Electronic Highways For World Trade Issues In Telecommunication And Data Services:

Electronic Highways For World Trade Peter Robinson, 2019-04-11 This book explains the negotiations on an international framework for trade in services undertaken in the Group of Negotiations on Services of the Uruguay Round and the international discussions on transborder data flows and telecommunication regulation in a number of international fora

Transnational Corporations in Services Karl P. Sauvant, Padma Mallampally, 1993 The Global Issues of Information Technology Management Shailendra Palvia, Prashant Palvia, Ronald Zigli, 1992-01-01 With the political and social changes taking place in Eastern Europe combined with the changes in Western European markets and Japanese global marketing strategies American corporations now can utilize information technology as the ultimate weapon in reshaping expanding their global marketing strategies Today global information technology is not just a set of tools for computing but rather is viewed as a strategic tool to bring organizations growth and prosperity The Global Issues of Information Technology Management is the right source for discovering untapped potential of your information technology It is a global tool for the growth and prosperity of your organization *Managing Internet-driven Change in International Telecommunications* Rob Frieden, 2001 This unique new resource offers you a detailed road map for tracking developments and trends in both international telecommunications and Internet mediated communications Useful to novices and higher level professionals alike the book explores the impact of the Internet on international telecommunications and gives you a clear definition of technological and marketplace convergence By providing answers and perspective for both telecommunications and information technology professionals the book bridges the gap between these two disciplines making it easier to respond to and profit from change occasioned by the Internet **The Global Political Economy of Communication** Edward A. Comor, 1996-09-18 This collection examines the theoretical analytical and political implications of global developments involving telecommunications and related technologies The book s contributors from fields such as economics political science and communication studies relate research on the political economy of communication with the work of international political economy scholars The book stimulates cross disciplinary debates among readers in these and other areas in order to first critically evaluate recent global developments involving communications and second to encourage the development of a more holistic and inclusive approach to these and related issues *The Telecommunications Revolution* Harvey M. Sapolsky, Rhonda J Crane, W Russell Neuman, Eli M Noam, 2018-04-09 Originally published in 1992 this book charts the global restructuring of telecommunications industries away from the monopoly structures of the past towards increased competition deregulation and privatization The book s authors are international policy makers and scholars who examine the regulatory environment within a theoretical and historical context The book looks at the roots of regulatory and legislative changes by discussing individually the countries at the forefront of the revolution the UK France Germany Japan and the United States It examines the impact of new technology for consequences of change in trade and government policies *The Regulation of*

Services and Intellectual Property Bryan C. Mercurio, 2017-07-05 International rules on trade in services and intellectual property are new additions to the multilateral trading system but both have played an important role in the system since their entry. Accompanied by a detailed introduction, this volume contains essays which cover not only the law and jurisprudence of these topics but also the underlying economics and politics behind their incorporation into the multilateral system and continued prominence. The volume provides readers with a comprehensive overview of the development of these controversial and increasingly important areas of international trade law.

Globalization, Liberalization and Policy Change S. McDowell, 1997-01-21 After the introduction of a new economic policy in 1991, India is increasingly portrayed as a big emerging market for consumer goods and for broadcasting and communications services. Policies for telecommunications, computer software and television broadcasting in India have also shifted fundamentally. The book considers communications policies in light of the role of communications in social and economic development and global patterns of trade and investment in communications and services.

Communication, Commerce and Power Edward A. Comor, 2016-01-06 In this history of US based direct broadcast satellite developments, the United States and other nation states are shown to be the ultimate arbiters of their ongoing histories. In making this now unfashionable argument, Edward A. Comor directly challenges recent academic work that tends to privilege global processes over national and argues that the contemporary world order is being shaped primarily by transnational rather than nation state based forces. In testing this orientation with empirical research on US foreign communication policy since 1960, *Communication, Commerce and Power* compels academics and policy makers to rethink commonplace assumptions about the characteristics and potentials of the contemporary and future international political economy.

Building Confidence United Nations Conference on Trade and Development, 2000 Draws on reports of expert meetings and workshops in 1998 and 1999 which focused on exchanges of experiences among enterprises using electronic commerce, technical and legal aspects and economic implications of electronic commerce. Includes selected examples of e-commerce activities in developing commerce.
