Things We Know: Fifteen Essays on Problems of Knowledge Frank B. Ebersole, 2001-12-11 Reading Ebersole requires and often succeeds in producing a radical reorientation of one's thinking from a book review Things We Know is a collection of fifteen essays that focus on perennial philosophical problems about knowledge The essays let you participate in Frank Ebersole's unique struggles to come to terms with such questions as Can we know the world the past the future of God's existence whether our actions are free the foundations of logic and language

This is not just another philosophy book about problems of knowledge. In *Things We Know*, Ebersole, by carefully using examples, exposes the problems to be the products of philosophical pictures. The examples also make the pictures less compelling. Thus, by reading this philosophy book, readers can join the author in working to free themselves from some perplexing philosophical concerns.

**How the Second Edition differs from the First Edition**

This edition differs from the First Edition (University of Oregon Books, 1967) in three ways:

- An essay is added: Everyman's Ontological Argument has been inserted as Essay 14, following two other essays about the ontological argument. Everyman's Ontological Argument was published in the Fall 1978 issue of *Philosophical Investigations*.
- The original Chapter 14, *Where the Action Is*, is now Chapter 15. An essay is replaced: The original Essay 3, *How Philosophers See Stars*, has been replaced by a modified version that was printed in *Philosophy Today*, no. 2, 1969. The replacement includes some further improvements. The text is improved.

Throughout the book, the author has made corrections, stylistic improvements, and changed the wording as needed to make clearer his line of thought.

**Summary**

Each of the fifteen essays takes up a philosophical problem. In most of the essays, Ebersole first clarifies the problem and reviews common attempts to resolve the problem. Then he focuses on the central ideas and terms used to state the problem and creates examples of people using the terms under consideration. The examples are unique because of their focus on the context and point of what we say. If his investigations fail to find a use of the terms that supports the philosophical problem, he is led to conclude that the problem does not really derive from a philosophical insight but rather arises from a philosophical picture or model.

**Preface**

The essays in *Things We Know* address some of the perennial philosophical problems of knowledge. The essays are unified by being similar in method and philosophic aim. Ebersole exposes a picture behind each problem. In the essays, he works through some of the ways that pictures control our thinking and tries to make the pictures less compelling.
