**Gonzo Marketing** Christopher Locke, 2009-06-17 Ladies and gentlemen please return your tray tables to the fully upright and locked position suspend your disbelief and put on your tinfoil pyramid hats We are now entering cue lights cue music the Brand Dimension Gonzo Marketing is a knuckle whitening ride to the place where social criticism biting satire and serious commerce meet and where the outdated ideals of mass marketing and broadcast media are being left in the dust As master of ceremonies at the wake for traditional one size fits all marketing Locke has assembled a unique guest list from Geoffrey Chaucer to Hunter S Thompson to guide us through the revolution that is rocking business today as people connect on the Web to form powerful micromarkets These networked communities based on candor trust passion and a general disdain for anything that smacks of corporate smugness reflect much deeper trends in our culture which Locke illuminates with his characteristic wit Just as gonzo journalism arose in response to objective news standards that claimed to foster fairness but in practice discouraged writers from speaking their minds in their own voices so too does gonzo marketing call for a similar response to assumptions about consumer behavior that no longer relate to how people actually live their lives Gonzo Marketing is not yet another nostrum for hoodwinking the unwary It s about market advocacy It describes how the artist formerly known as advertising must do a 180 It s about transforming the marketing message from we want your money to we share your interests It s about tapping into listening to and even forming alliances with emerging on line markets who probably know more about your company than you do It s a hip hop cover of boring old best practices played backwards The paradox is that companies that support and promote these communities can have everything they ve always wanted greater market share customer loyalty brand equity Irreverent penetrating profoundly simple and on the money Gonzo Marketing is the raucous wake up that no one interested in any aspect of twenty first century business from the trading floor right up to the boardroom can afford to ignore
