The Natural History of Make-Believe John Goldthwaite,1996-02-22 The Man in the Moon has dropped down to earth for a visit Over the hedge a rabbit in trousers is having a pipe with his evening paper Elsewhere Alice is passing through a looking glass Dorothy riding a tornado to Oz and Jack climbing a beanstalk to heaven To enter the world of children s literature is to journey to a realm where the miraculous and the mundane exist side by side a world that is at once recognizable and real and enchanted Many books have probed the myths and meanings of children s stories but Goldthwaite s Natural History is the first exclusively to survey the magic that lies at the heart of the literature From the dish that ran away with the spoon to the antics of Brer Rabbit and Dr Seuss s Cat in the Hat Goldthwaite celebrates the craft the invention and the inspired silliness

that fix these tales in our minds from childhood and leave us in a state of wondering to know how these things can be. Covering the three centuries from the fairy tales of Charles Perrault to Maurice Sendak's *Where the Wild Things Are*, he gathers together all the major imaginative works of America, Britain, and Europe to show how the nursery rhyme, the fairy tale, and the beast fable have evolved into modern nonsense, verse, and fantasy. Throughout, he sheds important new light on such stock characters as the fool and the fairy godmother, and on the sources of authors as diverse as Carlo Collodi, Lewis Carroll, and Beatrix Potter. His bold claims will inspire some readers and outrage others. He hails *Pinocchio* for example as the greatest of all children's books, but he views C. S. Lewis's *The Chronicles of Narnia* as a parable that is not only murderously misogynistic but deeply blasphemous as well. Fresh, incisive, and utterly original, this rich literary history will be required reading for anyone who cares about children's books and their enduring influence on how we come to see the world.

The Oxford Companion to Children's Literature Daniel Hahn, 2015-03-26 The last thirty years have witnessed one of the most fertile periods in the history of children's books: the flowering of imaginative illustration and writing; the Harry Potter phenomenon; the rise of young adult and crossover fiction; and books that tackle extraordinarily difficult subjects. The *Oxford Companion to Children's Literature* provides an indispensable and fascinating reference guide to the world of children's literature. Its 3,500 entries cover every genre, from fairy tales to chapbooks, school stories to science fiction, comics to children's hymns. Originally published in 1983, the *Companion* has been comprehensively revised and updated by Daniel Hahn. Over 900 new entries bring the book right up to date. A whole generation of new authors and illustrators are showcased, with books like *Dogger*, *The Hunger Games*, and *Twilight* making their first appearance. There are articles on developments such as manga, fan fiction, and non-print publishing, and there is additional information on prizes and prizewinners. This accessible A to Z is the first place to look for information about the authors, illustrators, printers, publishers, educationalists, and others who have influenced the development of children's literature, as well as the stories and characters at their centre. Written both to entertain and to instruct, the highly acclaimed *Oxford Companion to Children's Literature* is a reference work that no one interested in the world of children's books should be without.

Gone is gone, or, the story of a man who wanted to do housework Wanda Gág, **The Cambridge Guide to Women's Writing in English** Lorna Sage, 1999-09-30 This Guide aims to consolidate and epitomise the re-reading of women's writing that has gone on in the last twenty-five years. This is an opportunity for stock-taking, a timely project when so much writing has been rediscovered, reclaimed, and republished. There are entries on writers, on individual texts, and on general terms, genres, and movements, all printed in a single alphabetical sequence. The earliest written documents in medieval English, the visionary writings of Julian of Norwich and Margery Kempe, are covered in an historical and geographical sweep that takes us up to the present day. The book reflects the spread of literacy, the history of colonisation, and the development of post-colonial cultures, using and changing the English language. The entries are written by contributors from all the countries covered. The result is a work of reference with a unique feeling
