*G.K. Hall Interdisciplinary Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 2003  
*African Books in Print* ,1993     *Employee Relations Bibliography and Abstracts* ,1988     *The African Book Publishing Record* ,2001     **International Journal of Social Sciences** ,2006     **The Routledge Companion to Planning in the Global South** Gautam Bhan, Smita Srinivas, Vanessa Watson, 2017-09-11 The Routledge Companion to Planning in the Global South offers an edited collection on planning in parts of the world which more often than not are unrecognised or unmarked in mainstream planning texts. In doing so its intention is not to fill a gap that leaves this mainstream unquestioned but to re-theorise planning from a deep understanding of place as well as a commitment to recognise the diverse modes of practice that come within it. The chapters thus take the form not of generalised universal analyses and prescriptions but instead are critical and located reflections in thinking about how to plan, act and intervene in highly complex city, regional and national contexts. Chapter authors in this Companion are not all planners or are planners of very different kinds and this diversity ensures a rich variety of insights primarily based on cases to emphasise the complexity of the world in which planning is expected to happen. The book is divided into a framing Introduction followed by five sections: planning and the state, economy and economic actors, new drivers of urban change, landscapes of citizenship and planning pedagogy. This volume will be of interest to all those wanting to explore the complexities of planning practice and the need for new theories of knowledge from which to draw insight to face the challenges of the 21st century.     **Encyclopedia of Criminology** J. Mitchell Miller, Richard A. Wright, 2013-12-17 This three volume work offers a comprehensive review of the pivotal concepts, measures, theories and practices that comprise criminology and criminal justice. No longer just a subtopic of sociology, criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology, political science, behavioral science, law, economics, public health, family studies, social work and many others. The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work. More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource. The pivotal concepts, measures, theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice. While the primary focus of the work is on American criminology and contemporary criminal justice in the United States, extensive global coverage of other nations' justice systems is included and the increasing international nature of crime is explored thoroughly. Providing the most up to date scholarship in addition to the traditional theories on criminology, the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field.     *Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 1997

Bryceson, 1990-07-08 Most studies of famine and the African food crisis stress how the socio economic context influences the occurrence of food shortages By contrast this book argues that food insecurity itself influences the social and economic organization of the society Through this approach the author provides a new interpretation of the causes and consequences of Tanzania s present economic crisis The book examines the effects of changing food availability on the functioning of the state the market and clientage networks over the past seven decades The conclusion is that clientage is no less important than the state and market as an organizational force in Tanzanian society and under heightened food insecurity the state and market lose ground to clientage      *Food Insecurity and the Social Division of Labor in Tanzania, 1919-85* Deborah Fahy Bryceson, 1990 Several aspects of the social division of labour and food insecurity in Tanzania 1919 1985 are studied in this book These range from maize and millet shifting cultivation of woodland and wooded grassland areas to government labour policy and the male migrant bachelor wage labour system      **Economic Management in Tanzania** Dirk Bol, N. E. Luvanga, J. L. Shitundu, 1997 Tanzania s economy is in a policy environment which has changed from one with great public restrictions on the market to a liberalised one with an increasing role for the private sector It is the purpose of this book to analyse the adopted reform policies the success and failures in implementation and give suggestions for improving the management of the following areas and sectors of the economy fiscal monetary export foreign aid agriculture industry education public policy poverty reduction and the civil service sector      **Turbulence and Order in Economic Development** Hazel Gray, 2018-02-08 The terms of debate on the role of institutions in economic development are changing Stable market institutions in particular secure private property rights and democratically accountable governments that uphold the rule of law are widely seen to be a pre requisite for economic transformation in low income countries yet over the last thirty years economic growth and structural transformation has surged forward in a range of countries where market and state institutions have differed these ideals as well as from each other Turbulence and Order in Economic Development studies the role of the state in two such countries examining the interplay between market liberalization institutions and the distribution of power in Tanzania and Vietnam Tanzania and Vietnam were two of the poorest countries in the world in the early 1980s but over the last thirty years both have experienced significant changes in the pace and character of economic development While both countries experienced faster rates of GDP growth their paths of economic transformation were very different as Vietnam experienced rapid poverty reduction associated with the expansion of manufacturing while Tanzania s path of industrialization was characterized by the rise of mining and a much slower pace of poverty reduction Employing a political settlements approach this book considers the comparative role of the state in

driving economic transformation In both countries the experiences of socialism continued to shape the role of the state in the economy even after extensive market liberalization however the distribution of political and economic power was very different This had important consequences for the overlapping role of the state in generating political order and in driving economic transformation Turbulence and Order in Economic Development studies the formal and informal ways that the state influenced economic transformation through its role in public financial management land and industrial policy
