**Ecopreneuring** John Ivanko, Lisa Kivistik, 2009-03-01. How to grow your own green business from the ground up. *Social and Sustainable Entrepreneurship* G. Thomas Lumpkin, Jerome A. Katz, 2011-07-25. Considers the issues of social and sustainable entrepreneurship. This title tackles lingering definitional issues such as the distinctions between social, sustainable and environmental entrepreneurship or proposes social entrepreneurship research agendas based on key research questions found in prior studies. **Hybrid Organizations** Brewster Boyd, Nina Henning, Emily Reyna, Daniel Wang, Matthew Welch, Andrew J. Hoffman, 2017-09-08. This book offers a glimpse into the future. The companies it describes are pioneers, the first movers in market shifts that will eventually become mainstream. These hybrid organizations or what others call values driven or mission driven organizations operate in the blurry space between the for-profit and non-profit worlds. They are redefining their supply chains, their sources of capital, their very purpose for being and in the process they are changing the market for others. Using a combination of high-level survey analysis and more importantly in-depth executive interviews, the book helps fill the present gap in literature on environmentally focused and financially driven for-profit businesses. Moreover, it highlights key trends and critical themes that enable this new wave of socially conscious and fiscally minded enterprises to be successful in meeting both sets of goals. The takeaway for readers of this book is not only an appreciation for common business practices that hybrid organizations adopt but also an understanding of the complexity of the integration of such adoption that allows them to successfully achieve both mission and market-driven goals. The book begins with key definitions to establish the scope of this new sector, including explicit definitions for hybrid organizations, environmental sustainability missions as well as specific criteria to create useful boundaries for the field of hybrid

organizations Building on prior work conducted by researchers on corporate social responsibility sustainable entrepreneurship and social enterprise the book catalogues the best practices within this growing sector helping others to learn from both the successes and failures of those that are choosing this strategy The core of the book is built on an analysis of survey data from 47 hybrid organizations investigating their business models and strategies finances organizational structures processes metrics and innovations The organizations represent a cross section of size age industry and geography although the sample set is biased towards young small U S based hybrids Based on analysis of the survey data five best in class companies were selected for in depth case studies in order to provide instructive lessons for hybrid practitioners and researchers alike In short this book presents research that shows hybrid organizations to be a practical and feasible organizational model for contributing solutions to global environmental issues The lessons in this book will help other social entrepreneurs business managers non profit leaders or students interested in careers that fuse profitability and responsibility do it even better

**ECIE 2016 11th**

**European Conference on Innovation and Entrepreneurship** Minna Tunkkari Eskelinen, Iris Aaltio, 2016      Sustainable Innovation and Entrepreneurship Rolf Wüstenhagen, 2008-01-01

When I received the review copy I was rather excited the book as a collection of research papers that in themselves are very interesting and provide a fast track into the literature of the subject in question it is a worthwhile purchase to support thinking on entrepreneurship and innovation in a world where the sustainability agenda is increasingly becoming the agenda for inventors entrepreneurs and those who fund them or invest in their companies All the papers are well written and scholarly A particularly strong feature of the chapters is the range of sources quoted at the end of each chapter These references provide pathways into many different literatures that might save much time for subsequent researchers Lorraine Warren International Journal of Entrepreneurial Behaviour and Research In recent years our understanding of corporate sustainability has moved from exploitation to exploration from corporate environmental management to sustainable entrepreneurship and from efficiency to innovation Yet current trends indicate the need for radical innovation via entrepreneurial start ups or new ventures within existing corporations despite difficulties with the financing and marketing of such efforts Presenting both conceptual and empirical research this fascinating book addresses how we can combine environmental and social sustainability with economic sustainability in order to produce innovative new business models The international cast of contributors addresses the wide range of issues in the balance between growth and environmental concerns The first five chapters discuss various aspects of sustainable entrepreneurship This is followed by two chapters that look at innovation within existing firms Innovation is not successful until it finds a customer so the two chapters that follow delve into the marketing aspects of business to consumer and business to business settings The book closes with a broad discussion of the evolution and future of the research agenda into the intersection of sustainability innovation and entrepreneurship Academics students business professionals and NGOs will find this volume enlightening and useful

**Frugal Innovation and Innovative Creation** Paul Bouvier-Patron, 2023-10-03 Businesses and enterprises can no longer avoid the concern of their Natural Environmental impact which calls into question their economic activities Frugal Innovation and Innovative Creation is at the crossroads of economics and management in business particularly focused on innovative enterprises and their interactions with the Natural Environment Navigating these interactions can be perceived by companies as a costly constraint especially in an innovation process which is already very expensive The aim of this book is therefore to highlight the need for a satisfactory technology level while innovating without risking damage to the Natural Environment The challenge here is to propose a form of frugal innovation that is likely to be successful while also mindful of the environmental considerations from the outset hence the concept of environmental frugal innovation Furthermore by questioning the practice of innovative creation especially if it integrates the ideas of respect for and preservation of the Natural Environment this book reveals the importance of two key elements that are present regardless of the modality the level of technology and organization improvisation and bricolage

**Tourism Enterprises**

**and the Sustainability Agenda across Europe** David Leslie, 2016-02-24 With the emphasis on small enterprises this book provides a comprehensive analysis of what is happening across Europe in terms of sustainable development objectives and sustainability in the context of tourism supply. Each contribution in this edited collection addresses specific aspects of tourism enterprise activity within the overall context of policy and practice aimed at improving environmental performance. A series of broader issues are examined such as EU environmental policy and initiatives as they relate to tourism social issues such as equity and employment and transport followed by detailed examples of specific case studies. Well informed and based on current research this book is informative and invaluable to any one studying tourism and hospitality today particularly those involved directly or indirectly in the fields of policy planning and development. *Entrepreneurial Imagination* Bjorn

Bjerke, Hans Ramo, 2011-01-01 *Entrepreneurial Imagination* innovatively focuses on entrepreneurial and economic action in time, timing, space and place. Schedules and places of production, working times and working places are no longer fixed due to the effects of the contemporary economy. The authors expertly bring together a focused and themed book that deals wholly with the subjects of time and space in a phenomenological understanding of entrepreneurial ventures and related business action. They discuss theories and thinking of human action, space, place, timing and time in various entrepreneurial and business arenas including social entrepreneurship, environmental and corporate social responsibility, network forms of entrepreneurship, urban governance and regional development. Taking a phenomenological approach to enable readers to understand entrepreneurship and related economic action clearly will prove to be inspiring for students, academics and practitioners interested in all areas of entrepreneurship and similar issues. **Entrepreneurship and Green Finance**

**Practices** Syed Ali Raza, Muhammad Nawaz Tunio, Muhammad Ali, Chin-Hong Puah, 2023-12-14 *Entrepreneurship and Green Finance Practices* focuses on critical issues such as the role of Green Financing in Green Entrepreneurship in Asian Countries and looks for the mechanisms that can help in idea generation and the launching of successful Green Start ups.

*The Necessary Transition* Malcolm McIntosh, 2017-09-08 Life on Earth for humanity and our ecosystems is at a point of great change. There is much to be learnt about previous great disruptions. The key words are adaptation and transformation. Most international companies operate across multiple social and environmental geographies so they know this intellectual and practical landscape. And for many governments the challenges of social and environmental justice are also paramount, not least because equitable societies are best for business and best for human well-being. *The Necessary Transition* addresses the many transitions taking place around the world from high to low carbon economies from gross inequality to egalitarianism from massive human rights abuses to socially just societies and from high corruption to societies with high social cohesion and integrity. The book brings together leading international researchers and practitioners to share their knowledge and expertise and offers answers to many of the pressing questions that must be addressed in the journey towards a sustainable enterprise economy, an absolutely necessary transition for humanity. Contributors include Sara Parkin, Founder, Director and

Trustee of the UK's Forum for the Future Bill Champion Managing Director Rio Tinto Coal Australia and Mark Swilling co author of Just Transitions and Academic Director of the Sustainability Institute South Africa The key question is Is a transition to a sustainable future possible within the logic of conventional capitalism and 20th century models of development This book provides radical perspectives from varying entry points and is essential reading for academics and practitioners interested in how we plan speed and scale such necessary transitions
