*A Fundamental Guide for a Healthy Lifestyle and Nutrition* Ugur Gogus Ph. D, 2011-02 All scientific claims indicate one result that food and nutrition is an integral part of medicine while medicine can not show its curing potential without a correct and complementary food and nutrition A blood thinning anticoagulant drug when combined with too much blood thinning food consumption can increase the risk of internal bleeding risk and may be fatal Bergamottin in grapefruit can inhibit the activity of liver enzymes and can cause the accumulation of radio and chemotherapeutic agents in blood which can increase the side effects of such anti carcinogen treatments Similarly fibers which are introduced as healthy food components with their weight loosing and cancer protecting effects may bind some important nutrients which may result in immunodeficiency and chronic fatigue Omega 3 fatty acids as the healthiest fat options may even be fatal during ventricular tachycardia I have tried to inform the reader that there is no a completely healthy or a completely harmful food while there are some beneficial foods for some diseases and disorders I strongly believe that you will be able to enhance the curing potential of the traditional medicine with the correct food nutrition and life style for each disease which is carefully and scientifically analysed in the book Dr Ugur Gogus

**Good Cholesterol, Bad Cholesterol** Anita Hirsch, 2002-08-06 High cholesterol is an important risk factor for heart disease heart attack and strokes And although cholesterol screening is one of the most widely administered and evaluated blood tests many people don't realize that our bodies require some cholesterol to function normally and remain confused about which cholesterol is the good one and which is the bad Now in Good Cholesterol Bad Cholesterol Hirsch presents a clear concise primer to all the varieties of this blood lipid including HDL high density lipoprotein LDL low density lipoprotein VLDL very low density lipoprotein and others as well as the connection between the ways various types of fat affect cholesterol levels Providing essential information about how cholesterol relates to heart disease stroke and other life threatening medical conditions this essential primer also provides guidance about how to manage your cholesterol levels
