*Elements of Architecture* Pierre von Meiss,2013-10-08 This internationally significant book analyzes architectural elements drawing general principles from the prevailing pluralism of architectural approaches Von Meiss expertly bridges the gap between history and contemporary work by pinpointing the constant factors that exist in all architecture A comprehensive analysis of the whole architectural phenomenon this valuable book will prove especially useful to modern practitioners who need to make constant reference to buildings of the past Staying away from the ineffectual arguments on styles that dominate today s architectural literature this is the first recent book to attempt such a synthesis of architectural history and contemporary work As such it is unique

**The Art of Architecture: A Poem in Imitation of Horace's Art of Poetry** John Gwynn,2021-04-25 In *The Art of Architecture A Poem in Imitation of Horace s Art of Poetry* John Gwynn crafts a rich tapestry of verse that explores the nuanced interplay between architecture and art Employing a classical poetic style reminiscent of Horace Gwynn meticulously weaves together themes of creativity the principles of design and the moral responsibilities of the architect The poem serves as both a didactic guide and a reflection on the philosophical underpinnings that shape the built environment making it a significant contribution to neo classical literature of the 18th century John Gwynn an influential figure in the English neoclassical movement was deeply educated in classical literature and architecture which informed his vision as a poet and architect His immersion in the principles of beauty proportion and harmony led him to delve into how these elements relate to human experience Growing up amid the evolving architectural styles of his time Gwynn felt a profound connection to the aesthetic and ethical dimensions of building seeking to convey this in his literary work This scholarly exploration is highly recommended for readers interested in the intersection of literature and architecture as well as those who appreciate the classical tradition Gwynn s eloquent verses provide not only an artistic celebration but also a foundational understanding of architectural principles that resonate to this day

**Merleau-Ponty and the Art of Perception** Duane H. Davis,William S. Hamrick,2016-03-01 This collection of essays brings together diverse but interrelated perspectives on art and perception based on the philosophy of Maurice Merleau Ponty Although Merleau Ponty focused almost exclusively on painting in his writings on aesthetics this collection also considers poetry literary works theater and relationships between art and science In addition to philosophers the contributors include a painter a photographer a musicologist and an architect This widened scope offers important philosophical benefits testing and providing evidence for the empirical applicability of Merleau Ponty s aesthetic writings The central argument is that for Merleau Ponty the account of perception is also an account of art and vice versa In the philosopher s writings art and perception thus intertwine necessarily rather than contingently such that they can only be distinguished by abstraction As a result his account of perception and his account of art are organic interdependent and dynamic The contributors examine various aspects of this intertwining across different artistic media each ingeniously revealing an original perspective on this intertwining

and philosophical difficulties of different theories as well as their potential and limitations in past and present usage Among the provocative issues discussed in terms of their relationship to architecture are chaos theory feminism service to the community and the use of metaphor Johnson points out with stunning clarity the intentions as well as the contradictions and inconsistencies of all notions and concepts All architects and designers as well as students and teachers in these disciplines will gain many insights about architectural thought in this groundbreaking text
