdom which comes through pleasure. Within each book the pieces have therefore been arranged in gradations of feeling or subject. And it is hoped that the contents of this Anthology will thus be found to present a certain unity as episodes in the noble language of Shelley to that great Poem which all poets like the co-operating thoughts of one great mind have built up since the beginning of the world. As he closes his long survey the Editor trusts he may add without egotism that he has found the vague general verdict of popular Fame more just than those have thought who with too severe a criticism would confine judgments on Poetry to the selected few of many generations. Not many appear to have gained reputation without some gift or performance that in due degree deserved it and if no verses by

certain writers who show less strength than sweetness or more thought than mastery of expression are printed in this volume it should not be imagined that they have been excluded without much hesitation and regret far less that they have been slighted Throughout this vast and pathetic array of Singers now silent few have been honoured with the name Poet and have not possessed a skill in words a sympathy with beauty a tenderness of feeling or seriousness in reflection which render their works although never perhaps attaining that loftier and finer excellence here required better worth reading than much of what fills the scanty hours that most men spare for self improvement or for pleasure in any of its more elevated and permanent forms And if this be true of even mediocre poetry for how much more are we indebted to the best Like the fabled fountain of the Azores but with a more various power the magic of this Art can confer on each period of life its appropriate blessing on early years Experience on maturity Calm on age Youthfulness Poetry gives treasures more golden than gold leading us in higher and healthier ways than those of the world and interpreting to us the lessons of Nature But she speaks best for herself Her true accents if the plan has been executed with success may be heard throughout the following pages wherever the Poets of England are honoured wherever the dominant language of the world is spoken it is hoped that they will find fit audience About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) *The Golden Treasury of the Best Songs and Lyrical Poems in the English Language* Francis Turner Palgrave, 2015-09-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
