Ecology And Religion Toward A New Christian Theology Of Nature:

Ecology and Religion John Carmody, 1983 *Christianity and Ecological Theology* E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **The ^AWealth of Nature** Donald Worster, 1994-10-27 Hailed as one of the most eminent environmental historians of the West by Alan Brinkley in The New York Times Book Review Donald Worster has been a leader in reshaping the study of American history Winner of the prestigious Bancroft Prize for his book *Dust Bowl* Worster has helped bring humanity's interaction with nature to the forefront of historical thinking Now in *The Wealth of Nature* he offers a series of thoughtful eloquent essays which lay out his views on environmental history tying the study of the past to today's agenda for change Worster ranges across such areas as agriculture water development and other questions examining them as environmental issues and showing how they have affected and continue to affect human settlement He also examines urban life and history in the context of environmental history and goes on to argue for a comprehensive approach to understanding our past as well as our present in environmental terms Nostalgia runs all through this society Worster writes fortunately for it may be our only hope of salvation These reflective and engaging essays capture the fascination of environmental history and the beauty of nature lost or endangered underscoring the importance of intelligent action in the present *Systematic Theology, Volume 2, Second Edition* James Leo Garrett Jr., 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both

biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary
 One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary **Systematic Theology, Volume 2, Second Edition**
 James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal
 July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly
 invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully
 and judiciously presents alternatives that teachers and students from other confessional and denominational positions will
 find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and
 historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short
 work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable
 contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students
 and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the
 theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century
 May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious
 research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett
 has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The
 work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson
 Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive
 wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary This Sacred Earth
 Roger S. Gottlieb, 1996 This is the first comprehensive survey of the critical connections between religion nature and the
 environment It includes writings from sacred texts and a broad spectrum of new eco theological selections Historical and
 contemporary selections from key authors and a multicultural range of sources make This Sacred Earth an invaluable
 teaching resource and a unique introduction to the theory and practice of religious environmentalism *Ecotheology and
 the Practice of Hope* Anne Marie Dalton, Henry C. Simmons, 2010-09-29 Is there any hope for a more sustainable world Can
 we reimagine a way of living in which the nonhuman world matters Anne Marie Dalton and Henry C Simmons claim that the
 ecotheology that arose during the mid twentieth century gives us reason for hope While ecotheologians acknowledge that
 Christianity played a significant role in creating societies in which the nonhuman world counted for very little these thinkers
 have refocused religion to include the natural world To borrow philosopher Charles Taylor's concept they have created a new
 social imaginary reimagining a better world and a different sense of what is and what should be A new mindset is emerging
 inspired by ecotheological texts and evident in the many diverse movements and activities that operate as if the hope

imparted by ecotheology has already been realized While making this powerful argument Dalton and Simmons also provide an essential overview of key ecotheological thinkers and texts

Nature, God and Humanity Richard L. Fern, 2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good

Handbook of Cross-cultural Psychology: Social behavior and applications John W. Berry, Ype H. Poortinga, Janak Pandey, 1997 Presenting the human relations in a cultural context this book explores various social psychology concepts and applied topics in the light of cross cultural research It also features the developments in the field as well as diversity in the cultural and theoretical backgrounds of the editors and chapter authors

Imaging God Douglas John Hall, 2004-03-14 The deterioration of our natural environment under the impact of a rampant technological society is one of the major crises of our time For many analysts a primary cause of this crisis is the influence on Western culture of the Judaeo Christian concept of the human being as having dominion over the rest of creation In this book Douglas John Hall does not attempt to exonerate historical Christianity from that charge But he argues confession alone is not enough The crisis of nature forces us to rethink our whole understanding of the relation between humanity and nature an understanding that is based on the concept that human beings are created in the image of God imago Dei Hall carefully examines the biblical historical and theological meanings of this term which more than any other biblical expression became Christianity's symbolic way of designating the essence of the human Hall argues that the image of God is not an endowment it is not something that human beings have rather it is a quality that pertains to our relationship with God We should think of imago as a verb not a noun he says The human vocation within the created order is to image the Creator When this is applied in a consistent and serious way the idea of human dominion over all of nature must be radically reinterpreted Taking the Lordship of Jesus as an authentic model for understanding our human relation to the natural order means that dominion is expressed not as mastery but as service sacrificial service of the others with and for whom one is responsible Thus the concept of dominion as stewardship eschews any idea of ownership or superiority in relation to nature yet assumes a special accountability for its welfare A provocative and original work Hall's book retains the biblical centrality of homo sapiens while at the same time raising both nature and God to a new kind of prominence in the dialogue that is life

Foundations for African Theological Ethics James Nkansah-Obrempong, 2013-05-14 Having taught on ethics in Africa for almost a decade James Nkansah Obrempong presents a work that goes some way to addressing the dearth of materials on ethics that combine African social religious cultural and moral values with biblical and theological values Integrating these from African Western and biblical contexts Nkansah demonstrates how important they are for dealing with contemporary moral and social issues facing the church in Africa and African societies The book develops a theoretical biblical and theological foundation for Theological Ethics and uses this to address the broader issues that affect the socio political and economic life of African people and the church

Ritschl in Retrospect Darrell Jodock, 2020-08-31 Albrecht Ritschl 1822 1889 looms large in the second half of the nineteenth century He redirected theology from speculative idealism

toward a more concrete historical apprehension of the Bible the church and Christian life Ritschl in Retrospect reassesses Ritschl's rich legacy and current import especially on such still pertinent topics as his attempt to reinvigorate the Reformation tradition his reflections on the communal dimensions of church his recognition of the centrality of the kingdom of God his community based Christocentric reading of the Bible his criticisms of classical theism and his thoughts on religion and science Joining Darrell Jodock in this reassessment are the following leading historians and theologians William R Barnett Clive Marsh Richard P Busse Hans Schwarz David W Lotz Rich M Wall Jr Gerald W McCulloh Claude Welch

Tongues and Trees Aaron Jason Swoboda, 2019-05-21 This book develops a Pentecostal ecological theology ecotheology by utilizing key pneumatological themes that emerge from the Pentecostal tradition It examines the salient Pentecostal and Charismatic voices that have stimulated ecotheology in the Pentecostal tradition and situates them within the broader context of Christian ecumenical ecotheologies Roman Catholic Orthodox Protestant and Ecofeminist The author advances a novel approach to Pentecostal ecotheology through a pneumatology of the Spirit baptized creation the charismatic creational community the holistic ecological Spirit and the eschatological Spirit of ecological mission Significantly this book is the first substantive contribution to a Pentecostal pneumatological theology of creation with a particular focus on the Pentecostal community and its significance for the broader ecumenical community Furthermore it offers a fresh theological approach to imagining and sustaining earth friendly practice in the twenty first century Pentecostal church **Teaching as Believing**

Chris Anderson, 2004 The public university classroom is a place where socialization still occurs it's where students learn to be citizens of the world Having attended to political correctness and multi culturalism universities are now facing the issue of spirituality in their quest to educate the whole person In this book Chris Anderson takes up this task by carefully exploring how a professor of faith can help a public university accomplish its pluralistic mission Anderson illustrates how the study of secular literature throws fresh light on the ways in which the Bible can be read He also deftly shows how a sympathetic study of the Bible trains secular readers for understanding the abiding significance of the Western literary canon as a kind of scripture Anderson thus gives readers a book that is as much about the experience of a faithful teacher and the proper ends of education as it is about discovering the right ways to read texts be they sacred or secular **Christian Conversion**

Walter E. Conn, 2006-07-01 Walter Conn has provided us with something we have needed for a long time a scholarly study of Christian conversion that draws synthetically from present day psychology philosophy and theology and uses these insights to analyze actual Christian religious experience And in doing that Conn has produced what is probably the best treatment to date of foundational moral theology To follow Conn through the pages of this volume is to become acquainted with most of today's important reflection on human moral and personal development But one emerges with much more than relevant information about what is being said Conn's own view of conversion goes beyond the thinkers from whom he draws and provides a basic challenge to and enrichment of our understanding of faith and morality Bernard Cooke Holy Cross College

Walter E Conn is Professor of Theology and Religious Studies at Villanova University He is also the editor of Horizons journal of the College Theology Society
