Economic Growth Or Stagnation The Future Of The United States Economy:

Economic growth or stagnation Jules Backman,1978 U.S. Long-term Economic Growth Prospects United States. Congress. Joint Economic Committee,1978 *The Past and Future of America's Economy* Robert D. Atkinson,2004-01-01 Anyone interested in American history as well as the future contours of our economy will find Dr Atkinson s analyses a guide to the past and a provocative challenge for the future Economists business leaders scholars and economic policymakers will find it a necessary addition to the literature on economic cycles and growth economics BOOK JACKET **Hearings, Reports and Prints of the Joint Economic Committee** United States. Congress. Joint Economic Committee,1977 Comparative Economics in a Transforming World Economy, third edition J. Barkley Rosser, Jr.,Marina V. Rosser,2018-01-26 An approach to comparative economic systems that avoids simple dichotomies to examine a wide variety of institutional and systemic arrangements with updated country case studies Comparative economics with its traditional dichotomies of socialism versus capitalism private versus state and planning versus market is changing This innovative textbook offers a new approach to understanding different economic systems that reflects both recent transformations in the world economy and recent changes in the field This new edition examines a wide variety of institutional and systemic arrangements many of which reflect deep roots in countries cultures and histories The book has been updated and revised throughout with new material in both the historical overview and the country case studies It offers a broad survey of economic systems then looks separately at market capitalism Marxism and socialism and new traditional economies with an emphasis on the role of religions Islam in particular in economic systems It presents case studies of advanced capitalist nations including the United States Japan Sweden and Germany alternative paths in the transition from socialist to market economies taken by such countries as Russia the former Soviet republics Poland China and the two Koreas and developing countries including India Iran South Africa Mexico and Brazil The new chapters on Brazil and South Africa complete the book s coverage of all five BRICS nations the chapter on South Africa extends the book s comparative treatment to another continent The chapter on Brazil with its account of the role of the Amazon rain forest as a great carbon sink expands the coverage of global environmental and sustainability issues Each chapter ends with discussion questions *Ebook: Economics* Colander,2016-09-16 Ebook Economics **The Future Of Rural America** Kenneth Pigg,2019-07-09 It has been my pleasure to work with a distinguished committed and cooperative group of contributors to this volume They have taught me how to perform the editing role and put up with innumerable and probably insufferable suggestions I have been privileged to work with exceptionally fine individuals in this endeavor and will count that among my many blessings *A Future Beyond Growth* Haydn Washington,Paul Twomey,2016-04-14 There is a fundamental denial at the centre of why we have an environmental crisis a denial that ignores that endless physical growth on a finite planet is impossible Nature provides the ecosystem services that support our civilisation thus making humanity unavoidably dependent upon it However

society continues to ignore and deny this dependence A Future Beyond Growth explores the reason why the endless growth economy is fundamentally unsustainable and considers ways in which society can move beyond this to a steady state economy The book brings together some of the deepest thinkers from around the world to consider how to advance beyond growth The main themes consider the deep problems of the current system and key aspects of a steady state economy such as population throughput and consumerism ethics and equity and policy for change The policy section and conclusion bring together these various themes and indicates how we can move past the growth economy to a truly sustainable future This volume will be of great interest to students and scholars of economics sustainability and environmental studies in general

The Future of EMU L. Talani,2009-01-15 As European integration continues the future of EMU becomes ever more important Can EMU help create an integrated European community or will it prove a hindrance to the EU project This book brings together the experts in the area to provide an interdisciplinary perspective on the issues expected to face EMU over the next few decades

America's Future: Biden And The Progressives Daniel Quinn Mills,Steven Rosefielde,2022-04-11 This book is about a choice President Biden must make that will determine the future of America His choice is between being a partisan politician or a non partisan statesman However to be a statesman he must contend with the progressive wing of his party Today s progressives have become revolutionaries whose purpose is to remake America by canceling their opponents Biden has a tiger by the tail As in all such situations the problem is how to let go In this book we suggest how Biden can free himself from the danger posed by the progressives and simultaneously benefit America dramatically

Strategies for Managing Uncertainty Alfred A. Marcus,2019-03-28 Explains how energy industry firms have hedged their bets by using paradoxical strategies to cope with the uncertainty around energy prices and climate change

Capitalism: An Unsustainable Future? Malcolm Sawyer,Jonathan Michie,2022-03-30 The four decades of neoliberalism globalisation and financialisation have produced crises financial and pandemic and rising inequality The climate emergency threatens the future of the planet This book explores many dimensions of the background to these crises There is the development of policy agendas to address the climate emergency The rise in inequality is studied in terms of impacts of financialisation and the relationships between growth and inequality The record of the neoliberal experiment in the USA is critically examined The roles of financial institutions including public banks and micro finance are explored as is the need for improved financial oversight in the Economic and Monetary Union The growth of global value chains has been a major aspect of globalisation and the question is examined of whether such chains provide a ladder for development Globalisation has also featured trade imbalances and large capital flows and their causes and effects are examined with respect to China and South Africa respectively This volume will be of great value to students scholars and professionals interested in political economy economic thought climate change sustainability and business studies The chapters in this book were originally published as a special issue of the journal International Review of Applied Economics
