Ecotourism In Appalachia Marketing The Mountains:

Ecotourism in Appalachia Al Fritsch, Kristin Johannsen, 2021-03-17 Tourism is the world's largest industry and ecotourism is rapidly emerging as its fastest growing segment. As interest in nature travel increases, so does concern for conservation of the environment and the well-being of local peoples and cultures. Appalachia seems an ideal destination for ecotourists with its rugged mountains, uniquely diverse forests, wild rivers, and lively arts culture. And ecotourism promises much for the region: protecting the environment while bringing income to disadvantaged communities. But can these promises be kept? **Ecotourism in Appalachia** examines both the potential and the threats that tourism holds for Central Appalachia. The authors draw lessons from destinations that have suffered from the tourist trap syndrome, including Nepal and Hawaii. They conclude that only carefully regulated and locally controlled tourism can play a positive role in Appalachia's economic development.

It is also the first book to apply appropriate technology or the most basic technology that can effectively achieve the desired result to this specific region. Authors Al Fritsch and Paul Gallimore have performed over 200 environmental resource assessments in thirty-three states. They bring this knowledge to bear as they examine thirty low-cost, people-friendly and environmentally benign appropriate technologies that can be put to work today in Appalachia. They discuss such issues as renewable energy and energy conservation, food preservation and gardening, forest management, land use, transportation, water conservation, proper waste disposal, and wildlife protection. They pay close attention to the practicality of each technique according to affordability, ease of use, and ecological soundness. Their subjects range from solar home heating to greenhouses, from aquaculture to compost toilets, from organic gardening to wildlife restoration and enhancement, and from solar cars to microhydropower facilities. Their discussions of each topic benefit from the knowledge gained from thirty years of practical experience at environmental demonstration centers and public interest and educational organizations. Each section of the book includes details on construction and maintenance as well as resources for locating further information, making this an essential volume for everyone who cares about the future of

Choice ,2004 *Creating the Land of the Sky* Richard D. Starnes, 2010-03-12 A sophisticated inquiry into tourism s social and economic power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region s New South industry After 1865 the development of railroads and the burgeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was further bolstered by partnerships between state and federal agencies local boosters and outside developers to create the attractions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes s study provides a better understanding of the significant role that tourism played in shaping communities across the South
