Good Faith In International Law:

Good Faith in International Law J. F. O'Connor, 1991 This text considers the origin and development of good faith in legal theory and its role as a fundamental principle in international law It ranges from the origins of the concept and the first manifestations of the legal principle to recent decisions of international courts and tribunals *Good Faith in International Law* Robert Kolb, 2017 There is a great degree of controversy on the proper complexion and role of general principles of law in the international legal order Opinions range from total rejection of some types of principles to the most enthusiastic endorsement of principles as the necessary oil for the many complex wheels of the legal order In this book one of the leading public lawyers of his generation explores the concept of good faith and its role in international law Rather than offer a detailed comprehensive examination Kolb aims to map the true points of gravity of the principle of good faith in the international legal order In so doing he illustrates how the various legal institutions who operate in the sphere of public international law allow the principle of good faith to unfold Bloomsbury Publishing **Good Faith in International Law** Robert Kolb, 2017-07-13 There is a great degree of controversy on the proper complexion and role of general principles of law in the international legal order Opinions range from total rejection of some types of principles to the most enthusiastic endorsement of principles as the necessary oil for the many complex wheels of the legal order In this book one of the leading public lawyers of his generation explores the concept of good faith and its role in international law Rather than offer a detailed comprehensive examination Kolb aims to map the true points of gravity of the principle of good faith in the international legal order In so doing he illustrates how the various legal institutions who operate in the sphere of public international law allow the principle of good faith to unfold *The role of good faith in international sales law* Nadiia Kudriashova, 2019-03-26 Diploma Thesis from the year 2016 in the subject Law European and International Law Intellectual Properties grade MA Columbia International University language English abstract The second half of the 20th century was characterized by a worldwide trend in the development of foreign economic trade relations and as a consequence the complication of the legal regulation of market relations in various international contracts commercial financial or cross border provision of services In the context of globalization which covered all spheres of society's life the content of international trade turnover is changing Its modern distinctive features are the following the expansion of trade items apart from the traditional trade in goods also trade in services intellectual property capital is increasingly taking place the emergence of new types of contracts factoring franchising etc strengthening the role of universal international treaties on trade services intellectual property the emergence of new world markets for currency and capital stepping up of the activities of international economic organizations introduction of new information technologies into the trade The indicator of growth in international trade turnover is also the growth in exports The rapid growth of the modern world economy the rapid development of economic and scientific and technical cooperation between different countries lead to the fact that the world

economy increasingly acquires the features of a single organism beyond which no state of the world can function properly

Good Faith and International Economic Law Andrew D. Mitchell, 2018 Good faith is a doctrine that is readily accepted in legal systems Yet its distinct meaning has always been elusive Ideas such as justice and equity are omnipresent in the law Good faith is counted among such ideas Their function has been to provide a corrective approach in situations where the strict application of the law has unacceptable results They are also used to support a decision maker's conclusions on difficult issues where other solutions are equally possible In these situations good faith and similar ideas become rationalizations for the results arrived at Defined or explained in this way their existence in the law may be desirable But put differently these nebulous doctrines exist in the law to aid in finding subjective solutions to difficult issues which may come to be justified through the use of such lofty notions The latter conclusion immediately invites the criticism that the doctrine of good faith is capable of manipulation in order to justify a variety of inconsistent results Critics argue that the subjectivity inherent in these concepts makes their use of doubtful significance They have such a variable meaning that they could be used to support a variety of conclusions and befuddle the law in its search for certainty Having in itself no power to lead to conclusions the purpose of a concept such as good faith may be misguided that of justifying conflicting solutions to difficult problems This book demonstrates the range of scholarly views applicable to good faith in international investment law and the questions that remain to be answered Good Faith in International Commercial Arbitration Georgios

Martsekis, 2025-05-06 This book demystifies the effectiveness of good faith in international commercial arbitration law In the growing universe of international commercial arbitration it is more pressing than ever to discuss the role of good faith and challenge residual conservative skepticism regarding its usefulness The book employs principles standards and concepts which are normatively ingrained in good faith These include the principle of pacta sunt servanda the estoppel doctrine the transnational standard of cooperation and fair dealing among merchants It also discusses the pertinence of good faith to corrective justice proportionality prohibition of discrimination and unconscionability international public policy and due process among other concepts This granular approach demonstrates how good faith is integrated into the practice of international commercial arbitration The book sheds light on the technical functions of the principle in parties substantive protection contractual interpretation and arbitral procedure with an ultimate view to reinforcing the soundness and persuasive value of arbitral decision making Throughout the book establishes a uniform and enforceable conceptualization of good faith in transnational disputes The book will be of interest to practitioners and researchers in the fields of commercial law arbitration transnational disputes and international law **Good Faith in International Investment Arbitration**

Emily Sipiorski, 2019 Written by a leading legal researcher this book offers a comprehensive study of the principle a frequently invoked but rarely analysed aspect of investment arbitration It is a thorough and expansive study that considers the application of good faith by arbitral tribunals and parties in international investment disputes encompassing both

procedural and substantive aspects of good faith Expertly negotiating a complex principle this book diligently follows the arbitral process from jurisdiction through merits and to cost decisions identifying the various applications of good faith in investment disputes The author offers detailed analyses of the role of good faith in defining nationality and investor as well as in pre dispute admissibility requirements The study then delves into the ways the principle guides parties arguments and informs tribunals decisions regarding evidence substantive protections and costs It further addresses the role of good faith in the behaviour of arbitrators and other actors This is a guide for anyone wishing to understand this important principle that has accompanied the developing system of international investment law *Good Faith and International Economic Law*

Andrew D. Mitchell, M Sornarajah, Tania Voon, 2015-05-21 The past two decades have seen a significant proliferation of trade and investment treaties around the world States are increasingly negotiating agreements that regulate both trade and investment such as the Trans Pacific Partnership Agreement and the Transatlantic Trade and Investment Partnership The number of investor state dispute settlement cases is rapidly accumulating each year yet states enthusiasm for investor state arbitration has become more qualified as concern has intensified that the system can be abused by foreign investors Good faith is therefore becoming increasingly important as a principle particularly in the investment context due to disputes about investor conduct such as corporate restructuring in order to gain the protection of a particular investment treaty regarding an existing or foreseeable dispute and States responses to public policy concerns through attempts to modify or terminate investment treaties in the face of ongoing or expected claims Tribunals adjudicating investment disputes have used the principle of good faith in a haphazard and uncoordinated manner causing serious problems of uncertainty and inconsistency In response to these developments this book contains the first comprehensive and integrated analysis of the treatment of good faith in international investment law noting the broader implications of good faith in public international law and international trade law **Good Faith in the Jurisprudence of the WTO**

Marion Panizzon, 2006-10-19 What does the concept of good faith express This book is the first to discuss what good faith means in international trade law As a reference guide for scholars and practitioners it analyses the case law of WTO dispute settlement practice The book describes how why and when the concept of good faith links the WTO Agreements with other public international norms The concept of good faith appears frequently in treaties and customary rules but is most often considered a general principle of law WTO law uses the corollaries of pacta sunt servanda the prohibition of abus de droit and the protection of legitimate expectation alongside the principle of good faith An analysis of GATT 1947 and WTO case law reveals that the function of good faith varies The Panel reports and the Appellate Body decisions make different use of it The Appellate Body is prepared to apply the principle to WTO provisions only while Panels use it more freely and substantively that is they apply good faith to fill lacunae in any of the WTO covered agreements Also adjudicators use the principle differently depending on whether it relates to the agreements covered by the WTO or the procedural law of WTO dispute settlement As it applies to the former good faith is

used to strike a balance between on the one hand the obligation to liberalise trade and on the other hand the right to invoke an exception to trade liberalisation for the protection of the environment culture public morals human life or health In this way good faith safeguards the gains of multilateral trade liberalisation against unlawful interests such as disguised protectionism The book also introduces the novel field of WTO procedural law governing trade dispute litigation In the Dispute Settlement Understanding DSU good faith appears in the standard of review rules of evidence and fact finding standing duty of prior consultation right of establishment of a panel ex officio investigations withdrawal of notices of appeal and the raising of objections In all these areas it ensures that the rules of dispute resolution are not abused The Appellate Body has even gone so far as to derive a new standard from the principle of good faith that demands that disputes are settled fairly promptly and effectively Insights into good faith in WTO law are not only important for trade law professionals Current applications and future operations of the principle are likely to be of strategic value for answering the increasingly pressing question of how WTO law and other international agreements ought to be reconciled Issues of State Responsibility Before International Judicial Institutions M. Fitzmaurice, Malgosia Fitzmaurice, Dan Sarooshi, 2004-06 The book contains papers presented at a conference which cover issues of State Responsibility before various international judicial institutions

Contemporary International Law and China's Peaceful Development Lingliang Zeng, 2020-10-30 This book discusses selected frontier and hot theoretical and practical issues of international law in the 21st century and in the process of China's peaceful development strategy such as interactions between harmonious world international law and China's peaceful development close connections of China rule of law with international rule of law issues of international law resulted from the war of Former Yugoslavia establishment of ICC DPRK nuclear test Iraq War Independence of Crimea features of WTO rule of law and its challenges as well as legal and practical disputes between China and other members in the WTO recent tendency of regional trade agreements and characteristics of Chinese practices in this aspect legal issues in relations between China and the European Union with a view of the framework of China EU Comprehensive Strategic Partnership **The Legal Status of the OECD Commentaries** Sjoerd Douma, F. A. Engelen, 2008 Since the mid 1980s the legal basis of the practice of tax administrations and courts around the world to conform to the Commentaries when interpreting and applying bilateral tax treaties based on the OECD Model has been the subject of an ongoing academic debate Recently the debate has received new impetus and the primary focus is now on the general principles of international law In particular opinions differ on the question whether the Commentaries can be a source of legal obligations through the principles of acquiescence and estoppel both of which are founded on considerations of good faith and equity and provide specific protection of settled expectations The reports contained in this book address two questions The first is whether under international law the states parties to a tax treaty are legally bound by the OECD Commentaries when interpreting and applying the provisions of the treaty which are identical to those of the OECD Model The second question is whether under the contracting states internal law taxpayers

and the tax authorities are equally bound to apply the Commentaries if and when the contracting states themselves are so bound under international law The book brings various legal disciplines public international law international tax law Community law and constitutional law together in order to resolve the legal status of the Commentaries Through interdisciplinary debate the issues have been defined clearly and the exact points at which the opinions differ are identified thereby resulting in a better understanding of the issues at hand

The Renovation of International Law D. Josephus Jitta, 1919 I have written my work during THE WAR The idea of activity of the States is interwoven all through my work but of course the project of a League of nations which has been elaborated during the armistice could not be taken into consideration This is moreover a subject matter which can only be dealt with in an experimental way in future times Besides I dare say that my work does not fall short with regard to the plans of the day so far as the juridical community of mankind is concerned it is even ahead of its time

Conclusion Andrew D. Mitchell, 2018 This volume weaves its way through a number of intersecting fields chief among them public international law international investment law and international trade law The focus of the analysis is on international investment law and in particular the significance of the principle of good faith in identifying a protected investment or protected investor the nationality of a given entity the jurisdiction of an investment tribunal in resolving a given dispute and compliance with the fair and equitable treatment standard Yet the role of good faith in the context of international investment law can be fully understood only having regard to other legal issues including the sources of international law the interpretation of treaties the law of treaties in terms of their creation modification and termination and the relationship between overlapping disputes in different

national regional and inter national fora Accordingly the volume brings together authors with varied and complementary expertise to tackle good faith from these various angles **Supplement to the American Journal of International Law**
