#### **Economic Theories In China 1979 1988:**

Economic Theories in China, 1979-1988 Robert C. Hsu, 1991-10-25 An exploration of the substance and logic of the evolution of economic theories prevalent in China 1979 88 Sources of Chinese Economic Growth, 1978-1996 Chris Bramall, 2000-09-14 This analysis of the political economy of growth in the era of Deng Xiaoping takes issue with the growth accounting methodologies and market centred explanations which characterize so much of the literature on transition era China By adopting an approach which echoes the pioneering work of Chalmers Johnson Alice Amsden and Robert Wade on other East Asian Economies and which makes full use of the rich statistical materials that have become available since 1978 this book shows that Chinese growth was driven by a combination of state led industrial policy and the favourable infrastructural legacies of the Maoist era And in giving due weight to the sheer complexity of the growth process by looking in detail at the experience of four very different Chinese regions it avoids over simplistic macroeconomic generalization Nevertheless even this type of approach is inadequate because it fails to explain why industrial policy has been so much more successful in China than in other countries This book therefore goes beyond the development state approach to argue that state autonomy in China reflected the remarkably equal distribution of income and wealth at the end of the 1970s and paradoxically the destruction of party structures and institutions during the Cultural Revolution The policy implications are stark The Chinese experience demonstrates that industrial policy and state spending on physical and social infrastructure can produce rich rewards conversely slavish reliance on foreign direct investment and trade are likely to limit the pace of growth But attempts to replicate China's success in Latin America sub Saharan Africa and South Asia will fail because their governments will not resist rent seeking by classes and interest groups Moreover as the state becomes weaker in the wake of the re emergence of a powerful capitalist class even Chinese growth may prove unsustainable Idealogy and Economic Reform Under Deng Xiaoping 1978-1993 Wei-Wei Zhang, 2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping s wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms Management in Transitional Economies Vincent Edwards, Gennadij Polonsky, Danijel Pucko, Malcolm Warner, Ying Zhu, 2005-02-25 Based on extensive research this comparative study examines the past present and future of management in the transitional economies of East and Central Europe Russia the People's Republic of China and Vietnam It discusses the nature of the transition process identifying different transition paths highlighting common features and outlining useful theoretical approaches Each chapter covers a wide range of aspects of management in the countries covered including details of the historical and cultural background the transition process and both external and internal factors and the macro and micro situation Its multidisciplinary approach

makes this book suitable for both a practitioner and an academic readership International Investment Perspectives 2002 OECD, 2002-09-23 Thia new annual publication offers broad overviews of recent trends in FDI with analysis of issues of recent interest Ideology and Economic Reform Under Deng Xiaoping, 1978-1993 Wei-Wei Zhang, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao s Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theo rists asserted that Maoism was nothing more than a feudal fascism and had abso lutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leader ship of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperi alism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scien tists economists sociologists and Sinologists The Advance of the State in Contemporary China Sarah Eaton, 2016 Charts the advance of the state in contemporary China through an analysis of state market relations in the <u>Under New Ownership</u> Shahid Yusuf, Kaoru Nabeshima, Dwight Heald Perkins, 2006 Although China's centrally reform era planned economy is a little more than a shadow of its former self the closely inter linked reforms of the enterprise and banking sectors are still incomplete The relative size of the state owned enterprise sector has been much reduced however the sector remains the dominant borrower from the banking system and is responsible for the majority of bank non performing assets Thus in the interests of financial stability it is crucial to implement the remaining reform agenda The accession to the WTO has also made it more urgent for China s most dynamic state owned en **Leadership of Chinese Private Enterprises** Anne S. Tsui, Yingying Zhang, Xiao-Ping Chen, 2017-01-25 This original book presents in depth research into thirteen successful Chinese private enterprises through interviews with their founder entrepreneurs While Chinese economic growth has focused primarily on governmental policies and institutional factors Leadership of Chinese Private Enterprises proposes that the success of these firms was primarily due to the visible hands of these entrepreneurs The

authors present insights into the managerial realities of four separate industries Financial and insurance IT and e commerce construction and real estate and consumer goods Through a critical evaluation of interviews this book identifies the managerial recipe for entrepreneurial success in competitive and inhospitable environments and offers a model of private firm leadership and leadership principles that guide their strategies and relationships Essays in the History of Economics William Henderson, Kirk D. Johnson, Marianne F. Johnson, Warren J. Samuels, 2004-05-20 Under the impressive editorship of Warren Samuels et al this book addresses the state of the history of economic thought today A relevant and important contribution to economics that will develop an unsurprising number of fans **Confucianism and the Chinese Self** Jack Barbalet, 2017-10-05 Setting the context for the upheavals and transformations of contemporary China this text provides a reassessment of Max Weber's celebrated sociology of China Returning to the sources drawn on by Weber in The Religion of China Confucianism and Taoism it offers an informed account of the Chinese institutions discussed and a concise discussion of Weber's writings on the rise of modern capitalism Notably it subjects Weber's argument to critical scrutiny arguing that he drew upon sources which infused the central European imagination of the time constructing a sense of China in Europe whilst European writers were constructing a particular image of imperial China and its Confucian framework Re examining Weber's discussion of the role of the individual in Confucian thought and the subordination in China of the interests of the individual to those of the political community and the ancestral clan this book offers a cutting edge contribution to the continuing debate on Weber's RoC in East Asia today against the background of the rise of modern capitalism in the little dragons of Singapore Taiwan Hong Kong and South Korea and the big dragons of Japan and the People's Republic of China

Populating No Man's Land János Mátyás Kovács,2018-09-15 This edited volume opening the new series Revisiting Communism Collectivist Economic Thought in Historical Perspective focuses on the concepts of ownership the cornerstone of political economy in Soviet type societies The authors main objective is to contribute to the still unwritten chapter on collectivism in the history books of modern economic thought They trace the lengthy evolution of economic ideas of property reform under communism leading from the doctrine of blanket nationalization to projects of moderate privatization in eight countries of Eastern Europe and China The comparative analysis sheds light upon the tireless attempts of reform minded economists in communist countries to populate the no man s land of social property with quasi private economic actors such as bodies of workers self management and managers of state owned companies For a long time these were expected to crowd out the communist nomenklatura from its actual ownership position without challenging the primacy of collective property rights The fact that even the most radical reformers came to the conclusion that such surrogate owners would not be able to break the power of the ruling elite only on the eve of the 1989 revolutions demonstrates the immense strength of collectivist ideas The authors coin the term trap of collectivism to warn those demanding nationalization or other forms of non private ownership today it is rather easy even with the best intentions to walk into this trap but it may take long decades

to break out from it **The Labors of Sisyphus** Joan Roland, 2017-07-05 Almost a half century has passed since the inception of the People's Republic of China In that time a charismatic leader has ruled and died leaving a wake of Destruction in his quest to transform China In that time too the PRC s most powerful ally and mentor the Soviet Union has dismantled and announced that jcmmunism had failed Today China fluctuates between tradition and modernity ideology and pragmatism between an antiquated collectivist ethic and a new spirit rf individualism It is a country precariously suspended between past and future Maria Hsia Chang's The Labors of Sisyphus is a long overdue reassessment of rie meaning and purpose of the Chinese communist revolution In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism She also eyinines China s immediate present and uncertain future If it manages to transform economic growth into development China filled with natural resources and a large capable labor force has the potential to become a world superpower It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform Prior accounts of communist China have failed to capture China's evolving present In all its complexity and variety misrepresenting Maoist China In the process Information shortfall was partly to blame as recently as August 1994 the Chinese government itself decried falsification of statistics by government officials and cadres Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available Maria Hsia Chang lends structure meaning and purpose to the very complex recent political and historical past of communist China With greater access to more accurate information Chang is able to analyze objectively without political motive or intention providing readers with a fresh look at the People's Republic Her pathbreaking work will be of interest to scholars of international economics and politics sinologists **The US vs China** Jude Woodward, 2017-08-10 This book addresses the most important guestion in and historians geopolitics today the future of relations between the US and China Concerned that the rise of China will challenge the its hegemony in world affairs the US has decided to reassert its influence in Asia to counteract any challenge Examining and challenging the dominant causal explanations for and professed intentions of this shift in US policy this book uncovers the real dynamics of contemporary Sino American relations surveying their complex interactions in the context of their post war history offering the reader an accessible and informative survey of the relations between China and the US in Asia ranging from Russia's turn to the east the rise of Japanese nationalism democracy in Myanmar North Korea's nuclear programme to disputes in the South China Sea This book is an illuminating introduction to the defining issue shaping global politics for our time **The Labors of Sisyphus** Maria Hsia Chang, 1999-10-01 Maria Hsia Chang's The Labors of Sisyphus is a reassessment of the meaning and purpose of the Chinese communist revolution In it she discusses the thought of Mao

Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism She also examines China s immediate present and uncertain future If it manages to transform economic growth into development China filled with natural resources and a large capable labor force has the potential to become a world superpower It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform Historical Dictionary of the Chinese Economy Lawrence R. Sullivan, 2017-11-08 The Historical Dictionary of the Chinese Economy covers the world's second largest macro economy Extensive attention throughout the volume is given to the historical development of the Chinese economy since the establishment of the People's Republic of China PRC in 1949 Included is a review of developments during the period of central economic planning adopted from the Soviet Union 1953 1978 and in depth information and analysis on the various policies and fundamental changes brought about in China by the inauguration of economic reforms from 1978 1979 through 2016 This book contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on critical sectors of the economy including automobiles banking and finance national currency economic regulation trade and investment and important industries such as agriculture computers and electronics iron and steel real estate and shipping This book is an excellent resource for students researchers and anyone wanting to know more about China s economy China's Economic Development Dennis Yang, 2014-12-03 This collection of papers is from Palgrave's journal Comparative Economic Studies carefully selected by a team of expert editors this volumes collates the most sophisticated works to provide the readers with an essential guide to the economic development of China Mobilisation in Post-Industrial China Jia Gao, Yuanyuan Su, 2019 In recent years China has experienced intense economic development Previously a rapidly urbanising industrial economy the country has become a post industrial economy with a service sector that accounts for almost half the nation s GDP This transformation has created many socio political changes but key among them is social mobilisation This book provides a full and systematic analysis of social mobilisation in China and how its use as part of state capacity has evolved Handbook of Global Technology Policy Stuart Nagel, 2000-09-28 The Handbook of Global Technology Policy presents and compares nonideological resolutions to environmental pollution and toxic waste urbanization and transportation homelessness health care policies around the world It provides an evaluation of industrial interventions and energy sources explores flow control and corporate growth privatization and liberalization health data networks and electronic innovation and governance Other topics include pharmaceutical policies the state of science and technology in Africa the reemergence of tuberculosis wind energy technology development and diffusion in Inner Mongolia and major problems of policy implementation in India
