Golden Women Career Women Who Did What They Wanted To:

Women Who Changed the World Candice Goucher, 2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women's lived experiences. Learning how women changed the world will change the ways the world looks at the past. **Women Who Changed the World: Their Lives, Challenges, and Accomplishments through History** features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective. The women featured in this four-volume set cover the full sweep of history from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams. Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists. Each biography follows a standardized format recounting the woman's life and accomplishments, discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left. A chronological listing of biographies makes it easy for readers to zero in on particular time periods, while a further reading list at the end of each essay serves as a gateway to further exploration and study. High-interest sidebars accompany many of the biographies, offering more nuanced glimpses into the lives of these fascinating women.

The Making of a Moor Woman Chris McGehee, 2010-09 Being a parent for a father is natural and normal. This book tells you what to expect, not what to fear, during the proper raising of your daughter. This is an official guide endorsed by the Moors Society. It presents parenting as an elegant, simple, healthy process instead of a parenting experience fraught with danger. Written in simple language with a respectful, positive tone, this book presents how simple the life of a woman unfolds when permitted to progress naturally. What can disrupt the natural course of a woman's development? Information on the care of a woman at different stages of her life to help readers be an adequate caregiver. Research evidence to help readers separate fact from fiction. Practical strategies for helping a man communicate and negotiate with the women in his life. This book encourages men to trust their ability to care for the women in their lives without needless counseling or other outside intervention. It is an excellent resource not only for new fathers but for all young women who want to live a life that reflects their informed choices and results in a healthy, balanced, and fulfilling life.

With articles written by experts across a variety of disciplines, this encyclopedia delivers insights on the psychology of gender through the lens of developmental science, social science, clinical and counseling psychology, sociology, and more. This encyclopedia will provide librarians, students, and professionals with ready access to up-to-date information that informs some of today's key contemporary issues and debates. These are the sorts of questions we plan for this encyclopedia to address: What is gender nonconformity? What are some of the evolutionary sex differences between men and women?
