The Economic and Financial Situation in Finland European Commission. Directorate-General for Economic and Financial The Great Financial Crisis in Finland and Sweden Lars Jonung, Jaakko Kiander, Pentti Vartia, 2009-01-01 The Nordic financial crisis had it all a botched liberalization a huge boom followed by an even bigger bust massive taxpayer financed bailouts and finally deep long run gains The first class team of scholars mobilized in this book convincingly tell a story that should be carefully studied by economists bankers and policymakers After this book no one should be able to say If we only knew Charles Wyplosz Graduate Institute of International Studies Geneva Switzerland The financial crisis in Scandinavia in the early 1990s was a forerunner of the later world wide crisis in 2007 8 Although the initial causation was different the impact on their banks though more localised was just as severe So we can benefit and already policymakers have done so from learning the lessons in this book on how to restore shattered banking systems to health For this we owe a debt of gratitude to the editors who have put together a series of key papers that emerged from a much larger exercise on the crisis that was earlier reported in four volumes in Swedish and Finnish Amongst the many studies on current and past financial crises this is a classic must read Charles A E Goodhart London School of Economics UK The Nordic experience with financial crisis resolution could not be more timely Everyone cites it as an example of how it should be done but rarely does one find careful and detailed analysis Now policymakers and others searching for guidance will know where to look Barry Eichengreen University of California Berkeley US Following World War II Nordic countries were commonly regarded as successful and stable economies This perception was however shattered in the early 1990s when Finland and Sweden encountered severe financial crises Here the authors explore the symptoms of financial crisis decreasing real income soaring unemployment and exploding public deficits and their devastating effects. The book compares and contrasts the experiences of Finland and Sweden then adopts an international perspective encompassing the experiences of Asia Latin America Denmark and Norway Lessons from the 1990s crisis are drawn and possible solutions prescribed The conclusion is that long term effects of financial crises financial liberalization and integration are not as dramatic as the short term effects but may prove to be of greater importance over time Only the future will show whether these long term benefits will balance or even outweigh the enormous short term costs of the crises Highly relevant to the current international financial crisis currently afflicting the world economy this timely book will prove invaluable to economists and other social scientists with a general interest in financial crises and to those with a more specific interest in the evolution and models of Scandinavian economies

COVID 19 crisis Rapid action to support firms and households contained the economic contraction to one of the mildest in Europe while fast vaccine rollout enabled the removal of shutdown restrictions and an early reopening Intellectual Capital and the Financial Crisis in Denmark, Finland, Iceland, Norway, and Sweden Carol Yeh-Yun Lin, Leif Edvinsson, Jeffrey Chen, Tord Beding, 2013-11-19 In the first decade of the twenty first century the biggest event of worldwide proportion was the 2008 global financial crisis which was caused primarily by ineffective governance failed surveillance systems and implementation flaws While fiscal and monetary policies succeeded in pulling many countries out of a financial freefall most economies have performed beneath pre recession levels as governments continued to struggle with their finances Examining the financial crisis from the viewpoint of intangible assets provides a different perspective from traditional economic approaches National Intellectual Capital NIC comprised mainly of human capital market capital process capital renewal capital and financial capital is a valuable intangible asset and a key source of national competitive advantage in today's knowledge economy. The authors pioneers in the field present extensive data and a rigorous conceptual framework to analyze the connections between the global financial crisis and NIC development Covering the period from 2005 to 2010 across 48 countries the authors establish a positive correlation between NIC and GDP per capita and consider the impact of NIC investment for short term recovery and long term risk control and strategy formulation Each volume in a series of SpringerBriefs on NIC and the financial crisis provides in depth coverage of the impact of the crisis the aftermath future prospects and policy implications for a regional cluster This volume focuses on Denmark Finland Iceland Norway and Sweden

Macroeconomic and financial risk Ageing and wellbeing The Global Financial Crisis and its Budget Impacts in **OECD Nations** John Wanna, Evert A. Lindguist, Jouke de Vries, 2015-09-25 The global financial crisis of 2007 09 constituted the biggest shock to the economies of the OECD nations since the Second World War and caused most of their governments to move into intense crisis mode They made significant adjustments to their fiscal policy regimes including massive interventions to stabilize markets and economies But how they reacted to the crisis and what measures they took to deal with it still underpin their economic and budgetary positions. This singular shock provides the editors and authors of this book with an intriguing opportunity to examine how different OECD budgetary systems performed Chapters cover the EU North America and Asia assessing how governments responded to the challenge and how their budget systems evolved in the The Impact of the Economic Crisis on European Environmental Policy Charlotte Burns, Paul Tobin, Sebastian aftermath Sewerin, 2019 This collection brings together leading environmental policy scholars to analyse whether the economic crisis has affected EU environmental policy ambition in Europe The Economic Review ,1920 The Oxford Handbook of Danish Politics Peter Munk Christiansen, Jørgen Elklit, Peter Nedergaard, 2020-06-26 The Oxford Handbook of Danish Politics provides the most comprehensive and thorough English language book on Danish politics ever written It features chapters by 50 leading experts who have contributed extensively to the field they write about Why is Denmark an interesting topic for a Handbook In some respects Danish political institutions and political life are very similar to that of other small North European countries such as the other Scandinavian countries and Netherland However in other respects Danish politics is interesting in its own right For instance Denmark has a world record in minority governments According to standard scholarly knowledge this should result in unstable governments and a bad economy This is not the case however since Denmark has a rather stable political system and a strong and robust economy among the strongest in Europe How The Danes have continued reservations towards the EU despite close to 50 years of EC EU membership and the Danes rejected the Maastricht Treaty in 1992 Still the EU issue is handled in ways that do not call for large political battles How A third example is that Denmark used to be known as a tolerant and liberal society its Jews were almost all saved during German occupation during WWII Denmark was the first country to free pornography and the first country to formally register same sex couples Yet recent Danish politics has also been associated with xenophobia and anti Muslim sentiments Why **Expectations, Slow Transformations** Manuela Moschella, Eleni Tsingou, 2013-07-01 In the aftermath of the financial crisis why have reforms been incremental despite the fact that conditions for rapid transformation appeared to be available Is there anything specific about financial policy that prevents more radical reforms Drawing from comparative politics and historical institutionalism in particular as well as international political economy this book answers these questions by examining the particular institutional frictions which characterise global financial governance and which influence the activity of change agents and veto players involved in global regulatory change Chapters demonstrate that the process of

change in financial rule making as well as in the institutions governing finance do not fit with the punctuated model of policy change They also show however that incremental changes can lead to fundamental shifts in the basic principles that inform global financial governance The Political Economy of Public Finance Marc Buggeln, Martin Daunton, Alexander Nützenadel, 2017-02-23 This volume examines the major trends in public finance in developed capitalist countries since the oil crisis of 1973 That year s oil shock quickly became an economic crisis putting an end to a period of very high growth rates and an era of easy finance Tax protests and growing welfare costs often led to rising debt levels The change to floating exchange rates put more power in the hand of markets which corresponded with a growing influence of neo liberal thinking These developments placed state finances under considerable pressure and leading scholars here examine how the wealthiest OECD countries responded to these challenges and the consequences for the distribution of wealth between the rich and the poor As the case studies here make clear there was no simple race to the bottom in taxation and welfare spending different countries opted for different solutions that reflected their political and economic structures European Populism in the Shadow of the Great Recession Hanspeter Kriesi, Takis S Pappas, 2024-08-22 This volume covering twenty five populist parties in seventeen European states presents the first comparative study of the impact of the Great Recession on populism Based on a common analytical framework chapters offer a highly differentiated view of how the interplay between economic and political crises helped produce patterns of populist development across Europe Populism grew strongly in Southern and Central Eastern Europe particularly where an economic crisis developed in tandem with a political one Nordic populism went also on the rise but this region s populist parties have been surprisingly responsible In Western Europe populism actually contracted during the crisis with the exception of France As for the two Anglo Celtic countries while the UK has experienced the rise of a strong anti European populist force Ireland stands out as a rare case in which no such a party has risen in spite of the severity of its economic and political crises Danish Foreign Policy Yearbook 2010 OECD Economic Surveys: Denmark 2012 OECD, 2012-01-26 OECD 2012 Economic Survey of Hans Mouritzen, 2010 Denmark examines recent economic developments policies and prospects and looks in particular at consolidating public finances and improving energy and climate change policies
