Handbook on the Economics and Theory of the Firm Michael Dietrich, Jackie Krafft, 2012-01-01 This unique Handbook explores both the economics of the firm and the theory of the firm two areas which are traditionally treated separately in the literature On the one hand the former refers to the structure organization and boundaries of the firm while the latter is devoted to the analysis of behaviours and strategies in particular market contexts the novel concept underpinning this authoritative volume is that these two areas closely interact and that a framework must be articulated in order to illustrate how linkages can be created This interpretative framework is comprehensively developed in the editors introduction and the expert contributors more than fifty academics of renowned authority further elaborate on the linkages in the seven comprehensive sections that follow encompassing background equilibrium and new institutional theories the multinational firm dynamic approaches to the firm modern issues firms strategies and economic policy and the firm Bridging economics and theory of the firm and providing both technical and institutional perspectives on real corporations this path breaking Handbook will prove an invaluable resource for academics researchers and students in the fields of economics heterodox economics business and management and industrial organization **The Economics of Regulation** Charles F.

Phillips, 1972 The Economics of Government Regulation Wang Junhao, 2021-07-06 Regulation is a public policy approach closely related to calculations of the equilibrium of supply and demand and to cost benefit analyses Governments combine a variety of incentives and restrictions on behavior including laws and regulations in order to guide enterprises and smaller entities within the economy toward pursuing policies in the public interest This book offers an in depth and systematic review of the economic theory of regulation with particular emphasis on the Chinese context The basic concepts cover economic and social regulation regulatory process regulation under asymmetric information and capture theory Drawing on a broad range

of cases from across the telecommunications electric power and water sectors since the founding of the People's Republic of China in 1949 the author explores economic regulation in China with reference to natural monopoly investment price level and price structure entry and competition In addition he discusses theories of externalities and asymmetric information which are analyzed in the light of China's environmental and product quality regulation The author argues that the Chinese government has deregulated its economy to a large extent in the past and proposes that the Chinese government will enforce more social regulation in the future Students and scholars of government regulation economics and industrial organization will find this volume to be an essential guide

Handbook on the Economic Complexity of Technological Change Cristiano Antonelli, 2011-01-01 This comprehensive and innovative Handbook applies the tools of the economics of complexity to analyse the causes and effects of technological and structural change It grafts the intuitions of the economics of complexity into the tradition of analysis based upon the Schumpeterian and Marshallian legacies The Handbook elaborates the notion of innovation as an emerging property of the organized complexity of an economic system and provides the basic tools to understand the recursive dynamics between the emergence of innovation and the unfolding of organized complexity

In so doing it highlights the role of organizational thinking in explaining the introduction of innovations and the dynamics of structural change With a new methodological approach to the economics of technological change this wide ranging volume will become the standard reference for postgraduates academics and practitioners in the fields of evolutionary economics complexity economics and the economics of innovation

Colloquium on Regulatory Design in Theory and Practice: 1983-1984, 1983 A History of Economic Theory and Method Robert B. Ekelund, Jr., Robert F. Hébert, 2013-08-30 Known for its clarity comprehensiveness and balance the latest edition of A History of Economic Theory and Method continues that tradition of excellence Ekelund and Hébert's survey provides historical and international contexts for how economic models have served social needs throughout the centuries beginning with the ancient Greeks through the present time The authors not only trace ideas that have persisted but skillfully demonstrate that past discredited ideas also have a way of spawning critical thinking and encouraging new directions in economic analysis Coverage that distinguishes the Sixth Edition from its predecessors includes a detailed analysis of economic solutions by John Stuart Mill and Edwin Chadwick to problems raised by the Industrial Revolution the role of psychology and experiments in understanding demand and consumer behavior discussions of modern economic theory as it interrelates with other social sciences and a close look at the historical development of the critical role of entrepreneurship both in its productive and unproductive variants The authors creative approach gives readers a feel for the thought processes of the great minds in economics and underscores key ideas impacting contemporary thought and practice Well crafted discussions are further enriched by absorbing examples and figures Thorough suggested reading lists give options for more in depth explorations by interested readers

Foundations for a Low-Carbon Energy System in China Henry Lee, Daniel P. Schrag, Matthew Bunn, Michael Davidson, Wei Peng, Wang Pu, Mao Zhimin, 2021-12-09 Climate change is a key problem of the 21st century China as the largest emitter of greenhouse gases has committed to stabilize its current emissions and dramatically increase the share of electricity production from non fossil fuels by 2030 However this is only a first step in the longer term China needs to aggressively strive to reach a goal of zero emissions Through detailed discussions of electricity pricing electric vehicle policies nuclear energy policies and renewable energy policies this book reviews how near term climate and energy policies can affect long term decarbonization pathways beyond 2030 building the foundations for decarbonization in advance of its realization Focusing primarily on the electricity sector in China the main battleground for decarbonization over the next century it provides a valuable resource for researchers and policymakers as well as energy and climate experts

Understanding Regulation Robert Baldwin, Martin Cave, Martin Lodge, 2012 An introduction to the practical and theoretical issues that are central to the study of regulation which a particular focus on contested areas and how they are dealt with Research Handbook on Privatisation Graeme A. Hodge, Carsten Greve, Eoin Reeves, 2025-06-09 Graeme A Hodge Carsten Greve and Eoin Reeves bring together expert authors to explore 50 years of research and analysis in the complex field of privatisation The Research Handbook highlights

current issues and challenges in privatisation through relevant contemporary examples to further our understanding of this economic concept and how it is shaping global policies **Reconstructing Urban Regime Theory** Mickey Lauria, 1997

Providing a robust conceptual framework urban regime theory has despite its cited shortcomings gained a dominant position in the literature on local politics in addition to its recent use in contexts outside the United States and in comparative cross national research Reconstructing Urban Regime Theory presents a challenging argument for the need to reconceptualize urban regime s middle level abstractions by interpreting it through the higher level abstractions of regulationist theory The contributors propose stronger conceptual linkages between local agents and institutions regime transformation and the restructuring of urban space The blend of empirical and case study provides an excellent mix of theory and practice
