Gone For Good Egyptian Migration Processes In The Arab World:

Gone for Good? Ralph R. Sell, 1987 **Main Characteristic and Development Trends of Migration in the Arab World** Jaroslav Bureš, 2008-01-01 Monografie se zaměřuje na popis a hodnocení historických kořenů a souasných trendů migrace chodící a stědomosk migrace Hlavní pozornost je vnov na tyem oblastech Maghribu Egyptu Maroku a zemích Zliva *The Palgrave Handbook of Critical International Political Economy* Alan Cafruny, Leila Simona Talani, Gonzalo Pozo Martin, 2016-07-05 Challenging the assumptions of mainstream International Political Economy IPE this Handbook demonstrates the considerable value of critical theory to the discipline through a series of cutting edge studies The field of IPE has always had an inbuilt vocation within Historical Materialism with an explicit ambition to make sense from a critical standpoint of the capitalist mode of production as a world system of sometimes paradoxically and sometimes smoothly overlapping states and markets Having spearheaded the growth of a vigorous critical scholarship in the 1960s and 1970s however Marxism and neo Gramscian approaches became increasingly marginalized over the course of the 1980s The authors respond to the exposure of limits to mainstream contemporary scholarship in the wake of the onset of the Global Financial Crisis and provide a comprehensive overview of the field of Critical International Political Economy Problematizing socioeconomic and political structures and considering these as potentially transitory and subject to change the contributors aim not simply to understand a world of conflict but furthermore to uncover the ways in which purportedly objective analyses reflect the interests of those in positions of privilege and power The Modern Middle East Camron Michael Amin, Benjamin C. Fortna, Elizabeth B. Frierson, 2006-04-06 Collects English translations of various sources from 1700 to 2005 that offer information on the history development and policies of the Middle East **The International Political Economy of Migration in the Globalization Era** Leila Simona Talani, 2021-09-28 This book concerns with the analysis of the impact of globalization on international migration from a distinct international political economy perspective It confronts theoretical debates from the different international political economy IPE approaches and elaborates on the implications of different theories in policymaking and political realms Here migration is examined as an integral part of the global political economy that is structurally connected to the process of globalization although the definition of globalization itself is a subject of enquiry *From Egypt to Europe* Leila Simona Talani, 2009-11-30 How does the process of globalisation relate to the increase of migratory flows from less developed countries to western ones This book explores the impact of globalisation upon migration from an international political economy perspective paying particular attention to the dynamics of migration from the Middle East and North Africa area especially Egypt to the EU member countries The theoretical aims of the book are to understand the problem of migration both legal and illegal in the context of globalisation and to assess the relation between globalisation marginalisation and the EU response to threats of mass immigration from less developed countries *The Arab Spring in the Global Political Economy* L. Talani, 2014-07-29 Although it is still early for an established

academic account of the motivations behind the dramatic events in the Arab world in 2010 11 Leila Simona Talani believes that it is about time to try and place this issue into the broader picture of the latest changes in the global political economy

Gershoni, James P. Jankowski, 2002-08-08 The authors examine the emergence of nationalism among the Egyptian middle class during the 1930s and 1940s and its growing awareness of an Arab and Muslim identity Previously Egypt did not define itself in these terms but adopted a territorial and isolationist outlook It is the revolutionary transformation in Egyptian self understanding which took place during this period that provides the focus of this study The authors demonstrate how the growth of an urban middle class combined with economic and political failures in the 1930s eroded the foundations of the earlier order Alongside domestic events the momentum of Arabism abroad and the impact of events in Palestine necessitated Egyptian regional involvement Egypt's present position as a major player in Arab Muslim and Third World affairs has its roots in the fundamental transition of Egyptian national identity at this time Pop Culture Arab World! Structural Flaws in the Middle East Process J. W. Wright Jr, 2002-02-07 Negotiations between Israel and the Arab states have continued in one form or another for over a decade through three Israeli administrations the death of a King of Jordan and through countless riots and incidences of protest by Palestinians and Jews alike The agreements that have been reached and some situations established by defacto rule and force majeure have created possibly irreversible economic and political structures This collection presents a debate among eminent scholars and public officials over the power these structures engender in the region

Fortress Europe? Annette Jünemann, Nikolas Scherer, Nicolas Fromm, 2017-03-16 An unprecedented number of people is currently on the move seeking refuge in Europe Large parts of European societies respond with anxiety and mistrust to the influx of people Nationalist anti migrant parties from Slovakia over Germany to the UK have gained increasing support among the electorate and challenge the political mainstream Europe is struggling how to respond While the search for solutions is ongoing one pattern seems to be emerging Fortress Europe is in the making Unfortunately few of these discussions and measures consider the structural root causes and dynamics of migration the motives of migrants or societal challenges more thoroughly This book seeks to address this deficit Taking migration and asylum policies as a starting point it analyses the various dimensions underpinning migration In doing so it identifies why receiving countries are in many ways part of the problem To eschew an overtly Euro centric perspective and stimulate a debate between science and politics it contains contributions by academics and practitioners alike from both shores of the Mediterranean
