Freedom City:

Freedom City Philip Becnel, 2017-12-13 FREEDOM CITY hilariously ridicules the current kakistocracy government run by the worst people in a gripping satire that pays homage to The Monkey Wrench Gang After President Trump unceremoniously dies from natural causes four misfits from Washington D C who call themselves the Fearless Vampire Killers sever the heads of Confederate statues and wage a comedic guerrilla war on post Trump America When President Pence enlists droves of fascist volunteers to crush the alt left uprising the rebels must risk their lives to run the fascists out of D C What follows is not only a battle for survival but a desperate search for remnants of what once made America great *Freedom North J. Theoharis, K. Woodard, 2016-03-05* The civil rights movement occupies a prominent place in popular thinking and scholarly work on post 1945 U S history Yet the dominant narrative of the movement remains that of a nonviolent movement born in the South during the 1950s that emerged triumphant in the early 1960s only to be derailed by the twin forces of Black Power and white backlash when it sought to move outside the South after 1965 African American protest and political movements outside the South appear as ancillary and subsequent to the real movement in the South despite the fact that black activism existed in the North Midwest and West in the 1940s and persisted well into the 1970s This book brings together new scholarship on black social movements outside the South to rethink the civil rights narrative and the place of race in recent history Each chapter focuses on a different location and movement outside the South revealing distinctive forms of U S racism according to place and the varieties of tactics and ideologies that community members used to attack these inequalities to show that the civil rights movement was indeed a national movement for racial justice and liberation

Bloody Lowndes Hasan Kwame Jeffries, 2009-07-01 Bloody Lowndes is the true story of the people of rural Lowndes County Alabama who organized a radical experiment in democratic politics in 1966 Winner of the 2010 Clinton Jackson Coley Award for the Best Book on local history from the Alabama Historical Association Early in 1966 African Americans in Lowndes County Alabama aided by activists from the Student Non Violent Coordinating Committee SNCC established an all black independent political party called the Lowndes County Freedom Organization LCFO The group whose ballot symbol was a snarling black panther was formed in part to protest the barriers to black enfranchisement that had for decades kept every single African American of voting age off the county s registration books Even after the passage of the Voting Rights Act most African Americans in this overwhelmingly black county feared violent retaliation from whites if they dared register Amid this intimidating environment the LCFO s experiment in democratic politics inspired black people throughout the country to fight for civil and human rights in new and more radical ways from SNCC organizer Stokely Carmichael who used the county s program as the blueprint for Black Power to California activists Bobby Seale and Huey P Newton who adopted the panther as the namesake for their new grassroots organization the Black Panther Party for Self Defense which became the national organization of black militancy in the 1960s and 1970s Drawing on an impressive array of sources ranging from

government documents to personal interviews with Lowndes County residents and SNCC activists history professor Hasan Kwame Jeffries reveals the remarkable full story of the Lowndes County freedom struggle and its contribution to the larger civil rights movement

Student Activism and Civil Rights in Mississippi James P. Marshall, 2013-03-11 In 1960 Mississippi society still drew a sharp line between its African American and white communities In the 1890s the state had created a repressive racial system that ensured white supremacy by legally segregating black residents and removing their basic citizenship and voting rights Over the ensuing decades white residents suppressed African Americans who dared challenge that system with an array of violence terror and murder In 1960 students supporting civil rights moved into Mississippi and challenged this repressive racial order by encouraging African Americans to reassert the rights guaranteed them under the Fourteenth and Fifteenth Amendments to the United States Constitution The ensuing social upheaval changed the state forever In *Student Activism and Civil Rights in Mississippi* James P Marshall a former civil rights activist tells the complete story of the quest for civil rights in Mississippi Using a voluminous array of sources as well as his own memories Marshall weaves together an astonishing account of student protestors and local activists who risked their lives for equality standing between southern resistance and federal inaction Their efforts and the horrific violence inflicted on them helped push many non southerners and the federal government into action culminating in the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act measures that destroyed legalized segregation and disfranchisement Ultimately Marshall contends student activism in Mississippi helped forge a consensus by reminding the American public of its forgotten promises and by educating the nation that African Americans in the South deserved to live as free and equal citizens **Divine Agitators** Mark

Newman, 2011-03-15 The National Council of Churches established the Delta Ministry in 1964 to further the cause of civil rights in Mississippi the southern state with the largest black population proportionately and with the stiffest level of white resistance At its height the Ministry which was headquartered in Greenville had the largest field staff of any civil rights organization in the South Active through the mid 1970s the Ministry outlasted SNCC CORE and the SCLC in Mississippi helping to fill the vacuums when these organizations fell apart or refocused their energies In this first book length study of the Delta Ministry Mark Newman tells how the organization conducted literacy citizenship and vocational training He documents the Ministry s role in fostering the growth of Head Start and community based health care and in widening the distribution of free surplus federal food and food stamps Newman discusses among other Ministry successes the Delta Foundation which created jobs by channeling grant money to small businesses that could not secure bank loans At the same time he details the Ministry s problems from its chronic underfunding to its uneasy relationship with the Mississippi NAACP

which pursued civil rights objectives through less confrontational methods Newman examines the Freedomcrafts manufacturing cooperative and other ministry failures as well as mixed efforts such as Freedom City a collective agricultural and manufacturing community built by displaced agricultural workers Divine Agitators looks at many inadequately studied events across a time span that extends beyond the widely accepted end dates of the civil rights movement It offers new insights at the most local levels of the movement into conflict within and between civil rights groups the increasing subtlety of white resistance the disengagement of the federal government and the rise of Black Power

Church People in the Struggle James F. Findlay, 1993 In the 1960s the mainstream Protestant churches responded to an urgent need by becoming deeply involved with the national black community in its struggle for racial justice The National Council of Churches NCC as the principal ecumenical organization of the national Protestant religious establishment initiated an active new role by establishing a Commission on Religion and Race in 1963 Focusing primarily on the efforts of the NCC this is the first study by an historian to examine the relationship of the predominantly white mainstream Protestant Churches to the Civil Rights movement Drawing on hitherto little used and unknown archival resources and extensive interviews with participants Findlay documents the churches committed involvement in the March on Washington in 1963 the massive lobbying effort to secure passage of the Civil Rights Act of 1964 their powerful support of the struggle to end legal segregation in Mississippi and their efforts to respond to the Black Manifesto and the rise of black militancy before and during 1969 Findlay chronicles initial successes then growing frustration as the events of the 1960s unfolded and the national liberal coalition of which the churches were a part disintegrated While never losing sight of the central indispensable role of the African American community Findlay's study for the first time makes clear the highly significant contribution made by liberal religious groups in the turbulent exciting moving and historic decade of the 1960s

Dreaming the Present Irvin J. Hunt, 2022-02-22 This is a story of art and movement building at the limits of imagination In their darkest hours W E B Du Bois Ella Baker George Schuyler and Fannie Lou Hamer gathered hundreds across the United States and beyond to build vast but forgotten networks of mutual aid farms shops schools banks daycares homes health clinics and burial grounds They called these spaces cooperatives local challenges to global capital where people pooled all they had to meet their needs By reading their activism as an artistic practice Irvin Hunt argues that their primary need was to free their movement from the logic of progress From a remarkably diverse archive Hunt extrapolates three new ways to describe the time of a movement a continual beginning a deliberate falling apart and a simultaneity a kind of all at once ness These temporalities reflect how a people maneuvered the law reappropriated property built autonomous communities and fundamentally reimaged what a movement can be Their movement was not the dream of a brighter day it was the making of today out of the stuff of dreams Hunt offers both an original account of Black mutual aid and in a world of diminishing futures a moving meditation on the possibilities of the present
