Religion Around Bono Chad E. Seales, 2019-10-24 For many U2's Bono is an icon of both evangelical spirituality and secular moral activism In this book Chad E Seales examines the religious and spiritual culture that has built up around the rock star over the course of his career and considers how Bono engages with that religion in his music and in his activism Looking at Bono and his work within a wider critique of white American evangelicalism Seales traces Bono's career from his background in religious groups in the 1970s to his rise to stardom in the 1980s and his relationship with political and economic figures such as Jeffrey Sachs Bill Clinton and Jesse Helms In doing so Seales shows us a different Bono one who uses the spiritual meaning of church tradition to advocate for the promise that free markets and for profits will bring justice and freedom to the world's poor Engaging with scholarship in popular culture music religious studies race and economic development Seales makes the compelling case that neoliberal capitalism is a religion and that Bono is its best known celebrity revivalist Engagingly written and bitingly critical Religion Around Bono promises to transform our understanding of the rock star's career and advocacy Those interested in the intersection of rock music religion and activism will find Seales's study provocative and enlightening *New Outlook*, 1907 *The Outlook*, 1907

Outlook, 1907 **Chinese Medical Journal**, 1926 **Preacher** Roger A. Bruns, 2002 Born in Iowa during the Civil War Billy Sunday rose to fame as the fastest man in baseball during his career with the Chicago White Stockings in the 1880s In this account of Billy Sunday's life the author unfolds the story of modern evangelism **Economic Evangelism** Sir Markadoo Haggins, 2017-09-24 Economic Evangelism is not just some cute sounding term it is actually a mission a passion The methodology is something that I have developed over the last 20 years The methodology begins with offering the average individual an opportunity to escape the limitations that were placed on them because of their own choices In many cases

those choices were because the inputs and the impact that they've had from others in life didn't teach them the values and the virtues of working for yourself. Instead, they trained people like circus animals to perform a task that enriched others and not themselves. The job system in America pays an individual just enough not to quit and they do just enough not to get fired.

Native Evangelism in Central Mexico Hugo G. Nutini, Jean F. Nutini, 2014-08-15. Evangelical Christianity is Mexico's fastest growing religious movement with about ten million adherents today. Most belong to Protestant denominations introduced from the United States, e.g., Jehovah's Witnesses, Seventh-day Adventists, but perhaps as many as 800,000 are members of homegrown native evangelical sects. These native Mexican sects share much with the American denominations of which they are spinoffs. For instance, they are Trinitarian, Anabaptist, and Millenarian; they emphasize a personal relationship with God, totally rejecting intermediation by saints, and they insist that they are the only true Christians. Beyond that, each native sect has its distinctive characteristics. This book focuses on two sharply contrastive native evangelical sects in Central Mexico: *Amistad y Vida* (Friendship and Life) and *La Luz del Mundo* (The Light of the World). The former, founded in 1982, now has perhaps 120,000 adherents nationwide. It is nonhierarchical, extremely egalitarian, and has no dogmatic directives. It is a cheerful religion that emphasizes charity, community service, and personal kindness as the path to salvation. It attracts new members mainly from the urban middle class through personal example rather than proselytizing. *La Luz del Mundo*, founded in 1926, now has about 350,000 members in Mexico and perhaps one million in the hemisphere. It is hierarchically organized and demands total devotion to the sect's founder and his son, who are seen as direct links to Jesus on Earth. It is a proselytizing sect that recruits mainly among the urban poor by providing economic benefits within the congregations but does no community service as such. Based on ten years of fieldwork (1996-2006) and contextualized by nearly fifty years of anthropological study in the region, *Native Evangelism in Central Mexico* presents the first ethnography of Mexico's native evangelical congregations. *APAIS 1992: Australian public affairs information service*, *Faith in the Halls of Power: How Evangelicals Joined the American Elite* (Religion and Urban Life). Rice University. D. Michael Lindsay, Assistant Professor of Sociology and Assistant Director and Faculty Fellow at the Center on Race, 2007-09-24. Evangelicals, once at the periphery of American life, now wield power in the White House and on Wall Street, at Harvard and in Hollywood. How have they reached the pinnacles of power in such a short time? And what does this mean for evangelicals and for America? Drawing on personal interviews with an astonishing array of prominent Americans, including two former Presidents, dozens of political and government leaders, more than 100 top business executives, plus Hollywood moguls, intellectuals, athletes, and other powerful figures, D. Michael Lindsay shows first-hand how they are bringing their vision of moral leadership into the public square. This riveting volume tells us who the real evangelical power brokers are, how they rose to prominence, and what they're doing with their clout. Lindsay reveals that evangelicals are now at home in the executive suite and on the studio lot, and from those lofty perches, they have used their influence, money, and ideas to build up the evangelical movement and introduce

it to the wider American society They are leaders of powerful institutions and their goals are ambitious to bring Christian principles to bear on virtually every aspect of American life Along the way the book is packed with fascinating stories and striking insights Lindsay shows how evangelicals became a force in American foreign policy how Fortune 500 companies are becoming faith friendly and how the new generation of the faithful is led by cosmopolitan evangelicals These are well educated men and women who read both The New York Times and Christianity Today and who are wary of the evangelical masses penchant for polarizing rhetoric apocalyptic pot boilers and bad Christian rock Perhaps most startling is the importance of personal relationships between leaders a quiet conversation after Bible study can have more impact than thousands of people marching in the streets Faith in the Halls of Power takes us inside the rarified world of the evangelical elite beyond the hysterical panic and chest thumping pride to give us the real story behind the evangelical ascendancy in America

The Scandal of the Evangelical Conscience Ronald J. Sider, 2005-02-01 Ron Sider asserts that by their daily activity most Christians regularly commit treason With their mouths they claim that Jesus is their Lord but with their actions they demonstrate their allegiance to money sex and personal self fulfillment In this candid and challenging book Sider addresses an embarrassing reality most Christians lives are no different from the lives of their secular neighbors Hedonism materialism racism egotism and many other undesirable traits are commonplace among Christians Rather than simply a book bemoaning the state of American Christianity today The Scandal of the Evangelical Conscience offers readers solutions to repair the disconnect between belief and practice While it s not easy medicine to take this book is a much needed prophetic call to transformed living
