Hegel and Modern Society Charles Taylor, 2015-10-06 This rich study explores the elements of Hegel's social and political thought that are most relevant to our society today Combating the prevailing post World War II stereotype of Hegel as a proto fascist Charles Taylor argues that Hegel aimed not to deny the rights of individuality but to synthesise them with the intrinsic good of community membership Hegel's goal of a society of free individuals whose social activity is expressive of who they are seems an even more distant goal now and Taylor's discussion has renewed relevance for our increasingly globalised and industrialised society This classic work is presented in a fresh series livery for the twenty first century with a specially commissioned new preface written by Frederick Neuhouser

ERS. Economic Research Service (U.S.), 1974 Being Faithful: Christian Commitment in Modern Society Judith A. Merkle, 2010-09-02 This book explores how the Christian life is lived in a pluralistic situation where different contexts of belonging give rise to different moral challenges While it is characteristic of modern life to exist in a postmodern situation where there is an erosion of comprehensive systems of meaning we still live today in contexts of belonging We still seek to gather out of the fragments of modern life the sustenance of a network of belonging belief and practice which comprise a faithful life The construction of such a life not only for us but for others serves as the framework for our moral commitments Furthermore sustaining and transforming social frameworks which shape various aspects of human life form the life task of adult Christians **The**

Sociology of Zygmunt Bauman Michael Hviid Jacobsen, Poul Poder, 2016-03-03 Zygmunt Bauman is one of the most inspirational and controversial thinkers on the scene of contemporary sociology. For several decades he has provided compelling analyses and diagnoses of a vast variety of aspects of modern and liquid modern living. This book considers the theoretical significance of his contribution to sociology but also discusses and adopts a critical stance towards his work. The Sociology of Zygmunt Bauman introduces and critically appraises some of the most significant as well as some of the lesser known of Bauman's contributions to contemporary sociology. An international team of scholars delineates and discusses how Bauman's treatment of these themes challenges conventional wisdom in sociology thereby revising and revitalizing sociological theory. As a special feature the book concludes with Bauman's intriguing reflections and contemplations on his own life and intellectual trajectory published here for the first time in English. In this postscript aptly entitled *Pro Domo Sua* About Myself he describes the pushes and pulls that throughout the years have shaped his thinking.

History and Class Consciousness Georg Lukacs, 1972-11-15 This is the first time one of the most important of Lukacs' early theoretical writings published in Germany in 1923 has been made available in English. The book consists of a series of essays treating among other topics the definition of orthodox Marxism, the question of legality and illegality, Rosa Luxemburg as a Marxist, the changing function of Historic Marxism, class consciousness and the substantiation and consciousness of the Proletariat. Writing in 1968 on the occasion of the appearance of his collected works, Lukacs evaluated the influence of this book as follows: For the historical effect of *History and Class Consciousness* and also for the actuality of the present time one problem is of decisive importance: alienation, which is here treated for the first time since Marx as the central question of a revolutionary critique of capitalism and whose historical as well as methodological origins are deeply rooted in Hegelian dialectic. It goes without saying that the problem was omnipresent. A few years after *History and Class Consciousness* was published it was moved into the focus of philosophical discussion by Heidegger in his *Being and Time*, a place which it maintains to this day largely as a result of the position occupied by Sartre and his followers. The philologic question raised by L. Goldmann who considered Heidegger's work partly as a polemic reply to my admittedly unnamed work need not be discussed here. It suffices today to say that the problem was in the air, particularly if we analyze its background in detail in order to clarify its effect: the mixture of Marxist and Existentialist thought processes which prevailed especially in France immediately after the Second World War. In this connection, priorities, influences and so on are not particularly significant. What is important is that the alienation of man was recognized and appreciated as the central problem of the time in which we live by bourgeois as well as proletarian, by politically rightist and leftist thinkers. Thus *History and Class Consciousness* exerted a profound effect in the circles of the youthful intelligentsia.
