## **Freedom From Fear To There:**

Freedom from Fear Alan S. Kahan, 2023-08-22 A new history of liberalism which argues that liberalism has been predicated on definite morality and should be viewed as an attempt to encompass both fear and hope Liberalism argues Alan Kahan is the search for a society in which people need not be afraid Freedom from fear is the most basic freedom If we are afraid we are not free These insights found in Montesquieu and Judith Shklar are the foundation of liberalism What liberals fear has changed over time revolution reaction totalitarianism religious fanaticism poverty and now populism but the great majority of liberal thinkers have relied on three pillars to ward off their fears and to limit the concentrated power that causes fear freedom markets and morals or to put it another way politics economics and religion or morality Most liberal thinkers emphasize one or two pillars more than another but it is typical of liberalism down to the Second World War to rely on all three although there were always minority voices who preferred to stand on only one leg After WWII thin procedural market liberals who wanted to strip any moral or religious basis or purpose from liberalism dominated thick liberal moralists who thought liberalism needed a moral basis and or goal It is the political contention of this book that liberalism is most convincing as program language and social analysis when it relies on all three pillars and that the relative weakness of liberalism at the end of the twentieth century had much to do with neglect of the moral pillar of liberalism Its historical contention is that for much of the past two centuries it did rely on all three pillars But Kahan also argues that liberalism is not only a party of fear It is also a party of hope or the party of progress Many of the contradictions typical of liberalism derive from the seemingly contradictory effort to encompass both hope and fear If in case of conflict fear often trumps hope for liberals loss aversion applies in politics as much as in economics and utopia is subject to indefinite postponement progress in personal autonomy and development has always been at the heart of liberalism Liberals typically support their hopes on the same three pillars of freedom markets and morals which they use to ward off their fears Nevertheless in one respect those historians and political theorists who identify liberalism with laissez faire economics are not wrong It is characteristic of liberalism then that it bases its hopes not on the state but on civil society which for liberals is the common source of a free politics a free market and of morals Alan S Kahan is Professor of History at the Universit de Versailles His previous books include Tocqueville Democracy and Religion Checks and Balances for Democratic Souls Oxford 2015 Alexis de Tocqueville Continuum Books and Mind vs Money The War Between Intellectuals and Capitalism Transaction Publishing 2010

volume Krishnamurti takes great care to elucidate this necessity of a revolution within our consciousness where the problem lies before we expect any kind of revolutionary change outside of ourselves Krishnamurti posits that if the politicians and scientists wanted to end starvation in the world it could be done It could be done but they are not going to do it as long as their thinking is based on nationalism on motives of their own personal profit And even if this far reaching outward change were brought about it seems to me that the problem is much deeper The problem is not merely starvation war the brutality of man to man it is the crisis in our own consciousness Fundamentally the problem lies within p 295 *An Introduction to the Teachings* J.
