**Secrets of the Great Golf Course Architects** Michael Shiels, Michael Patrick Shiels, The American Society of Golf Course Architects, 2008-11-17. Elite designers such as Tom Fazio, Jack Nicklaus, Pete Dye, Rees Jones, Robert Trent Jones Jr, Arthur Hills, Arnold Palmer and others share their personal anecdotes related to the creation of some of the world's most famous courses, from run ins with snakes to bulldozers sinking in quicksand to holes created by accident such as the famed island green 17th at the TPC at Sawgrass.

**Grounds for Golf** Geoff Shackelford, 2003-04-24. Golfers dream of playing the legendary courses of the game: St Andrews, Augusta National, Pinehurst, Pebble Beach. And anyone who has played the royal and ancient sport is an armchair architect at heart. From alterations for their home course to visions of their very own backyard dream course, most golfers would love to test their hands at course design. What makes certain courses timeless? Unlike the venues of other popular recreational sports like tennis and racquetball whose playing fields are bound by strict measurements that do not vary, each golf course is unique. Offering an endless topographical variety from short to long, flat or hilly, wet or dry, every course represents a compelling blend of risks versus rewards with decisions and challenges to test every golfer's game and mental toughness. Combining Geoff Shackelford's informative narrative with detailed illustrations by architect Gil Hanse, *Grounds for Golf* explains the fundamentals of golf course design in an understandable and entertaining style. Modern photographs, anecdotal sidebars and witty quotations augment a course design primer that will enhance readers' enjoyment of golf's lore while introducing the fundamentals of course design. By explaining the golf course from the ground up, *Grounds for Golf* will not only help readers in their understanding of the game but will help their games themselves.
